

Graphic Operator Interface

# GP3000 SERIES

**Enhanced Manufacturing Solutions  
through Advanced HMI Capability**

# The Advanced Interface Between Operator and Machine

Your team - the most creative "functions" on the factory floor.  
 Drawing the best out of your team is essential in order to create a strong manufacturing organization.  
 The GP3000 Series lets your team control every machine in the factory.  
 Now everyone has access to information about the entire manufacturing process.  
 They can share this data to come up with new innovative ideas to increase productivity.

Create an environment, in which human machine interfaces can assist every operation to optimize performance.

High brightness models minimizing reflection to the features from a larger sized model provide high visibility even in well-lit locations

- 12.1-inch M class**  
**GP-3650U**  
Model: AGP3650-U1-D24
- 12.1-inch C class (CANopen Type)**  
**GP-3600U**  
Model: AGP3600-U1-D24-CA1M
- 5.7-inch S class**  
**GP-3300U**  
Model: AGP3300-U1-D24

5.7-inch is 1,000 cd/m<sup>2</sup>  
 12.1-inch is 800 cd/m<sup>2</sup>  
 (measured on TFT color LCD) ultra high-brightness TFT provides easy-to-read, sharp and clear view in a broad range of environments including well-lit locations.

Screen data capacity of large-sized models expanded

- With S/C class models 7.5-inch or larger with Rev.4 or later : 8MB >>> **16MB**
  - With M class models of 7.5-inch or larger : 8MB >>> **10MB**
- \*GP-3750T can use up to 16MB when record and playback functions are not in use.  
 \*Supported with GP-Pro EX Ver.2.6 or later.

# The GP3000 Series is available in four classes with diverse interfaces to suit your application perfectly

Introducing the Pro-face line-up of programmable operator interfaces

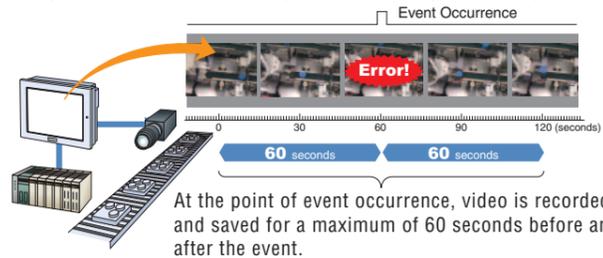

## For those who need video input

Multi-media class offers real visualization through video recording and playback.

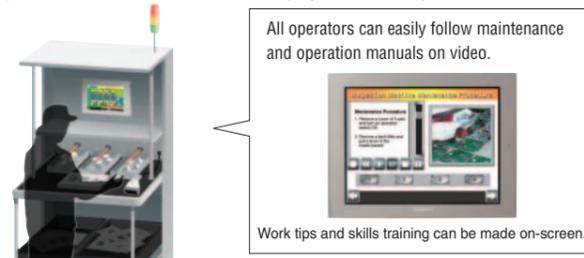

### The Event Recorder allows you to analyze the cause with recorded images

Video recording can capture a situation in image form. This feature is effective for predictive maintenance as well as preservation and analysis of error logs.

### Video functions make operation instructions easy to understand

You can play back a video file right on the GP3000. Operation instructions in video can display details clearly.

## For those who need more flexibility for I/O configurations

Control class offers control functions on HMI units

Select the I/O type best suited to your needs.

<p><b>The DIO offers direct extensions.</b></p> <p><b>DIO</b> 6 input points and 2 output points</p> <p>You can control I/O device to a GP unit without changing the PLC programs.</p>	<p><b>FLEX NETWORK enables to less-wiring for remote I/O connections.</b></p> <p><b>FLEX NETWORK</b> Bit variable input/output: 1024 points maximum Integer variable input/output: 256 points maximum*</p> <p>UP to 63 nodes can be connected. This enables remote control of large equipment.</p>	<p><b>CANopen (master)</b> Bit variable input/output: 1024 points maximum Integer variable input/output: 256 points maximum*</p>
--	--	--

\* To check about connectable I/O terminals, please refer to "Otasuke Pro!" (<http://www.pro-face.com/otasuke/>).

Note: Our products are available with a variety of types and numbers of interfaces. Please see page 05 for details.

<b>Supported Interfaces</b>	<b>Video-in</b> <b>Video Input Interface</b> For video input connection in NTSC/PAL/SECAM formats via a RCA interface	<b>Sound-in</b> <b>Sound Input Interface</b> For microphone connection via 3.5mm mini jack connector	<b>I/O</b> <b>I/O Interface</b> For Input/output device connection, such as sensors and relays	<b>Ethernet</b> <b>Ethernet Interface</b> 10BASE-T/100BASE-TX via IEEE802.3u interface	<b>Serial</b> <b>Serial Communication Interface</b> For RS-232C/422/485 connection
	<b>USB</b> <b>USB Interface</b> For screen data transfer and printer connection via USB 1.1 Type-A host interface	<b>Communication Unit</b> <b>Communication Unit</b> For optional communication unit connection, such as a fieldbus unit	<b>Video Unit</b> <b>Video Unit</b> For Video-mix, DVI-In and RGB-In unit connection	<b>CF Card</b> <b>CF Card Interface</b> For recipe filing, data sampling, alarm history, etc.	

Input sounds and video +

+ Mobility

## The standard GP3000 SERIES utilizes information from both production site and office.

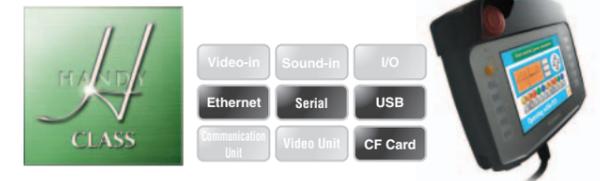

Standard class comes equipped with an information network connection

Inputs and Outputs +

## For those who need a handheld HMI

The handheld model features enhanced safety and ease of use.

### Emergency Switch

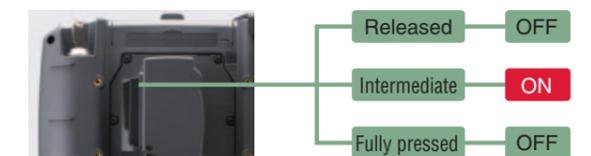

The emergency switch securely stops the machine in the event of emergency and circuit failure.

With the switch to operate 3 signal, safety is secure. Handheld units are available with or without an emergency switch. Switches are available in red, yellow or grey.

### 3-Position Enable Switch

If a hazardous event occurs, such as an electric shock, releasing or fully pressing the emergency switch will stop machine operation.

A forced contact opening function is also equipped.

The key switch allows you to move the device without triggering the emergency stop.

We offer a wide variety of functions and screen sizes from 15" to 3.8" – simply make the selection that best meets your requirements.

Please contact your sales agent for details regarding coating models.

# As an HMI specialist, Pro-face is committed to innovation.

## Committed to a wide range of device connections

Connect directly to a wide range of devices. From IT network to I/O, connect and visualize with a single GP unit.

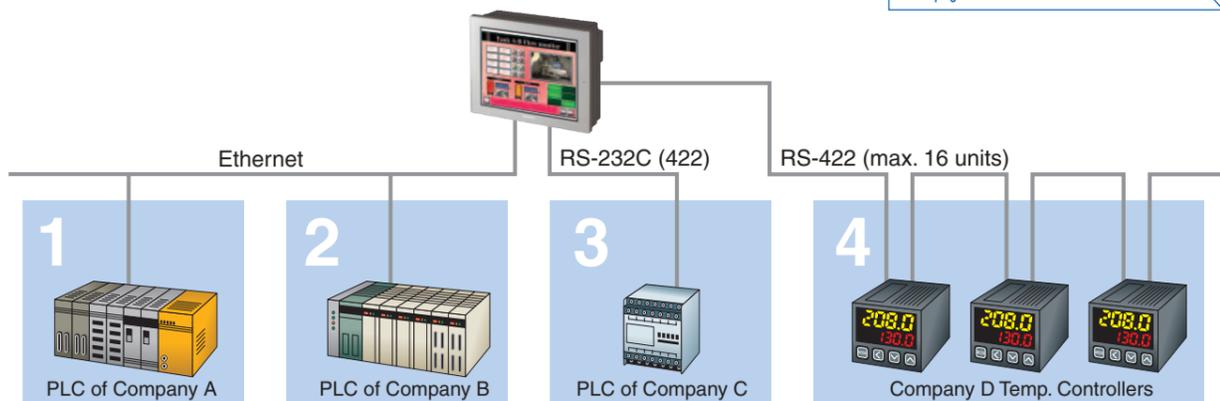

Connect directly to a variety of devices including PLCs made temperature controllers, and inverters by various manufacturers.

## Committed to program-less communication

Connect up to four types of controllers made by different manufacturers without programming.

See page 41 for a list of connection devices.

Using the Serial Interface and Ethernet Interface, you can manage all information from a single GP through simultaneous communication with up to four types of devices.

## Committed to display performance

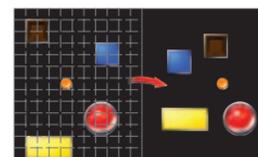

Screen display with high picture quality provides improved status monitoring.

TFT color LCD: 65,536 colors  
From a distance and from the side, you'll enjoy excellent visibility with high definition and wide viewing angles.

And Low Light-reflexion and Ultra High-brightness Models have clearly readable display, even in well-lit locations!

Clear, grid-free analog touch panel.

Free layouting

## Committed to reliability

The IP65f enclosure rating ensures dependable operation even in severe environments.

Models with environmentally protective covers and coating models which are protected from corrosive gases are available. (See page 06 for information of these models.)

## Committed to global standards

Meets International Safety Standards.

Because it is approved under various international standards, the GP3000 Series can be incorporated in equipment destined for international export with full confidence.

Complies with the environmentally focused RoHS directive.

Our products destined for European markets comply with European Restriction of Hazardous Substances Directive.

Pro-face is committed to offering solutions for labor-saving and improved efficiency.

## Smooth development and design P.09 - P.14

Quick, easy, attractive  
Introducing GP-Pro EX

Reliable compatibility  
Device replacement and software compatibility

Proven results increasing added value and reducing costs  
Introducing value-adding functions

## Dramatically improved production efficiency P.15 - P.18

Easy visualization of the production site  
Software that connects the production site to the office

Improving production site quality  
Data management/Monitoring solutions

Simple steps to improve production site security  
Password management and operation logs

## Improve debugging and maintenance P.19 - P.20

Easy maintenance  
Various functions that utilize the convenience of eliminating PCs

Reducing downtime when problems occur  
Handy features that are useful in a pinch

# Work efficiently, Streamline processes. Easy-to-use

User-friendly menu and icons on the editor provide easy operations, simply through drag and drop and other mouse operations.

The reference manual is now available in HTML format allowing you to quickly search for the information you need.

- Enter a text you want to search
- Jump directly from the settings screen to the relevant page

By registering frequently used headers and footers at the top and bottom of the screen, you can call up them on the required screens in the project at any time.

Parts can be placed from parts list with drag-and-drop operation. Advanced search functionality is also available.

The thumbnail display allows you to visually select any created screens.

**In addition**  
The called screen is displayed. When you use the call screen feature, the called screen is displayed one layer below the calling screen in the thumbnail display.

The user interface provides commonly used tabs on the edit screen.

Assign frequently used functions to the function keys to enable touch screen editing.

Main operations of function keys		
F2	Edit Text	Ctrl+F5   Switch
F9	Change Attributes	Ctrl+F7   Data Display
F10	Menu	Shift+F3   New Screen
F11	Full Screen	Ctrl+F1   Previous Screen
F12	Simulation	Ctrl+F2   Next Screen

# interface makes advanced functions simple.

## Easy creation of realistic screens

Our beautiful new "3D Real Parts" make it easy to create the most appealing screens.

Bitmap fonts make beautiful easy-to-read displays with excellent visibility.

Bright, realistic bitmap fonts can be used on the data display.

**In addition**

Windows fonts can even be used for data displays and alarms.

Windows fonts enable stylish screen creation. Font and size can be set individually for each text table when setting a text or a switch/lamp's label.

## Animation feature greatly reduces the number of display screens required

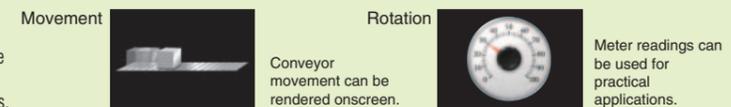

### Hide or call up specific parts

You can choose to hide or call up specific parts on the display screen. This is useful when you want to customize display screens for specific devices or operators.

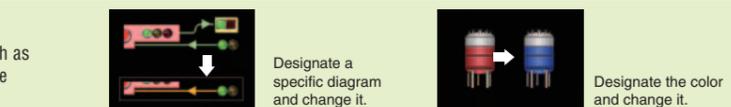

### Move and rotate objects

This animation feature allows you to move and rotate objects such as lines, rectangles and images. This reduces the time and labor required to select screens.

### Change colors of objects

You can freely change the colors of objects such as lines, rectangles and images. This eliminates the time and labor required to select screens.

\*GP3300 and GP3301 Series units must be Rev. 4 or above in order to use animation and Windows fonts. Contact your sales agent for more details.

### Efficient editing

#### Easy to find suitable part images in the parts tool Box

Parts are categorized for you to select one quickly and create screens efficiently.

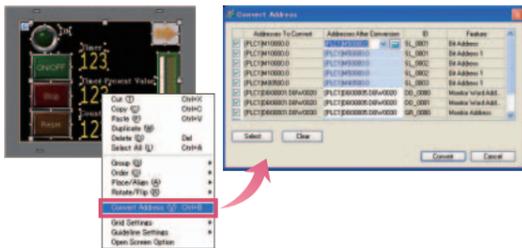

Parts can be selected by model, shape (type), color, or other attributes.

Place parts displayed in a list using drag-and-drop operation.

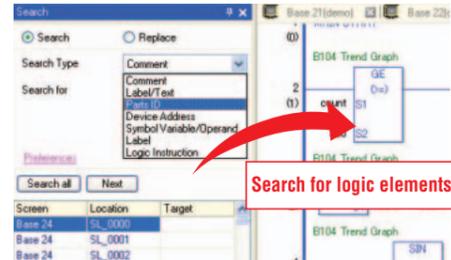

#### Change multiple parts and addresses at one time [Address Block conversion]

It is possible to select parts on the screen and change all their addresses at once.

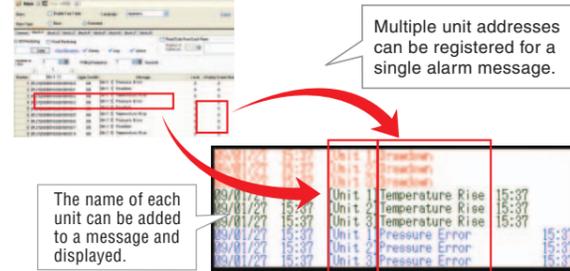

#### Quick search and replacement [Search Window]

It is easy to search for and edit text, addresses, and other information within a project. Batch replacement is also possible.

Search for logic elements too!

#### Share alarm messages between multiple PLCs

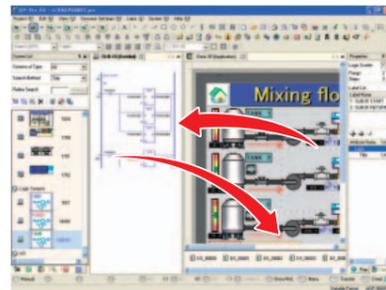

Multiple unit addresses can be registered for a single alarm message.

The name of each unit can be added to a message and displayed.

\* Requires function expansion memory (sold separately). Supported on GP3000 Series of 7.5" and above. Mounting method differs according to model.

### Program with a familiar ladder language [Logic Program]

As screen assembly and logic programming can be edited with the same software module, editing between parts and logic elements can be performed via drag and drop. To facilitate coordination, a function enables the direct writing of controller addresses.

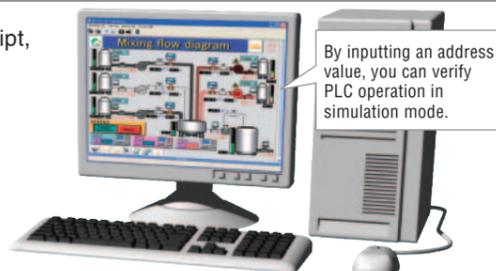

#### The online editing function allows you to make program changes on a computer during operation.

You can make changes in a program without stopping operation - even while the control function is in operation. This enables work efficiency at startup and during maintenance.

### With off-line Simulation, you can easily check programs on a PC on a computer [Simulation]

All GP3000 operations - including screen operation, D-script, and logic programs - can be tested on a PC.

Screen captures allow you to create documents easily.

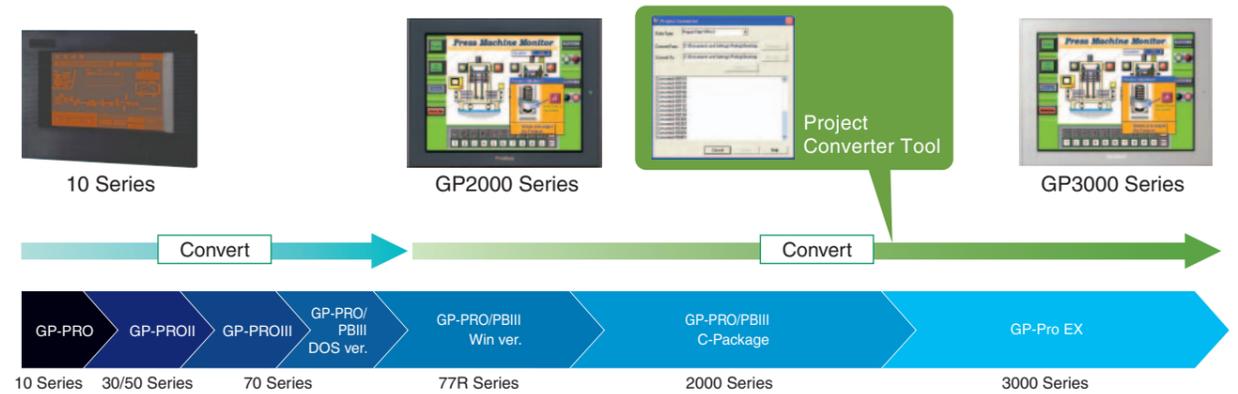

By inputting an address value, you can verify PLC operation in simulation mode.

### The GP3000 Series provides simple conversion from previous models.

The GP3000 Series is still capable of using screen data from the original GP Series. Panel cutout dimensions also remain the same as those of the original unit.

### Easy conversion of existing screen data from previous models [Software Compatibility]

Screen data from all GP Series since the original Model 10 Series can be reused. Data from the GP-PRO/PB III for Windows and more recent models can be converted directly using GP-Pro EX Project Converter, making the transfer to the GP3000 Series smooth.

### The panel cutouts maintain the same sizes [Hardware compatibility]

You can replace only the display unit in one equipment unit easily.

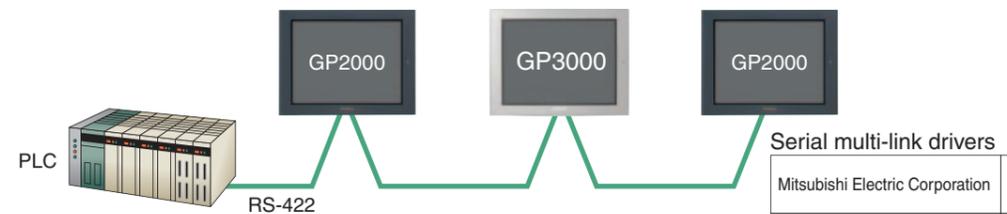

Transfer to a new model without changing the mold.

SERIES	Panel cutout dimensions (Dimension error ±0.1)					Panel cutout unit: mm			
	Size	301.5 / 227.5	259 / 201	204.5 / 159.5	156 / 123.5		118.5 / 92.5		
GP77R SERIES	10.4	GP-577R	8.9	GP-477RE	—	5.7	GP-377	—	
GP2000 SERIES	12.1	GP-260*	—	7.5	GP-240*	5.7	GP-230*	—	
	10.4	GP-250*	—	—	—	—	—	—	
GP3000 SERIES	12.1	GP-36**	10.4	GP-35**T	7.5	GP-34**	5.7	GP-33**	
	10.4	GP-3500S	—	—	—	—	—	3.8	GP-3200

10.4 : The number in the box shows the screen size of the display unit.

### Supports RS-422 multi-link connection [Communication Compatibility]

Conventional models and the GP3000 Series can be used together, allowing new units to be installed in existing systems.

Serial multi-link drivers	
Mitsubishi Electric Corporation	Q/QnA Serial Communication FX Series Computer Link A Series Computer Link
OMRON Corporation	CS/CJ Series HOST Link C/CV Series HOST Link
Yokogawa Electric Corporation	Personal Computer Link SIO

\* Other drivers are scheduled to be released in quick succession.

# The GP3000 Series adds more value to applications,

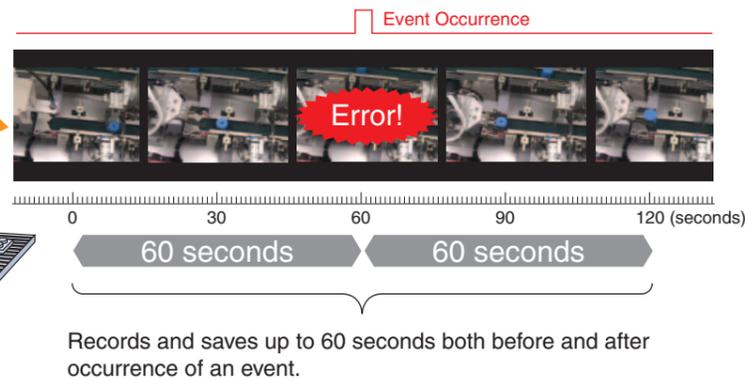

# reducing costs and labor-hours.

## Record machine status and analyze causes of errors [Event Recorder]

Error logs from video recording can be saved and analyzed.

Wide lineup of display sizes from 5.7" to 15"

In addition

Identify errors by combining with trend graphs and alarm logs.

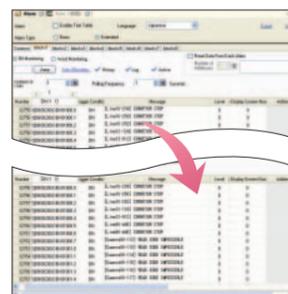

Trend Graph

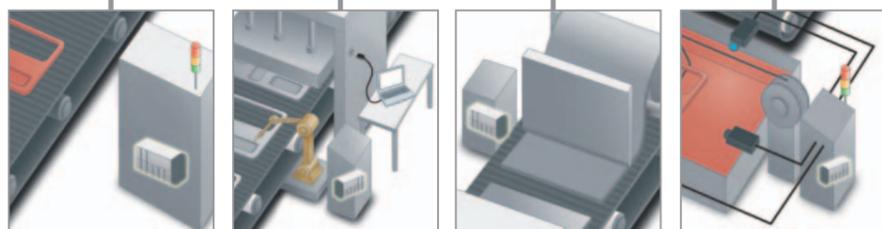

Alarm Log

## Monitor the entire manufacturing process [Alarm Function]

Support for up to 32,767 alarms! A single display can monitor alarms for the entire factory, even for devices and systems that use multiple PLCs and therefore require huge numbers of alarm messages.

Alarm data for all equipment can be handled in a single GP3000 Series unit

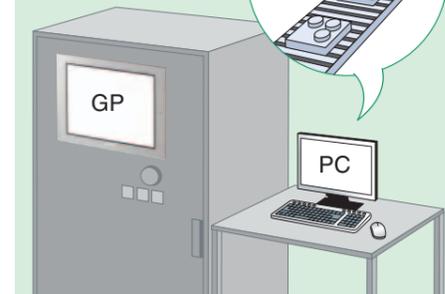

\* Requires function expansion memory (sold separately). Supported on GP3000 Series of 7.5" and above. Mounting method differs according to model.

## Reduce number of monitors with Video Unit [Video Unit]

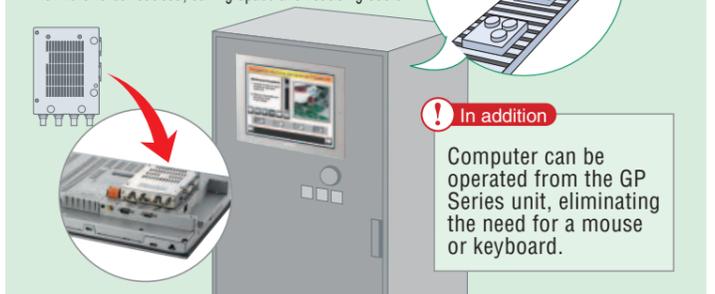

Previously...

The display and image processing monitor were separate...

Now...

Combined display and Video Unit can be connected directly to cameras, image processors, computers, and other devices. This enables the number of necessary monitors to be reduced, saving space and reducing costs.

In addition

Computer can be operated from the GP Series unit, eliminating the need for a mouse or keyboard.

3 types of Video Units to suit different applications

	Application	Input	Output
<b>VM Unit</b> GP3000-VM01	All-in-one model capable of video input and DVI input/output	Video input x 4 ch (NTSC/PAL) DVI input x 1 ch	DVI output x 1 ch
<b>DVI Input Unit</b> GP3000-DVI01	Displays video from a computer via DVI interface	DVI input x 1 ch	—
<b>RGB Input Unit</b> GP3000-RGB201	Displays video from a computer via analog RGB (2 ch)	Analog RGB input x 2 ch	—

## Connect to multiple devices to reduce costs and labor-hours [Multi-Driver/Multi-Ethernet]

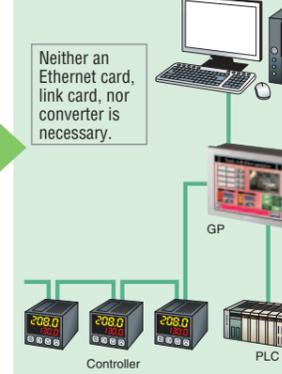

### Connect different devices to the GP3000 Series and save costs

Multiple drivers enable central management of multiple controllers. Link cards are no longer required, and up to four types of communication devices can be connected to one display unit.

Previously...

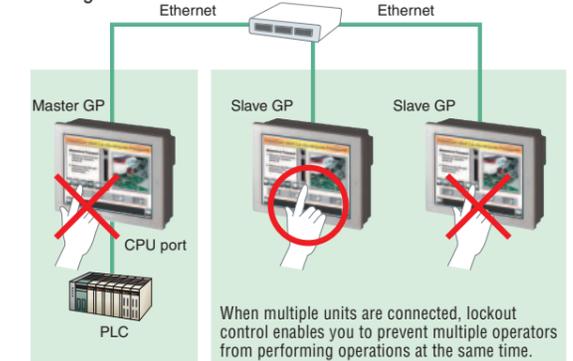

With GP3000 The gateway for a variety of communications devices.

Neither an Ethernet card, link card, nor converter is necessary.

### Simply add GP3000 Series units to an Ethernet network

Multiple GP3000 Series units can be connected to a single PLC over an Ethernet. The GP3000 Series can even be connected directly to a CPU, making it easy to add new terminals and providing significant cost savings.

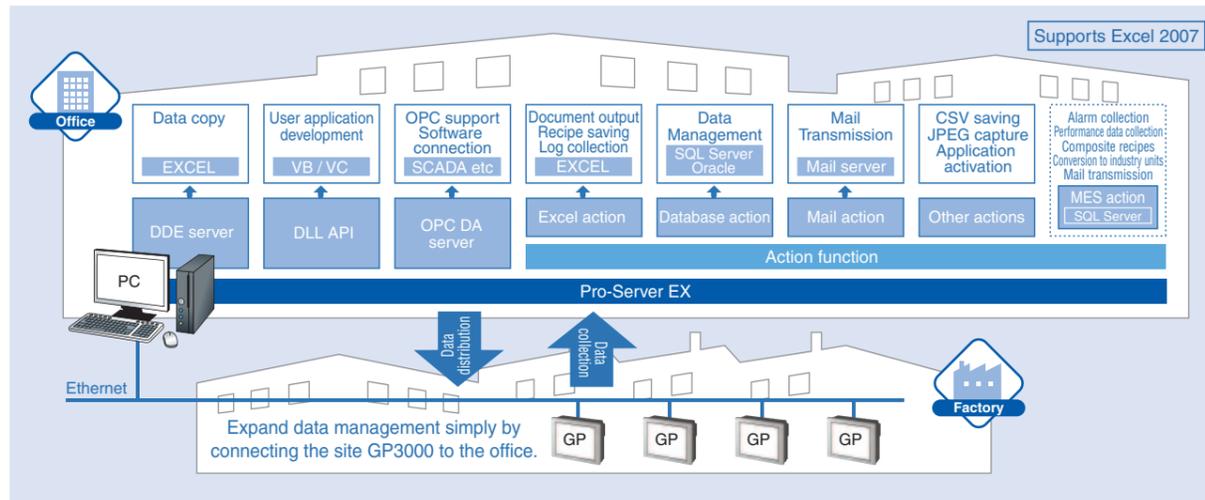

\* Available with devices equipped with an Ethernet port.  
\* GP3000 Series Rev. 4 or higher is required. Please contact your sales agent for details.  
\* In using the 5.7 inch or smaller size as a master GP, the performance may deteriorate. Please test the response before using.  
\* It is recommend to connect GP to Multi-Ethernet feature with straight cable via HUB.

# Pro-face's unique visualization solutions connect the production site and the office

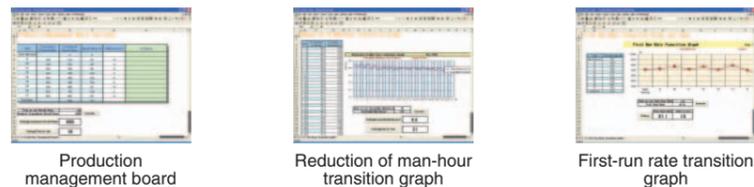

Definitive visualization software that connects the production site to the office

Production data is provided in familiar Excel format to ensure maximum utilization.

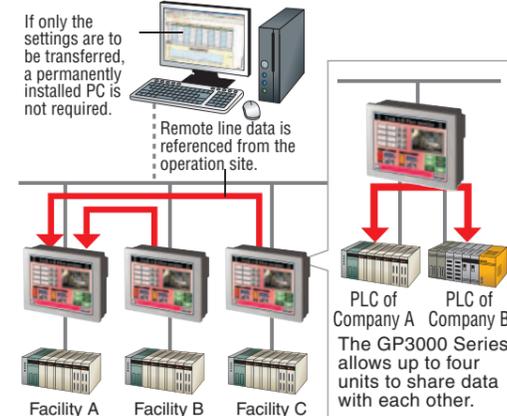

## Standard templates are provided for immediate use.

- Daily report, Monthly report
- Work progress control
- Work plan
- Performance control
- Andon signal panel
- ...etc.

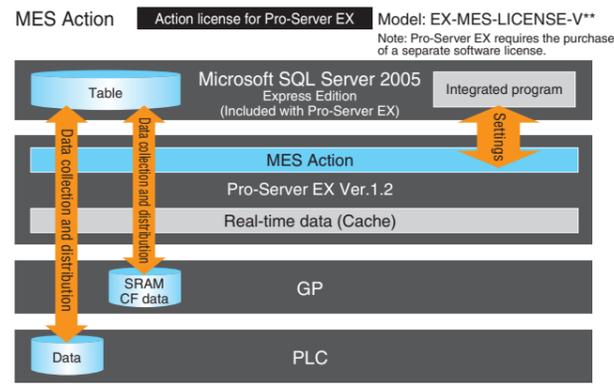

## Inter-device Communication

For inter-device communication with devices connected to the GP3000, you can share data without a PC regardless of the type of data or control device.

## Link directly to database with the MES Action tools

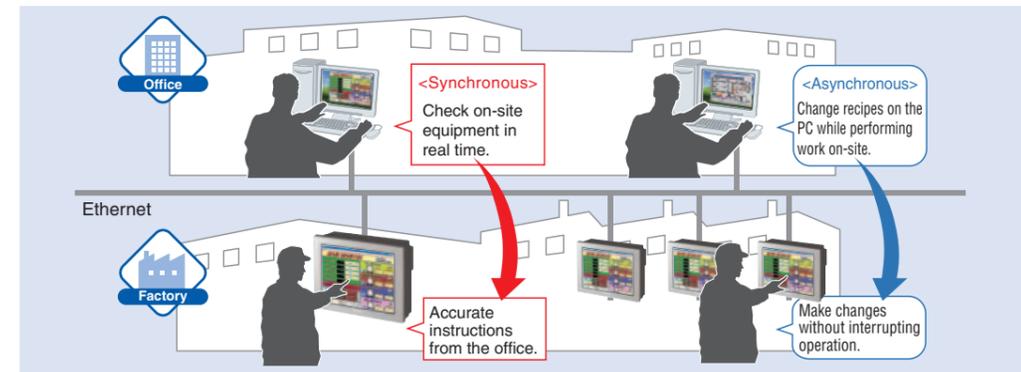

You can visualize site information that is frequently requested by management. What's more, production performance and operating conditions can be checked in real time. These advantages make it possible to implement an appropriate plan at a low cost.

Site screens can be monitored and operated from an office.

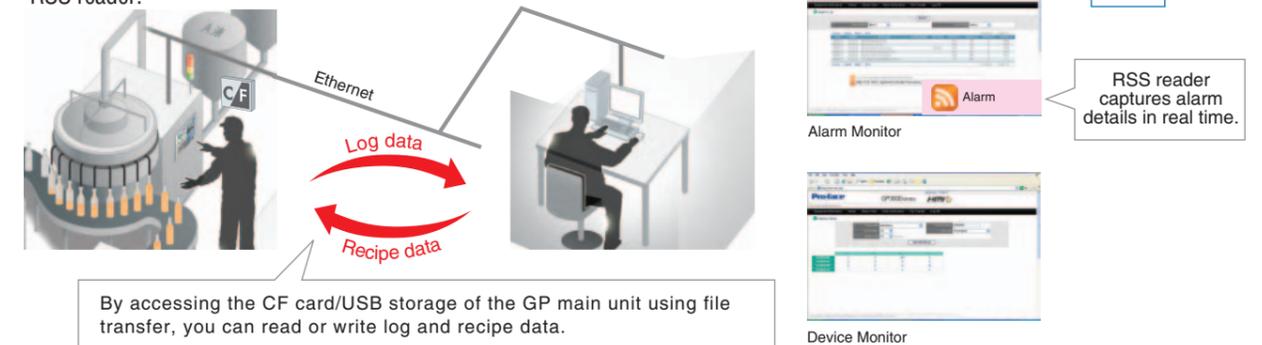

The GP screen at the factory site can be monitored with the remote PC in the office. No new screen or programming is required for real-time management and monitoring. Exclusive access control has been newly supported.

Note: GP-Viewer EX requires the purchase of a separate software license.

## Monitor site conditions and construct a file transfer function [Web Server]

You can monitor (device monitor and alarm monitor) with a browser using Web Server. For the alarm monitor, alarm information can be checked in real time with an RSS reader.

By accessing the CF card/USB storage of the GP main unit using file transfer, you can read or write log and recipe data.

Note: Microsoft® Internet Explore Ver.6 or Ver.7 and CF card/USB storage are required.

## Check data on an office computer from GP [RPA (Remote PC Access)]

With the RPA function, an operation manual on the office PC can be displayed on a GP.

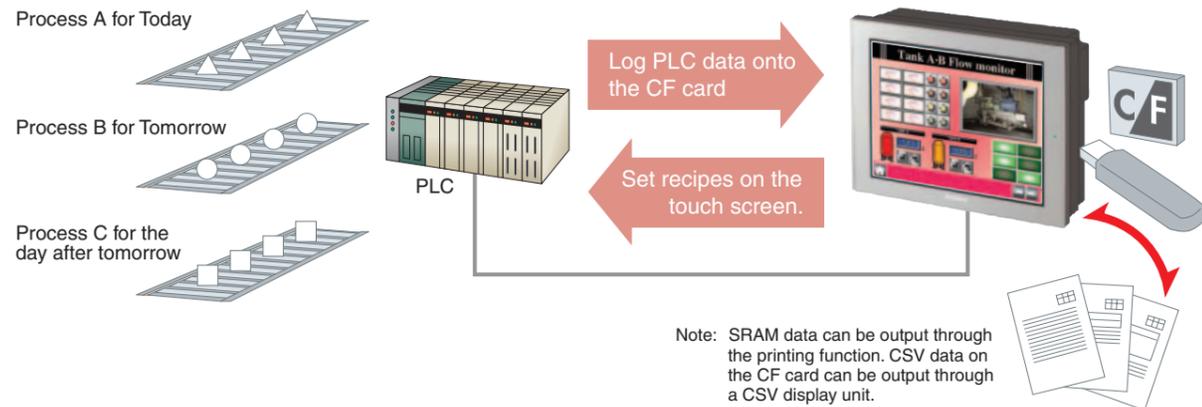

RPA GP-Pro EX add-on software Model: EX-RPA Note: RPA requires the purchase of a separate software license.

## Manage and monitor production site data with the GP3000 Series

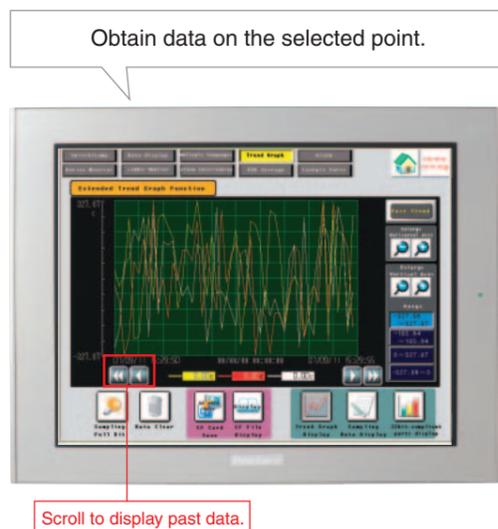

### Create daily and monthly reports with USB memory or CF card [Logging Function/CSV Data Transfer Function]

The logging function improves the efficiency of preparing daily and monthly reports.  
The CSV data transfer function enables you to use the GP to set changes for the PLC.

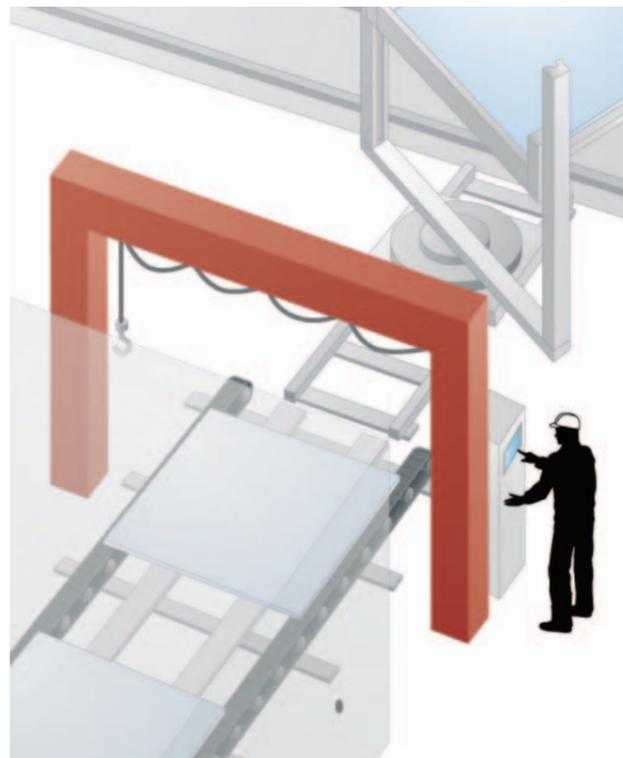

### Show current and past detailed data [Historical Trend Graphs]

The historical trend graph function has been enhanced. To display past data, simply specify the time. Zoomed graph display is useful in detailed analyses.

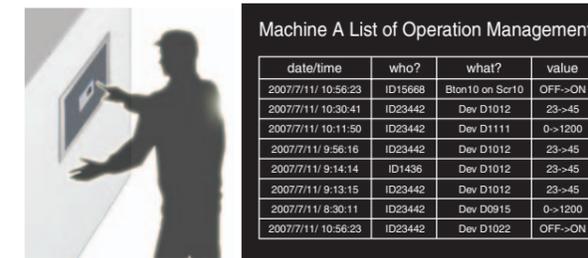

You can check the time of the data record immediately because the times of both ends of the data record are displayed.

## Ensure production site security with the GP3000 Series

### Secure operating screens for administrators and operators [Password Management]

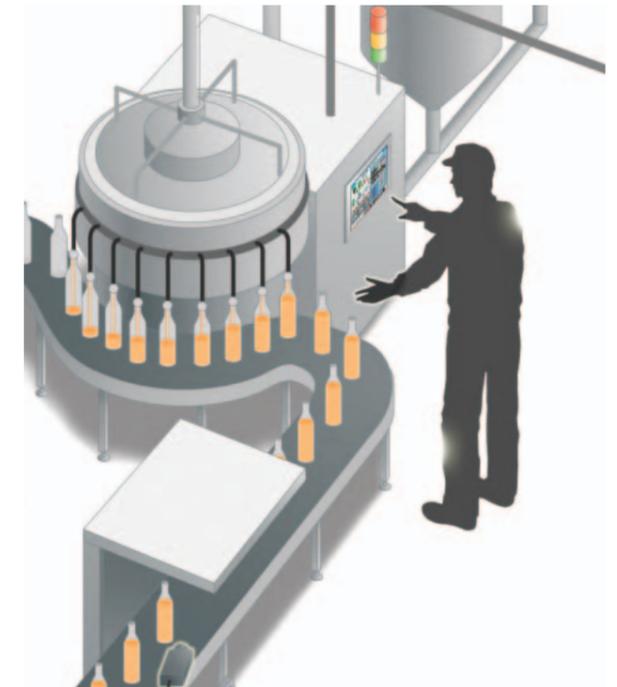

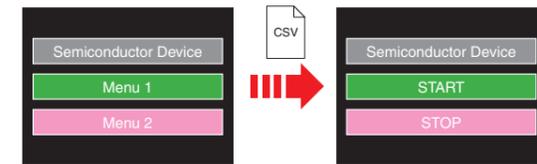

Privileges can be set according to operator responsibilities. Operators are required to log in using a set ID and password, which enhances security.

**In addition**

You can perform maintenance without an editor.

You can assign preferred names in the CSV files stored on a USB drive or CF memory card. You can input the name on the touch screen simply by entering an ID number and calling up the maintenance screen.

### Record operator actions and error causes [Operation Log]

Access to information saved in an operation log – such as the “who”, “what”, and “when” regarding operations – can greatly reduce the time required to analyze any problems that might arise. Moreover, analysis of trends in operator mistakes and the like can lead to improvements at the worksite.

## GP3000 Series identifies and helps to solve on-site problems without a computer

### Easy transfer of screen data with USB memory

Modified screen data can be transferred to a GP unit with USB memory.

**In addition**

- You can easily change passwords with a CSV file.
- You can easily edit character strings such as alarms and nameplates in a CSV file.

You can even change passwords regularly without Screen-creation software.

You can change nameplates without Screen-creation software.

Passwords can be changed online.

Read while off-line or at startup.

**Other devices**

Printer      Keyboard      Bar-code / 2D Code Reader

\*For information on connectable devices, refer to Otasuke Pro! (<http://www.pro-face.com/otasuke/>).

### Monitor ladder programs on GP Easily identify problem causes [Ladder Monitor/Device Monitor]

To ensure improvements after line startup, sensors make possible a variety of program monitoring screens.

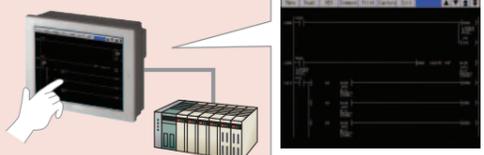

#### Monitoring of PLC ladder programs

Device Monitor

You can change address values by checking the PLC device.

Ladder Monitor

The PLC's ladder programs can be monitored in online mode. The Mitsubishi PLC Q Series (CPU Direct/Ethernet), A Series (CPU Direct/Computer Link), and OMRON PLC CS/CJ Series are supported. Ladder programs require the purchase of a separate software license.

#### Monitoring GP3000 logic programs

Logic display

Displays the entire logic. Check the operating status and instruction layout.

\*All models except for GP3000H and GP3200 series.

Address display

Displays the logic address. Check the variable name and the current value.

\*All models except for GP3000H and GP3200 series.

## GP3000 Series can help reduce downtime

### Debug PLCs connected to GP [Pass-Through]

You can easily adjust debugging ladders and data in the PLC due to line changes through GP.

You can debug even if the control panel is in a remote location.

Using the front-mounted USB, you can debug without opening the panel.

Dedicated USB Transfer Cable or Ethernet Cable

The online editing function allows you to change logic programs without stopping the system.

Note: See page 41 for the compatible PLC driver. Windows® 2000 Professional (Service Pack 4 or later), Windows® XP Home Edition and Professional (Service Pack 2 or later), and Windows Vista® Home Premium are supported.

\*The pass-through feature needs to be installed from the GP-Pro EX CD-ROM to PC.

### Video instructions reduce the workload of on-site support [Video Playback]

By providing operation and maintenance instructions on video, you can create an environment that enables any site operators to perform maintenance from clear instructions.

Learn operating tips and technical know-how from videos.

### Display error messages and operating instructions of connected controllers [Sample Screens]

The display shows connected device status. What's more, all error details are pre-set, meaning that processes that would ordinarily take over a month can be completed instantly, simply by adding parts.

Details can be checked on the display without the need to look at the connected device itself.

You can do it by yourself, without even touching the actual machine.

Pro-face provides a wide choice of samples for equipment made by a variety of manufacturers

\*Refer to the Otasuke Pro!, the Pro-face support website (<http://www.pro-face.com/otasuke/>) for details.

### GP-3750T

SIO2ch	Ethernet	Communication Unit	Video Unit
USB(Host)	CF Card	AUX Sound out	Video in
Sound in	DIO(Sink/Source)	FLEX NETWORK	CANopen

Model:  
 [AC] AGP3750-T1-AF  
 [AC] AGP3750-T1-AF-M [Coating model]  
 [DC] AGP3750-T1-D24  
 [DC] AGP3750-T1-D24-M [Coating model]

### GP-3650U/T

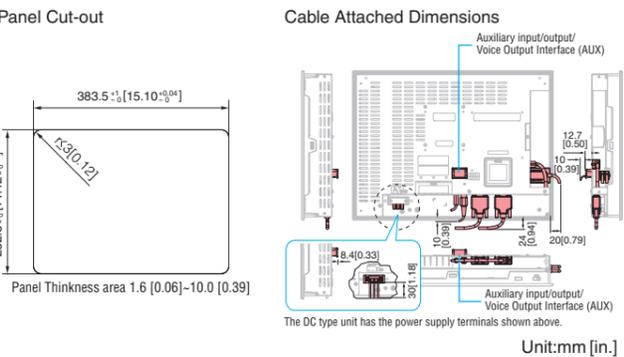

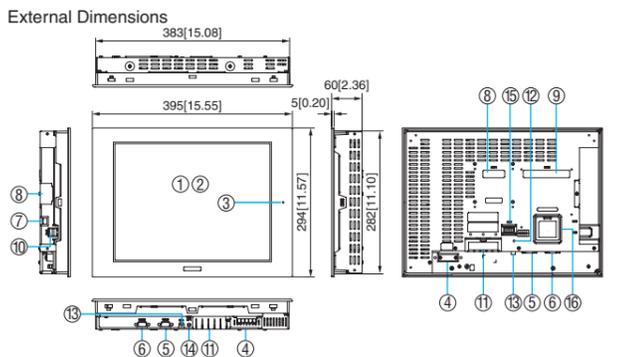

SIO2ch	Ethernet	Communication Unit	Video Unit
USB(Host)	CF Card	AUX Sound out	Video in
Sound in	DIO(Sink/Source)	FLEX NETWORK	CANopen

Model:  
 [DC] AGP3650-U1-D24 [High luminance model]  
 [AC] AGP3650-T1-AF  
 [AC] AGP3650-T1-AF-M [Coating model]  
 [DC] AGP3650-T1-D24-M [Coating model]

FUNCTIONAL SPECIFICATION		GP-3750T	
Display Type	TFT Color LCD		
Display Colors	65,536 Colors (no blink) / 16,384 Colors (Enables blink feature) *1		
Display Resolution	1024 x 768 pixels (XGA)		
Backlight *2	LED (When replacement is required, contact your Pro-face sales.)		
Effective Display Area *2	304.1mm[11.97in.] x 228.1mm[8.98in.]		
Brightness Control	8 levels of adjustment available via touch panel		
Language Fonts	Japanese: 6962 (JIS Standards 1&2) (including 607 non-kanji characters), ANK: 158 *3		
Character Sizes	Standard font: 8 x 8, 8 x 16, 16 x 16 and 32 x 32 dot fonts, Stroke font: 6 to 127 dot fonts		
Font Sizes	Standard font: Width can be expanded up to 8 times. Height can be expanded up to 8 times *4		
Text	8 x 8 dots	128 Char. x 96 rows	
	8 x 16 dots	128 Char. x 48 rows	
	16 x 16 dots	64 Char. x 48 rows	
	32 x 32 dots	32 Char. x 24 rows	
Application Memory	16MB FLASH EPROM (10MB when the Event Recorder Function is in use) *5		
Data Backup Memory	320KB SRAM (uses lithium battery) *6		
Control Memory	Variable Area	64KB SRAM (uses lithium battery) *6	
	Program Area	132KB FLASH EPROM	
	Number of Steps	15,000 steps*7	
Touch Panel Type	Resistive Film (analog)		
Touch Panel Resolution	1024 x 1024		
Interface	Serial (COM1)	Asynchronous Transmission: RS-232C/422/485 *8 Data Length: 7/8 bits, Stop Bit: 1/2 bits, Parity: none, Odd or Even, Data transmission speed: 2400bps to 115.2kbps, Connector: D-Sub 9pin plug	
	Serial (COM2)	Asynchronous Transmission: RS-422/485 Data Length: 7/8 bits, Stop Bit: 1/2 bits, Parity: none, Odd or Even, Data transmission speed: 2400bps to 115.2kbps 187.5kbps(MPI), Connector: D-Sub 9pin socket	
	Ethernet	IEEE802.3i / IEEE802.3u, 10BASE-T/100BASE-TX, modular jack connector (RJ-45) x 1	
	Expansion Unit(1)	For Communication Unit x 1	
	Expansion Unit(2)	For Video Unit x 1	
	USB	USB1.1 (USB Type-A conn.) x 2 Power voltage: DC5V±5%, Output current: 500mA (max.), Max. Communication distance: 5m	
	CF Card	CF Card Slot (Type-II) x 1	
	Video Input	NTSC: 59.9Hz, PAL: 50Hz, SECAM: 50Hz, Connector: RCA 75Ω x 1	
	Sound Input	MIC input/LINE input (Change with S/W), Connector: MINI-JACK Φ3.5 x 1	
	Sound Output	Speaker Output 70mW (Rated Load: 8Ω, Frequency: 1kHz) Connector: Two piece type terminal block (also used for AUX) x 1	
	AUX Input/Output	[AUX Output] Alarm Output, RUN Output, Buzzer Output, Rated Voltage: DC24V, Max. Rated Current: 50mA, [AUX Input] Remote Reset Input, Input Voltage: DC24V, Input Current: 6mA, Operating Voltage: (When ON) Min:DC9V, (When OFF) Max:DC2.5V Connector: Two piece type terminal block x 1	
	Function Expansion Memory	Installed on function expansion memory interface cover	

GENERAL SPECIFICATION	AC	DC
International Safety Standards	UL, CE, FCC, RoHS	UL, CE, FCC, RoHS
Certifications	UL60950-1, UL1604 *9, ANSI/ISA 12.12.01 *9, CAN/CSA-C22.2 No.60950-1, CSA-C22.2 No.213 *9, EN55011 Class A, EN61000-6-2, EN60950-1, Gost-R, KCC	UL508, UL1604 *9, ANSI/ISA 12.12.01 *9, CSA-C22.2 No.14 or 142, CSA-C22.2 No.213 *9, EN55011 Class A, EN61000-6-2, Gost-R, KCC
Marine Certifications	—	ABS, BV, DNV, GL, LR, RINA *10
Input Voltage	AC100V to AC240V	DC24V
Rated Voltage	AC85V to AC265V	DC19.2V to DC28.8V
Rated Frequency	50/60Hz	—
Allowable Voltage	Shorter than 1cycle (Voltage drop interval must be 1s or more)	10ms or less
Power Consumption	AC100V 1.1A or less AC240V 0.7A or less	50W or less
Voltage Endurance	AC1500V 20mA for 1 minute (between charging and FG terminals)	AC1000V 20mA for 1 minute (between charging and FG terminals)
Insulation Resistance	10MΩ or higher at DC500V (min.)(between charging and FG terminals)	
Ambient Temperature	0°C to +50°C *11	
Storage Temperature	-20°C to +60°C	
Ambient Humidity	10%RH to 90%RH (Non-condensing, wet bulb temperature: 39°C max.)	
Storage Humidity	10%RH to 90%RH (Non-condensing, wet bulb temperature: 39°C max.)	
Pollution Degree	Pollution Degree 2	
Atmosphere	Free of corrosive gasses	
Air Pressure Vibration Resistance (Avialment altitude)	800hPa to 1114hPa (2000 meters or lower)	
Vibration Resistance	IEC61131-2 compliant 5Hz to 9Hz Single-amplitude 3.5mm 9Hz to 150Hz Fixed acceleration 9.8m/s <sup>2</sup> X, Y, Z directions for 10 cycle (100min.)	
Noise Immunity (via noise simulator)	Noise Voltage: 1500Vp-p Pulse Duration: 1μs Rise Time: 1ns	Noise Voltage: 1000Vp-p Pulse Duration: 1μs Rise Time: 1ns
Electrostatic Discharge Immunity	6kV (complies with EN 61000-4-2 Level 3)	
Grounding	Protection: Type D (Common to SG-FG) Function: Type D (Common to SG-FG)	
Ratings (For front panel of installed unit)	Equivalent to IP65f NEMA #250 TYPE 4X/13 *12	
External Dimensions	W395mm[15.55in.] x H294mm[11.57in.] x D60mm[2.36in.]	
Weight	5.6kg (12.3lb) max.(Unit Only)	
Cooling Method	Natural air circulation	

\*1: Changing the Colors setting to "65,536 colors" will disable the blinking feature on all screens in your project. If you wish to use the blinking feature, do not select "65,536 colors".  
 \*2: Except for coating models and the units with the revision 4 or earlier. The backlight of the units with revision 4 or earlier is CCFL (Replaceable). For details, please refer to User Manual.  
 \*3: Korean, Simplified and traditional Chinese, Cyrillic, and Thai fonts are downloadable. For details, refer to the GP-Pro EX Operation Environment.  
 \*4: Font Sizes can be set up by software.  
 \*5: Capacity available for user application. With GP-Pro EX Ver.2.5 or earlier versions, 8MB whether or not the Event Recorder Function is in use.  
 \*6: A Lithium battery's lifetime is:  
 10 years when the battery's ambient temperature is 40°C or less.  
 4.1 years when the battery's ambient temperature is 50°C or less.  
 1.5 years when the battery's ambient temperature is 60°C or less.  
 When used for back up: Approximately 100 days, with a fully charged battery.  
 \*7: Up to 60,000 steps can be converted in software. However, this reduces internal memory capacity (for screen data) by 1MB.  
 \*8: RS-232C and RS-422/485 can be switched with the editor software.  
 \*9: Suitable for use in Class I, Division 2, Groups A, B, C, and D Hazardous Locations, or Non-Hazardous Locations.  
 \*10: The certifications of these maritime classification societies are obtained only for AGP3750-T1-D24.  
 \*11: Operating temperature refers to temperature inside mounting enclosure and on the side of the display.  
 \*12: The degree of protection provided by these products is equivalent to IP65f, however their performance cannot be guaranteed for every environment. Be sure to confirm your work environment requirements prior to installation.

Cooling Method	Natural air circulation	—

- \*1: Changing the Colors setting to "65,536 colors" will disable the blinking feature on all screens in your project. If you wish to use the blinking feature, do not select "65,536 colors".
- \*2: Except for coating models and the units with the revision 4 or earlier. The backlight of the units with revision 4 or earlier is CFL (Replaceable). For details, please refer to User Manual.
- \*3: Korean, Simplified and traditional Chinese, Cyrillic, and Thai fonts are downloadable. For details, refer to the GP-Pro EX Operation Environment.
- \*4: Font Sizes can be set up by software.
- \*5: Capacity available for user application. 8MB available if the revision of the unit is earlier than Rev.4, or GP-Pro EX Ver.2.5 or earlier is used.
- \*6: A Lithium battery's lifetime is:  
10 years when the battery's ambient temperature is 40°C or less.  
4.1 years when the battery's ambient temperature is 50°C or less.  
1.5 years when the battery's ambient temperature is 60°C or less.  
When used for back up: Approximately 100 days, with a fully charged battery.
- \*7: Up to 60,000 steps can be converted in software. However, this reduces internal memory capacity (for screen data) by 1 MB. Approximately 6 days, with a half-charged battery.
- \*8: RS-232C and RS-422/485 can be switched with the editor software.
- \*9: Depending on the FLEX NETWORK unit, the amount of dedicated channels will change.
- \*10: AGP3600-U1-D24-CA1M is certified by only CE and Gost-R.
- \*11: Suitable for use in Class 1, Division 2, Groups A, B, C, and D Hazardous Locations, or Non-Hazardous Locations.
- \*12: Operating temperature refers to temperature inside mounting enclosure and on the side of the display.
- \*13: The degree of protection provided by these products is equivalent to IP65f, however their performance cannot be guaranteed for every environment. Be sure to confirm your work environment requirements prior to installation.

- \*1: Changing the Colors setting to "65,536 colors" will disable the blinking feature on all screens in your project. If you wish to use the blinking feature, do not select "65,536 colors".
- \*2: Korean, Simplified and traditional Chinese, Cyrillic, and Thai fonts are downloadable. For details, refer to the GP-Pro EX Operation Environment.
- \*3: Font Sizes can be set up by software.
- \*4: Capacity available for user application. 8MB available if the revision of the unit is earlier than Rev.4, or GP-Pro EX Ver.2.5 or earlier is used.
- \*5: A Lithium battery's lifetime is:  
10 years when the battery's ambient temperature is 40°C or less.  
4.1 years when the battery's ambient temperature is 50°C or less.  
1.5 years when the battery's ambient temperature is 60°C or less.  
When used for back up: Approximately 100 days, with a fully charged battery.  
Approximately 6 days, with a half-charged battery.
- \*6: Up to 60,000 steps can be converted in software. However, this reduces internal memory capacity (for screen data) by 1MB.
- \*7: RS-232C and RS-422/485 can be switched with the editor software.
- \*8: The Expansion Unit (1) and (2) cannot be used simultaneously.
- \*9: Depending on the FLEX NETWORK unit, the amount of dedicated channels will change.
- \*10: Refer to the "GP3000 Series Hardware Manual" for installation instructions.
- \*11: Suitable for use in Class I, Division 2, Groups A, B, C, and D Hazardous Locations, or Non-Hazardous Locations.
- \*12: Operating temperature refers to temperature inside mounting enclosure and on the side of the display.
- \*13: The degree of protection provided by these products is equivalent to IP65f, however their performance cannot be guaranteed for every environment. Be sure to confirm your work environment requirements prior to installation.

① About 10.4-inch models with TFT color LCD. Replacing the GP2500 Series with the GP-3500T requires an optional Panel Cutout Adapter (CA4-ATM10-01).  
 ② Depending on the type of connection cable used the dimensions shown above will change. The dimensions given here are representative values and are intended for reference only.

# GP-3500S/L

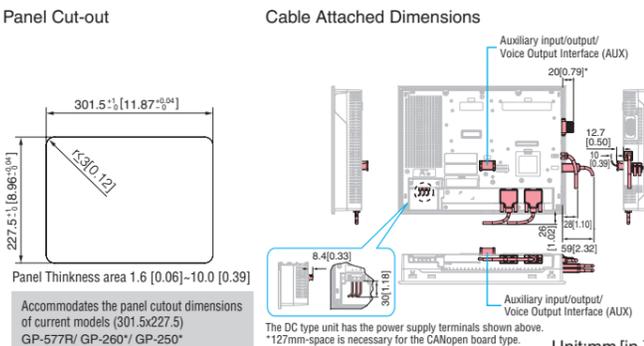

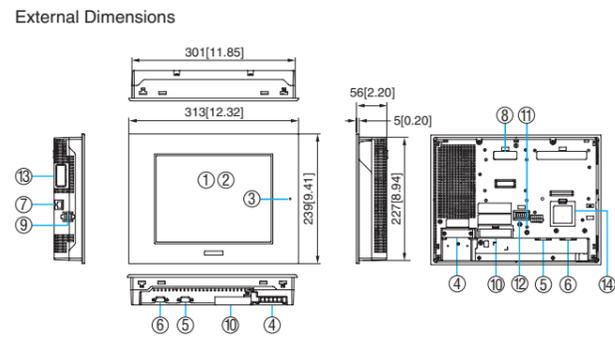

SIO2ch	Ethernet	Communication Unit	Video Unit
USB(Host)	CF Card	AUX Sound out	Video in
Sound in	DIO(Sink/Source)	FLEX NETWORK	CANopen

Model:  
 [AC] AGP3500-S1-AF  
 [DC] AGP3500-S1-D24  
 [DC] AGP3500-S1-D24-M [Coating model]  
 [DC] AGP3500-L1-D24

# GP-3450T

SIO2ch	Ethernet	Communication Unit	Video Unit
USB(Host)	CF Card	AUX Sound out	Video in
Sound in	DIO(Sink/Source)	FLEX NETWORK	CANopen

Model:  
 [DC] AGP3450-T1-D24  
 [DC] AGP3450-T1-D24-M [Coating model]

FUNCTIONAL SPECIFICATION	GP-3500S	GP-3500L	
Display Type	STN Color LCD	Monochrome LCD	
Display Colors	4,096 Colors	Black and White (16 Shades)	
Display Resolution	640 x 480 pixels (VGA)		
Backlight	CCFL (Replaceable)	CCFL (When replacement is required, contact your Pro-face sales.)	
Effective Display Area	215.2mm[8.43in.] x 162.3mm[6.39in.]	216.0mm[8.50in.] x 160.8mm[6.33in.]	
Brightness Control	8 levels of adjustment available via touch panel		
Contrast Adjustment	8 levels of adjustment available via touch panel		
Language Fonts	Japanese: 6962 (JIS Standards 1&2) (including 607 non-kanji characters), ANK: 158 *1		
Character Sizes	Standard font: 8 x 8, 8 x 16, 16 x 16 and 32 x 32 dot fonts, Stroke font: 6 to 127 dot fonts		
Font Sizes	Standard font: Width can be expanded up to 8 times. Height can be expanded up to 8 times *2		
Text	8 x 8 dots	80 Char. x 60 rows	
	8 x 16 dots	80 Char. x 30 rows	
	16 x 16 dots	40 Char. x 30 rows	
	32 x 32 dots	20 Char. x 15 rows	
Application Memory	16MB FLASH EPROM *3		
Data Backup Memory	320KB SRAM (uses lithium battery) *4		
Control Memory	Variable Area	64 KB SRAM (uses lithium battery) *4	
	Program Area	132 KB FLASH EPROM	
	Number of Step	15,000steps*5	
Touch Panel Type	Resistive Film (analog)		
Touch Panel Resolution	1024 x 1024		
Interface	Serial (COM1)	Asynchronous Transmission: RS-232C/422/485 *6 Data Length: 7/8 bits, Stop Bit: 1/2 bits, Parity: none, Odd or Even, Data transmission speed: 2400bps to 115.2kbps, Connector: D-Sub 9pin plug	
	Serial (COM2)	Asynchronous Transmission: RS-422/485 Data Length: 7/8 bits, Stop Bit: 1/2 bits, Parity: none, Odd or Even, Data transmission speed: 2400bps to 115.2kbps 187.5kbps(MPI), Connector: D-Sub 9pin socket	
	Ethernet	IEEE802.3i / IEEE802.3u, 10BASE-T/100BASE-TX, modular jack connector (RJ-45)	
	Expansion Unit	For Communication Unit x 1	
	USB	USB1.1 (USB Type-A conn.) x 2 Power voltage: DC5V±5%, Output current: 500mA (max.), Max. Communication distance: 5m	
	CF Card	CF Card Slot (Type-II) x 1	
	Sound Output	Speaker Output 70mW (Rated Load: 8Ω, Frequency: 1kHz) Connector: Two piece type terminal block (also used for AUX) x 1	
	AUX Input/Output	[AUX Output] Alarm Output, RUN Output, Buzzer Output, Rated Voltage: DC24V, Max. Rated Current: 50mA, [AUX Input] Remote Reset Input, Input Voltage: DC24V, Input Current: 6mA, Operating Voltage: (When ON) Min:DC9V, (When OFF) Max:DC2.5V Connector: Two piece type terminal block	
	Function Expansion Memory	Installed on function expansion memory interface cover	

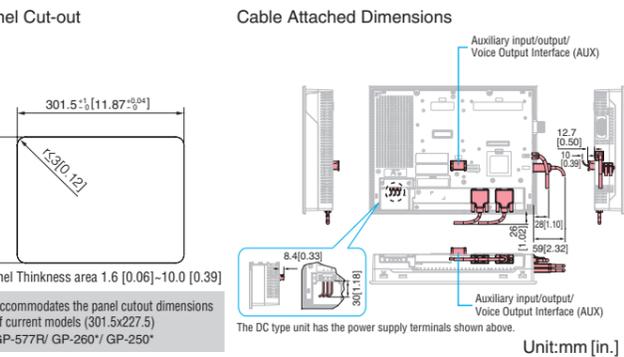

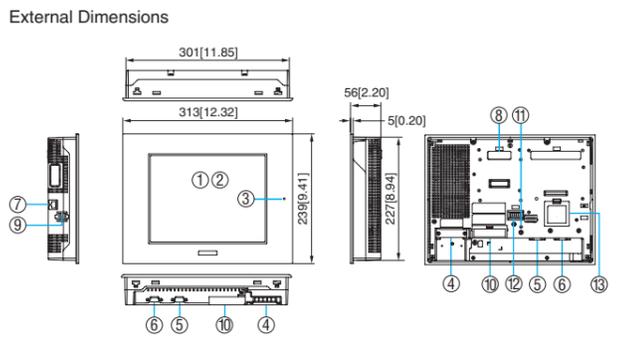

GENERAL SPECIFICATION	AC	DC
International Safety Standards	UL, CE, FCC, etc.	UL, CE, FCC, etc.
Certifications	UL60950-1, UL1604 *9, ANS/ISA 12.12.01 *9, CSA-C22.2 No. 60950-1, CSA-C22.2 No. 213 *9, EN55011 Class A, EN61000-6-2, EN60950-1, Gost-R, KCC	UL508, UL1604 *9, ANS/ISA 12.12.01 *9, CSA-C22.2 No. 14 or 142, CSA-C22.2 No. 213 *9, EN55011 Class A, EN61000-6-2, Gost-R, KCC *7
Marine Certifications	—	
Input Voltage	AC100V to AC240V	DC24V
Rated Voltage	AC85V to AC265V	DC19.2V to DC28.8V
Rated Frequency	50/60Hz	—
Allowable Voltage	Shorter than 1 cycle (Voltage drop interval must be 1s or more)	10ms or less
Power Consumption	AC100V 0.9A or less AC240V 0.45A or less	50W or less
Voltage Endurance	AC1500V 20mA for 1 minute (between charging and FG terminals)	AC1000V 20mA for 1 minute (between charging and FG terminals)
Insulation Resistance	10MΩ or higher at DC500V (min.)(between charging and FG terminals)	
Ambient Temperature	0 °C to +50 °C *9	
Storage Temperature	-20 °C to +60 °C	
Ambient Humidity	10%RH to 90%RH (Non-condensing, wet bulb temperature: 39 °C max.)	
Storage Humidity	10%RH to 90%RH (Non-condensing, wet bulb temperature: 39 °C max.)	
Pollution Degree	Pollution Degree 2	
Atmosphere	Free of corrosive gasses	
Air Pressure Vibration Resistance (Availment altitude)	800hPa to 1114hPa (2000 meters or lower)	
Vibration Resistance	IEC61131-2 compliant 5Hz to 9Hz Single-amplitude 3.5mm 9Hz to 150Hz Fixed acceleration 9.8m/s² X,Y,Z directions for 10 cycle (100min.)	
Noise Immunity (via noise simulator)	Noise Voltage: 1500Vp-p Pulse Duration: 1μs Rise Time: 1ns	Noise Voltage: 1000Vp-p Pulse Duration: 1μs Rise Time: 1ns
Electrostatic Discharge Immunity	6kV (complies with EN 61000-4-2 Level 3)	
Grounding	Protection: Type D (Common to SG-FG) Function: Type D (Common to SG-FG)	
Ratings (For front panel of installed unit)	Equivalent to IP65f NEMA #250 TYPE 4X/13 *10	
External Dimensions	W313mm[12.31in.] x H239mm[9.41in.] x D56mm[2.20in.]	
Weight	3.0kg (6.6lb) max.(Unit Only)	
Cooling Method	Natural air circulation	

- \*1: Korean, Simplified and traditional Chinese, Cyrillic, and Thai fonts are downloadable. For details, refer to the GP-Pro EX Operation Environment.
- \*2: Font Sizes can be set up by software.
- \*3: Capacity available for user application. 8MB available if the revision of the unit is earlier than Rev.4, or GP-Pro EX Ver.2.5 or earlier is used.
- \*4: A Lithium battery's lifetime is: 10 years when the battery's ambient temperature is 40 °C or less, 4.1 years when the battery's ambient temperature is 50 °C or less, 1.5 years when the battery's ambient temperature is 60 °C or less. When used for back up: Approximately 100 days, with a fully charged battery.
- \*5: Up to 60,000 steps can be converted in software. However, this reduces internal memory capacity (for screen data) by 1 MB.
- \*6: RS-232C and RS-422/485 can be switched with the editor software.
- \*7: The certification of KCC is obtained only for AGP3500-S1-D24.
- \*8: Suitable for use in Class I, Division 2, Groups A, B, C, and D Hazardous Locations, or Non-Hazardous Locations.
- \*9: Operating temperature refers to temperature inside mounting enclosure and on the side of the display. When using STN Color LCD models in an environment where the temperature becomes or exceeds 40 °C for an extended period of time, the screen contrast level may decrease from its original level of brightness.
- \*10: The degree of protection provided by these products is equivalent to IP65f, however their performance cannot be guaranteed for every environment. Be sure to confirm your work environment requirements prior to installation.

FUNCTIONAL SPECIFICATION	GP-3450T	
Display Type	TFT Color LCD	
Display Colors	65,536 Colors (no blink) / 16,384 Colors (Enables blink feature) *1

Language Fonts	Japanese: 6962 (JIS Standards 1&2) (including 607 non-kanji characters), ANK: 158 *2			
Character Sizes	Standard font: 8 x 8, 8 x 16, 16 x 16 and 32 x 32 dot fonts, Stroke font: 6 to 127 dot fonts			
Font Sizes	Standard font: Width can be expanded up to 8 times. Height can be expanded up to 8 times *3			
Text	8 x 8 dots	80 Char. x 60 rows		
	8 x 16 dots	80 Char. x 30 rows		
	16 x 16 dots	40 Char. x 30 rows		
	32 x 32 dots	20 Char. x 15 rows		
	Application Memory	16MB FLASH EPROM *4		
Data Backup Memory	320KB SRAM (uses lithium battery) *5			
Control Memory	Variable Area	64 KB SRAM (uses lithium battery) *5		
	Program Area	132 KB FLASH EPROM		
	Number of Step	15,000steps*6		
Touch Panel Type	Resistive Film (analog)			
Touch Panel Resolution	1024 x 1024			
Interface	Serial (COM1)	Asynchronous Transmission: RS-232C/422/485 *7 Data Length: 7/8 bits, Stop Bit: 1/2 bits, Parity: none, Odd or Even, Data transmission speed: 2400bps to 115.2kbps, Connector: D-Sub 9pin plug		
	Serial (COM2)	Asynchronous Transmission: RS-422/485 Data Length: 7/8 bits, Stop Bit: 1/2 bits, Parity: none, Odd or Even, Data transmission speed: 2400bps to 115.2kbps 187.5kbps(MPI), Connector: D-Sub 9pin socket		
	Ethernet	IEEE802.3i / IEEE802.3u, 10BASE-T/100BASE-TX, modular jack connector (RJ-45)		
	Expansion Unit	For Communication Unit x 1		
	USB	USB1.1 (USB Type-A conn.) x 1 Power voltage: DC5V±5%, Output current: 500mA (max.), Max. Communication distance: 5m		
	CF Card	CF Card Slot (Type-II) x 1		
	Sound Output	Speaker Output 70mW (Rated Load: 8Ω, Frequency: 1kHz) Connector: Two piece type terminal block (also used for AUX) x 1		
	AUX Input/Output	[AUX Output] Alarm Output, RUN Output, Buzzer Output, Rated Voltage: DC24V, Max. Rated Current: 50mA, [AUX Input] Remote Reset Input, Input Voltage: DC24V, Input Current: 6mA, Operating Voltage: (When ON) Min:DC9V, (When OFF) Max:DC2.5V Connector: Two piece type terminal block x 1		
	Control	DIO (Sink) type	Inputs: Sink/ Source type 6 points, Outputs: Sink type 2 points, connector:12 pin	
		DIO (Source) type	Inputs: Sink/ Source type 6 points, Outputs: Source type 2 points, connector:12 pin	
Control	FLEX NETWORK type	Bit variable input: 512 points, Bit variable output: 512 points, Integer variable input: 128 points, Integer variable output: 128 points, Connector:Dip *8		
	CANopen (master) type	Bit variable input: 512 points, Bit variable output: 512 points, Integer variable input: 128 points, Integer variable output: 128 points, Connector:D-Sub 9pin plug		
Function Expansion Memory	Attached to the internal PCB (memory can be installed by users) *8			

GENERAL SPECIFICATION	DC
International Safety Standards	UL, CE, RoHS, etc.
Certifications	UL508, UL1604 *10, ANSI/ISA 12.12.01 *10, CSA-C22.2 No.14 or 142, CSA-C22.2 No. 213 *10, EN55011 Class A, EN61000-6-2, Gost-R, KCC *9
Marine Certifications *11	ABS,BV,DNV,GL,LR,RINA *9
Input Voltage	DC24V
Rated Voltage	DC19.2V to DC28.8V
Rated Frequency	—
Allowable Voltage	10ms or less
Power Consumption	28W or less
Voltage Endurance	AC1000V 20mA for 1 minute (between charging and FG terminals)
Insulation Resistance	10MΩ or higher at DC500V (min.)(between charging and FG terminals)
Ambient Temperature	0 °C to +50 °C *12
Storage Temperature	-20 °C to +60 °C
Ambient Humidity	10%RH to 90%RH (Non-condensing, wet bulb temperature: 39 °C max.)
Storage Humidity	10%RH to 90%RH (Non-condensing, wet bulb temperature: 39 °C max.)
Pollution Degree	Pollution Degree 2
Atmosphere	Free of corrosive gasses
Air Pressure Vibration Resistance (Availment altitude)	800hPa to 1114hPa (2000 meters or lower)
Vibration Resistance	IEC61131-2 compliant 5Hz to 9Hz Single-amplitude 3.5mm 9Hz to 150Hz Fixed acceleration 9.8m/s <sup>2</sup> X,Y,Z directions for 10 cycle (100min.)
	Noise Immunity (via noise simulator)
Electrostatic Discharge Immunity	6kV (complies with EN 61000-4-2 Level 3)
Grounding	Protection: Type D (Common to SG-FG)
Ratings (For front panel of installed unit)	Equivalent to IP65F NEMA #250 TYPE 4X/13 *13
External Dimensions	W215mm[8.46in.] x H170mm[6.69in.] x D60mm[2.36in.]
Weight	1.8kg (4.0lb) max.(Unit Only)
Cooling Method	Natural air circulation

\*1: Changing the Colors setting to "65,536 colors" will disable the blinking feature on all screens in your project. If you wish to use the blinking feature, do not select "65,536 colors".  
 \*2: Korean, Simplified and traditional Chinese, Cyrillic, and Thai fonts are downloadable. For details, refer to the GP-Pro EX Operation Environment.  
 \*3: Font Sizes can be set up by software.  
 \*4: Capacity available for user application. 8MB available if the revision of the unit is earlier than Rev.4, or GP-Pro EX Ver.2.5 or earlier is used.  
 \*5: A Lithium battery's lifetime is:  
 10 years when the battery's ambient temperature is 40°C or less.  
 4.1 years when the battery's ambient temperature is 50°C or less.  
 1.5 years when the battery's ambient temperature is 60°C or less.  
 When used for back up: Approximately 100 days, with a fully charged battery.  
 \*6: Up to 60,000 steps can be converted in software. However, this reduces internal memory capacity (for screen data) by 1 MB.  
 \*7: RS-232C and RS-422/485 can be switched with the editor software.  
 \*8: Refer to the "GP3000 Series Hardware Manual" for installation instructions.  
 \*9: The certifications of KCC and these maritime classification societies are obtained only for AGP3400-T1-D24. The certification of KCC is obtained only for AGP3400-S1-D24.  
 \*10: Suitable for use in Class I, Division 2, Groups A, B, C, and D Hazardous Locations, or Non-Hazardous Locations.  
 \*11: For GP-3400T only  
 \*12: Operating temperature refers to temperature inside mounting enclosure and on the side of the display. When using STN Color LCD models in an environment where the temperature becomes or exceeds 40 °C for an extended period of time, the screen contrast level may decrease from its original level of brightness.  
 \*13: The degree of protection provided by these products is equivalent to IP65F, however their performance cannot be guaranteed for every environment. Be sure to confirm your work environment requirements prior to installation.

Interface	Serial (COM1)	Asynchronous Transmission: RS-232C/422/485 *7 Data Length: 7/8 bits, Stop Bit: 1/2 bits, Parity: none, Odd or Even, Data transmission speed: 2400bps to 115.2kbps, Connector: D-Sub 9pin plug			
	Serial (COM2)	Asynchronous Transmission: RS-422/485 Data Length: 7/8 bits, Stop Bit: 1/2 bits, Parity: none, Odd or Even, Data transmission speed: 2400bps to 115.2kbps (MPI), Connector: D-Sub 9pin socket			
	Ethernet	IEEE802.3i / IEEE802.3u, 10BASE-T/100BASE-TX, modular jack connector (RJ-45)			
	Expansion Unit	For Communication Unit x 1			
	USB	USB1.1 (USB Type-A conn.) x 1 Power voltage: DC5V±5%, Output current: 500mA (max.), Max. Communication distance: 5m			
CF Card	CF Card Slot (Type-II) x 1				
Sound Output	Speaker Output 70mA (Rated Load: 8Ω, Frequency: 1kHz), Connector: MINI-JACK Φ3.5 x 1				

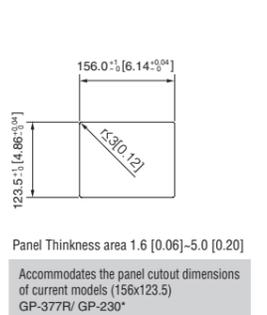

GENERAL SPECIFICATION	DC
International Safety Standards	UL, CE, RoHS, etc. *8
Certifications	UL508, UL1604 *9, ANSI/ISA 12.12.01 *9, CSA-C22.2 No.14 or 142, CSA-C22.2 No. 213 *9, EN55011 Class A, EN61000-6-2, Gost-R, KCC *8
Marine Certifications	ABS, BV, DNV, GL, LR, RINA *11
Input Voltage	DC24V
Rated Voltage	DC19.2V to DC28.8V
Rated Frequency	—
Allowable Voltage	5ms or less
Power Consumption	26W or less
Voltage Endurance	AC1000V 20mA for 1 minute (between charging and FG terminals)
Insulation Resistance	10MΩ or higher at DC500V (min.) (between charging and FG terminals)
Ambient Temperature	0 °C to +50 °C *12
Storage Temperature	-20 °C to +60 °C
Ambient Humidity	10%RH to 90%RH (Non-condensing, wet bulb temperature: 39 °C max.)
Storage Humidity	10%RH to 90%RH (Non-condensing, wet bulb temperature: 39 °C max.)
Pollution Degree	Pollution Degree 2
Atmosphere	Free of corrosive gasses
Air Pressure Vibration Resistance (Availment altitude)	800hPa to 1114hPa (2000 meters or lower)
Vibration Resistance	IEC61131-2 compliant 5Hz to 9Hz Single-amplitude 3.5mm 9Hz to 150Hz Fixed acceleration 9.8m/s <sup>2</sup> X,Y,Z directions for 10 cycle (100min.)
Noise Immunity (via noise simulator)	Noise Voltage: 1000Vp-p Pulse Duration: 1μs Rise Time: 1ns
Electrostatic Discharge Immunity	6kV (complies with EN 61000-4-2 Level 3)
Grounding	Protection: Type D (Common to SG-FG)
Ratings (For front panel of installed unit)	Equivalent to IP65f NEMA #250 TYPE 4X/13 *13
External Dimensions	W167.5mm[6.59in.] x H135mm[5.31in.] x D59.5mm[2.34in.]
Weight	1.0kg (2.2lb) max. (Unit Only)
Cooling Method	Natural air circulation

- \*1: Changing the Colors setting to "65,536 colors" will disable the blinking feature on all screens in your project. If you wish to use the blinking feature, do not select "65,536 colors".
- \*2: Korean, Simplified and traditional Chinese, Cyrillic, and Thai fonts are downloadable. For details, refer to the GP-Pro EX Operation Environment.
- \*3: Font Sizes can be set up by software.
- \*4: User area.
- \*5: A Lithium battery's lifetime is: 10 years when the battery's ambient temperature is 40 °C or less. 4.1 years when the battery's ambient temperature is 50 °C or less. 1.5 years when the battery's ambient temperature is 60 °C or less. When used for back up: Approximately 100 days, with a fully charged battery. Approximately 6 days, with a half-charged battery.
- \*6: Up to 60,000 steps can be converted in software. However, this reduces internal memory capacity (for screen data) by 1 MB.
- \*7: RS-232C and RS-422/485 can be switched with the editor software.
- \*8: The certification of KCC is obtained only for AGP3300-U1-D24, AGP3310-T1-D24, AGP3300-S1-D24, AGP3300-L1-D24, and AGP3300-L1-D24-M.
- \*9: Suitable for use in Class 1, Division 2, Groups A, B, C, and D Hazardous Locations, or Non-Hazardous Locations.
- \*10: AGP3300-U1-D24 is certified by only UL508 and CSA-C22.2 No.14 or 142.
- \*11: The certifications of ABS, BV, GL, and RINA are obtained only for AGP3300-T1-D24. The certification of LR is obtained only for AGP3300-T1-D24 and AGP3300-L1-D24. The certification of DNV is obtained only for AGP3300-L1-D24 and AGP3300-S1-D24.
- \*12: Operating temperature refers to temperature inside mounting enclosure and on the side of the display. When using STN Color LCD models in an environment where the temperature becomes or exceeds 40 °C for an extended period of time, the screen contrast level may decrease from its original level of brightness.
- \*13: The degree of protection provided by these products is equivalent to IP65f, however their performance cannot be guaranteed for every environment. Be sure to confirm your work environment requirements prior to installation.

Air Pressure Vibration Resistance (Availment altitude)	800hPa to 1114hPa (2000 meters or lower)
Vibration Resistance	IEC61131-2 compliant 5Hz to 9Hz Single-amplitude 3.5mm 9Hz to 150Hz Fixed acceleration 9.8m/s <sup>2</sup> X,Y,Z directions for 10 cycle (100min.)
Noise Immunity (via noise simulator)	Noise Voltage: 1000Vp-p Pulse Duration: 1 μs Rise Time: 1ns
Electrostatic Discharge Immunity	6kV (complies with EN 61000-4-2 Level 3)
Grounding	Function: Type D (Common to SG-FG)
Ratings (For front panel of installed unit)	Equivalent to IP65f *12
External Dimensions	W224mm[8.82in.] x H174mm[6.85in.] x D87.1mm[3.43in.] (Emergency stopswitch and projection are not included.)
Weight	1.0kg (2.2lb) max.(Unit Only)
Cooling Method	Natural air circulation

- \*1: Changing the Colors setting to "65,536 colors" will disable the blinking feature on all screens in your project. If you wish to use the blinking feature, do not select "65,536 colors".
- \*2: Korean, Simplified and traditional Chinese, Cyrillic, and Thai fonts are downloadable. For details, refer to the GP-Pro EX Operation Environment.
- \*3: Font Sizes can be set up by software.
- \*4: User area
- \*5: A Lithium battery's lifetime is:  
 10 years when the battery's ambient temperature is 40 °C or less.  
 4.1 years when the battery's ambient temperature is 50 °C or less.  
 1.5 years when the battery's ambient temperature is 60 °C or less.  
 When used for back up: Approximately 100 days, with a fully charged battery.  
 Approximately 6 days, with a half-charged battery.
- \*6: In using DOUT, Operation Switch and Eternal Output I/F, the exclusive cable and conversion adapter are necessary.
- \*7: The specification of whole system may not be fulfilled by usage environment. Please design with understanding the specification correctly.
- \*8: GP3000H cable (without connector) or GP3000H cable (with connector) with conversion adapter is necessary.
- \*9: RS-232C and RS-422/485 can be switched with the editor software.
- \*10: Regarding the certification of KCC, contact your Pro-face sales representative for details.
- \*11: Operating temperature refers to temperature inside mounting enclosure and on the side of the display.
- \*12: The degree of protection provided by these products is equivalent to IP65f, however their performance cannot be guaranteed for every environment. Be sure to confirm your work environment requirements prior to installation.

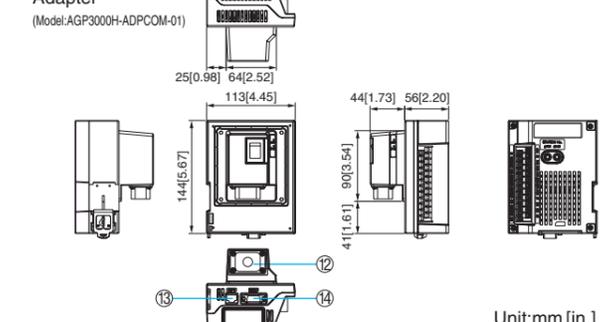

### External Dimensions

- Parts Names  
 ① Display ② Touch Panel ③ Status LED ④ Operation LED ⑤ Operation Switch ⑥ Function Switch ⑦ Emergency Switch ⑧ Key Switch  
 ⑨ CF Card Cover (CF Card Interface, Dip Switches) ⑩ CF Card Access LED  
 ⑪ 3-position Enable Switch ⑫ GP3000H cable I/F ⑬ Ethernet I/F(LAN) ⑭ Serial I/F(COM1)

① Depending on the type of connection cable used the dimensions shown above will change. The dimensions given here are representative values and are intended for reference only.

### Adapter

Unit:mm [in.]

# Control Functions: Communication Interface Specifications

**DIO Type**

DIO Input Specifications	
Rated Voltage	DC24V
Maximum Allowable Voltage	DC28.8V
Input Method	Sink/Source Input
Rated Current	5.7mA (DC24V)
Input Resistance	4.2kΩ
Operation Range	ON Voltage: DC15V or more OFF Voltage: DC5V or less
Input Delay Time	OFF to ON: 1.5ms or less ON to OFF: 1.5ms or less
Common Lines	1
Common Design	6 points/ 1 common line
External Connection	12-pin connector (used with Output section)
Input Points	6
Input Signal Display	No LED indicators
Status Display	None
Isolation Method	Photo coupler Isolation
External Power Supply	For Signal: DC 24V

DIO Output Specifications	
Rated Voltage	DC24V
Allowable Voltage	DC20.4V to DC28.8V
Output Method	Sink Output / Source Output
Maximum Load Voltage	0.2A / point, 0.4A / common
Output Voltage Drop	DC1.5V or less
Output Delay Time	OFF to ON: 1ms or less ON to OFF: 1ms or less
Voltage Leakage (when OFF)	0.1mA or less
Clamp Voltage	39V ±1V
Type of Output	Transistor Output
Common Lines	1
Common Design	2 points/1 common line
External Connection	12-pin connector (also used for Input)
Output Protection Type	Output is unprotected
Internal Fuse	1.5A, 125V DIP fuse (not replaceable)
Surge Control Circuit	Zener diode
Output Points	2
Output Signal Display	No LED indicators
Status Display Element	None
Isolation Method	Photo coupler Isolation
External Power Supply	For Signal: DC24V

**Pin Connection**

Pin Arrangement	Pin No.	Signal Name	Pin No.	Signal Name
A1	0V	B1	+24V	
A2	OUT1	B2	OUT0	
A3	NC	B3	COM	
A4	IN5	B4	IN4	
A5	IN3	B5	IN2	
A6	IN1	B6	IN0	

**FLEX NETWORK Type**

FLEX NETWORK Data Transfer Settings	
Communication Type	1:N
Connection Method	Multi Drop
Transfer Distance	At 6Mbps 200m per CH, at 12Mbps 100m per CH
Transfer Method	During cyclic period, distributed transmission, Half-duplex
Transfer Speed	6Mbps, 12Mbps
Transfer I/F	Differential method, Pluses transfer resistance
Error Check	Format check, bit check, CRC-12 check
No. of Stations	63 stations max., *1 Bit variable input: 512 points, Bit variable output: 512 points, Integer variable input: 128 points, Integer variable output: 128 points

**Pin Connection**

Pin Arrangement	Pin No.	Signal Name	Description
1	TR+	CH1 communication data	
2	TR-	CH1 communication data	
3	SLD	CH1 cable, shielded wire	
4	TR+	CH2 communication data	
5	TR-	CH2 communication data	
6	SLD	CH2 cable, shielded wire	

**CANopen (master) Type**

CANopen Data Transfer Settings	
Communication Type	1:N
Connection Method	Bus type
Transfer Method	CSMA/NA, Half-duplex serial transmission.
Simultaneous Method	Asynchronous + phase correction
Data Length	Max. 8byte
Error control	CRC
No. of Stations	63 models Bit variable input/output: 512 points Integer variable input/output: 128 points
Transfer distance speed/Transmission length	(1Mbps max.): ISO11898-compliant
Baud rate*	Bus length
50kbps	1000m
125kbps	500m
250kbps	250m
500kbps	100m
800kbps	40m
1000kbps	20m

**Pin Connection**

Pin Arrangement	Pin No.	Signal Name	Description
1	—	—	—
2	CAN_L	CAN-L Bus line	
3	CAN_GND	CAN ground	
4	—	—	
5	—	—	
6	—	—	
7	CAN_H	CAN-H Bus line	
8	—	—	
9	—	—	
Shell	FG	Frame ground (Common with SG)	

**CANopen**  
CANopen creates an open network compatible with European standards based on CAN. The specifications of CANopen conform to the DS301 standard of the CiA (CAN in automation) standards organization.

**CANopen Remote I/O Unit**

Common Specifications	
No. of EX Module Connections	A max. of 7 devices can be connected to the HTB1
Rated Voltage	DC24V
Allowable Voltage	DC20.4V to 26.4V (Includes ripple)
Power Consumption	19W (When the max. of 7 EX modules are connected)
Mounting Method	35 mm DIN rail mounting
Weight	185g (0.4lb) max. (HTB Only)

Output Specifications (Q0, Q1)	
Output Points	2
Output Method	Transistor source output
Common Design	2 points/1 common line
Maximum Load Voltage	1A/1 common
Allowable Voltage Drop	Less than DC 1V (The voltage of the COM and output terminal when output is ON)
Output Delay Time	OFF→ON: 5μs or less ON→OFF: 5μs or less
Isolation Method	Between output terminal and internal circuits: Photocoupler insulation (Up to AC 500Vrms insulation protection) Output terminal: No insulation

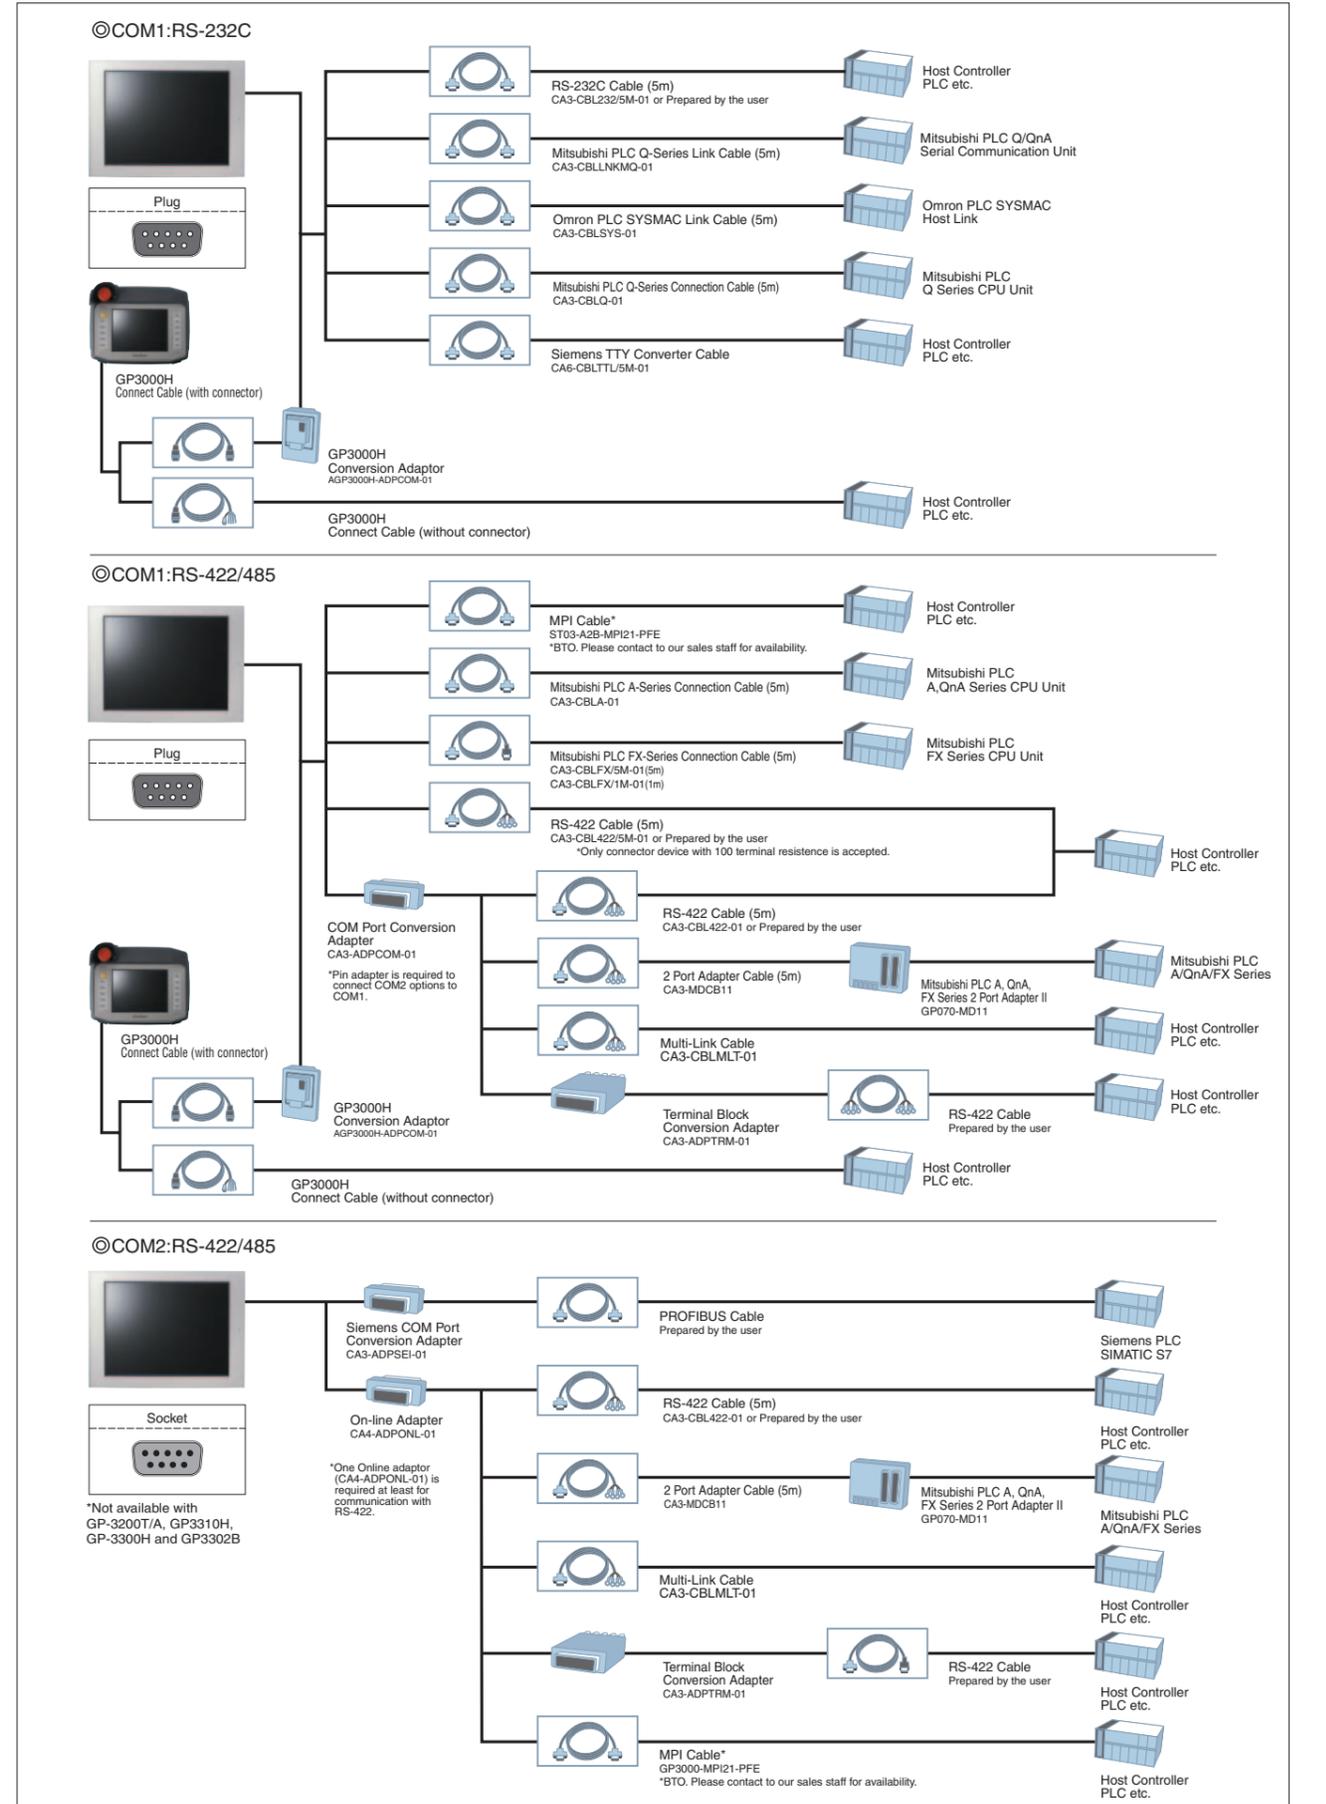

Input Specifications	
Input Points	12 (Common wiring)
Input Method	Sink/Source Input
Rated Current	5mA/1 point (DC24V)(I0, I1, I6, I7) 7mA/1 point(DC24V)(I2-I5, I8-I11)
Input Resistance	5.0kΩ (I0, I1, I6, I7) 3.4kΩ (I2-I5, I8-I11)
Operation Range	ON Voltage: 35μs + Filter position (I0, I1, I6, I7) OFF Voltage: 40μs + Filter position (I2-I5, I8-I11)
Input Delay Time	OFF→ON: 45μs + Filter position (I0, I1, I6, I7) ON→OFF: 150μs + Filter position (I2-I5, I8-I11)
Isolation Method	Between input terminal and internal circuits: Photocoupler insulation (Up to AC 500Vrms insulation protection) Input terminal: No insulation

Output Specifications (Q2-Q7)	
Output Points	6
Output Method	Relay Output
Common Design	COM1: 3 points/1 common, No contact, COM2: 2 points/1 common, No contact, COM3: 1 point/1 common, No contact.
Maximum Load Voltage	2A/1 point, 8A/1 common
Isolation Method	Between output terminal and internal circuits: AC 1500Vrms, 1 minute; Output terminal: AC 750Vrms, 1 minute
Output Delay Time	OFF→ON: 10ms or less (Not including bounds time) ON→OFF: 5ms or less (Not including bounds time)

# GP3000SERIES System Design

●Serial Communication\*

\* For the cable diagram of User-created cable, refer to "Device/PLC Connection Manual".

▲ For the system design for use of Isolation Unit, please refer to the GP3000 Series Hardware Manual.

▲ For the system design for use of GP3000H with a GP2000H RS-232C Conversion Adapter, please refer to the GP3000H Series Hardware Manual.

# Options

## ■ Software

\*\*\* is changed with the version of software.

Product Name	Model No.	Description	
GP-Pro EX	EX-ED-V**	Screen-creation software	
GP-Pro EX Editor License	EX-ED-LICENSE-V**	GP-Pro EX editor license *1	
Pro-Server EX Developer	EX-SDV-V**	Software that connects a PC to a GP3000 via Ethernet and collects and transmits data	GP models with Ethernet.
Pro-Server EX Developer License	EX-SED-LICENSE	Pro-Server EX developer license *2	GP models with Ethernet.
Pro-Server EX Runtime License	EX-SRT-LICENSE	Pro-Server EX Runtime license *3	GP models with Ethernet.
MES Action License	EX-MES-LICENSE-V**	License key permitting Pro-Server EX to access a database	GP models with Ethernet.
GP-Viewer EX	EX-VIEWER-LICENSE	Single license	GP models with Ethernet.
	EX-VIEWER-LICENSE-10	10 licenses	License allowing a PC to access a GP3000 in remote mode *4
	EX-VIEWER-LICENSE-30	30 licenses	
Camera-Viewer EX License	EXCAVELS	License that allows a PC to record and play the video on GP3000 in remote mode	M Class
	EX-RPA	Single license	TFT models with VGA or above
RPA Client License	EX-RPA-10	10 licenses	License to access a PC on the network in remote mode *5
	EX-RPA-30	30 licenses	TFT models with VGA or above
	EX-LADM-MIT-Q02	License for add-on software that can be monitored by the Ladder Program of Mitsubishi's PLC A Series through the GP3000 in online mode	Models with VGA or above
Ladder Monitor License	EX-LADM-MIT-A01	License for add-on software that can be monitored by the Ladder Program of Mitsubishi's PLC Q Series through the GP3000 in online mode	Models with VGA or above
	EX-LADM-OMR-CJ01	License for add-on software that can be monitored by the Ladder Program of OMRON's PLC C/CJ Series through the GP3000 in online mode	Models with VGA or above
	EX-LADM-OMR-CJ01	License for add-on software that can be monitored by the Ladder Program of OMRON's PLC C/CJ Series through the GP3000 in online mode	Models with VGA or above
Video Converter License	EX-MOVCON-LICENSE	License for the file conversion tool required to display video on the GP3000 and PC *6	M Class
WinGP for IPC	EX-WINGP-IPC	License for using GP-Pro EX on WinGP-compatible IPC.	-
WinGP for PC/AT	EX-WINGP-PCAT	License for using GP-Pro EX on PC/AT-compatible PC.	-

\*1: Purchase this product when installing GP-Pro EX in a second or subsequent PC. One license is required for each PC.  
 \*2: Includes the settings editor and Run time.  
 \*3: Purchase this product when installing the settings editor and Run time in subsequent PCs.  
 \*4: Purchase this license when installing only Run time in subsequent PCs. One license is required for each PC.  
 \*5: Except for GP3300T/S/L, 3301S/L, 3302B and 3200T/A.  
 \*6: Because the movie converter is included in GP-Pro EX Ver.\*\*, only the license needs to be purchased.

## ■ USB

\* Please purchase when the product is damaged or lost.

Product Name	Model No.	Description	
1 USB Transfer Cable (2m)	CA3-USBCB-01	USB cable for transferring data such as screen data (host to host)	
2 USB Cable (5m)	FP-US00	Connects a USB peripheral unit. (host to slave)	
3 USB Front Cable (1m)	CA5-USBEXT-01	Extension cable for attaching to USB port on front panel	
USB-Serial (RS-232C) Conversion Cable (50cm)	CA6-USB232-01	For connecting a modem (RS-232C) to the GP3000 (USB host)	
USB Cable Clamp (1 port) *Maintenance Items	CA8-USBATALL-01	USB cable clamp to prevent disconnection (5 pcs/set) *7	GP3360, GP3310
	CA5-USBATM-01		GP3300, GP3301
USB Cable Clamp (2 ports) *Maintenance Items	CA5-USBATL-01		All models except for 5.7 inch

\*7: Only 3.8-inch and 7.5-inch models require the dual-point USB Cable Clamp (CA5-USBATL-01).

## ■ Serial(Cables, Adapters)

\* Please purchase when the product is damaged or lost.

Product Name	Model No.	Description	
4 RS-232C Cable (5m)	CA3-CBL232/5M-01	For COM 1 Cable for RS-232C connection between various hosts and the GP3000	COM1
5 RS-422 Cable (5m)	CA3-CBL422-01	For COM 2 Cable for RS-422 connection between various hosts and the GP3000 *8,9,10	COM 1, 2
6 RS-422 Cable (5m)	CA3-CBL422/5M-01	For COM 1 Cable for RS-422 connection between various hosts and the GP3000 (Only for connecting devices with a terminal resistance value of 100 ohms)	COM1
7 Mitsubishi PLC A-Series Connection Cable (5m)	CA3-CBLA-01	For COM 1 Cable for directly connecting an A Series CPU	COM1
8 Mitsubishi PLC Q-Series Connection Cable (5m)	CA3-CBLQ-01	For COM 1 Cable for directly connecting a Q Series CPU	COM1
9 Mitsubishi PLC Q-Series Link Cable (5m)	CA3-CBLLNKMQ-01	For COM 1 Cable for directly connecting a Q Series Link Unit	COM1
10 Mitsubishi PLC FX-Series Connection Cable (5m)	CA3-CBLFX/5M-01	For COM 1 Cable for directly connecting an FX Series CPU	COM1
Mitsubishi PLC FX-Series Connection Cable (1m)	CA3-CBLFX/1M-01		COM1
11 Omron PLC SYSMAC Link Cable (5m)	CA3-CBLSYS-01	For COM 1 Cable for directly connecting a SYSMAC Link Unit	COM1
Siemens TTY Converter Cable (5m)	CA6-CBLTTY/5M-01	For COM 1 Cable for connecting a PLC S5 series to the GP3000	COM1
MPI Cable (3.5m)	ST03-A2B-MPI21-PFE	Connects a host controller to the GP for MPI communication	
	GP3000-MPI21-PFE		
	CA3-MPIPGx-PFE *13		
Multi-Link Cable (5m)	CA3-CBLMLT-01	Connects a host controller to the GP for multi-link (n:1) communication *8,9,10	COM1, 2
2-port Adapter Cable (5m)	CA3-MDCB11	For COM 2 Cable for connecting a 2-port adapter to the GP3000 *8,9,10	COM1, 2
13 Mitsubishi PLC A/QnA/FX Series 2-port Adapter	GP070-MD11	Interface unit required for simultaneous use of A/QnA/FX Series peripheral devices *11	
14 RS-232C 9-pin/25-pin Conversion Cable (20cm)	CA3-CBLCBT232-01	For COM 1 Cable for converting a D-Sub 9-pin plug to a D-Sub 25-pin socket	COM1
15 RS-422C 9-pin/25-pin Conversion Cable (20cm)	CA3-CBLCBT422-01	For COM 2 Cable for converting a D-Sub 9-pin socket to a D-Sub 25-pin socket *8,9,10	COM1, 2
16 COM Port Conversion Adapter	CA3-ADPCOM-01	For COM 1 Pin conversion adapter for connecting the COM 2-dedicated communication option to the COM 1 port on the GP3000	COM1
17 Online Adapter	CA4-ADPONL-01	For COM 2 Termination adapter required for communication through the RS-422/485 connection	COM2
18 Terminal Block Conversion Adapter	CA3-ADPTRM-01	For COM 2 Adapter for converting the COM2 port to the RS-422 terminal block *8,9,10	COM1, 2
19 Siemens COM Port Conversion Adapter	CA3-ADPSEI-01	Adapter required to connect commercial type Siemens PROFIBUS connector COM2 when connecting Siemens PLCs or MPis *12	COM2
RS-232C Isolation Unit	CA3-ISO232-01	For COM1 Unit for connecting various hosts and the GP3000 by insulating COM1 <Switching between RS-232c and RS-422 using SW>	COM1
RS-485 Isolation Unit	CA3-ISO485-01	For COM2 Unit for connecting various hosts and the GP3000 by insulating COM2 <Switching between RS-422 and RS-485 using SW>	COM2

\*8: A COM conversion adapter (CA3 ADPCOM-01) is required for connection of COM1.  
 \*9: At least one online adapter (CA4-ADPONL-01) is required when connecting to COM2. The isolation unit for COM2 cannot be used.  
 \*10: Use a COM port conversion adapter (CA3-ADPCOM-01) to connect to COM1 on the GP3200T/A. Use a COM port conversion adapter (CA3-ADPCOM-01) to connect to COM2 on the GP-3302B.  
 \*11: 2port Adapter Cable (CA3-MDCB11) is required.  
 \*12: Excludes GP3200T/A. For instructions on how to connect, refer to the "GP-Pro EX Device/PLC Connection Manual".  
 \*13: Except for GP-3400/3500/3600 series.

## ■ Expansion unit

\* Please purchase when the product is damaged or lost.

Product Name	Model No.	Description	
20 PROFIBUS-DP Slave Unit	CA5-PFSALL/EX-01	Expansion unit that enables participation of the GP3000 in the PROFIBUS network and communication with the PROFIBUS DP master	5.7 inch or larger
21 DeviceNet Slave Unit	CA6-DNSALL/EX-01	Expansion unit that enables participation of the GP3000 in the DeviceNet network and communication with the DeviceNet master	5.7 inch or larger
22 CANopen Slave Unit	CA9-CANALL/EX-01	Expansion unit that enables participation of the GP3000 in the CANopen network and communication with the CANopen master	5.7 inch or larger
23 CC-Link Unit	CA7-CCLALL/EX-01	Expansion unit that enables participation of the GP3000 in the CC-Link network and communication with the CC-Link master (supports intelligent devices)	5.7 inch or larger
24 VM Unit	GP3000-VM01	Video-Mix Unit (262,000 colors, Video Input x 4ch, DVI Input x 1ch, VGA/SVGA/XGA) *14	10.4 inch/12.1 inch/15 inch (TFT)
	GP2000-VM41	Video-Mix Unit (32,000 colors, Video Input x 4ch, Analog RGB Input x 1ch, Analog RGB Output x 1ch, VGA/SVGA) *14	10.4 inch/12.1 inch (TFT)
25 DVI Input Unit	GP3000-DVI01	For inputting DVI to the GP3000	10.4 inch/12.1 inch/15 inch (TFT)
26 RGB Input Unit	GP3000-RGB201	For displaying analog RGB (2 CH) on the GP3000	10.4 inch/12.1 inch/15 inch (TFT)
DVI Cable (5m)	FP-DV01-50	For outputting image signal from host to GP (5m/10m) When using VM/DVI Unit	
DVI Cable (10m)	FP-DV01-100	DVI 1-0 standard (DVI-D 24-pin plug)	When using VM/DVI Unit
DVI-RGB Cable	CA7-CBLCVRGB-01	For converting DVI-A to RGB	When using VM/DVI Unit
USB Cable for RGB Input Unit (5m)	CA9-USBAMB/5M-01	USB cable for RGB Input Unit touch panel operation (Host-Slave: Mini-B)	When using RGB Input Unit
RGB Cable (4.5m)	FP-CV02-45	For outputting image signal from host to GP	When using RGB Input Unit
USB Cable anti-disconnect holder (RGB Input Unit Side-miniB) *Maintenance Items	CA9-USBATRGB/MB-01	Disconnection prevention clamp for the RGB Input USB cable (2 pcs/set)	When using RGB Input Unit

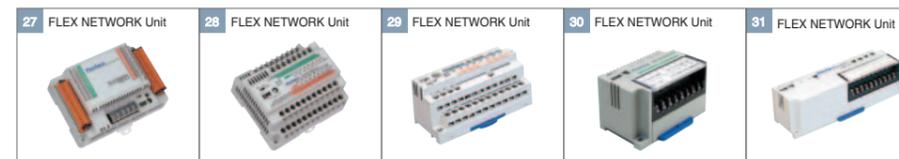

\*14: Video images through VM unit cannot be recorded.

## ■ FLEX NETWORK(FLEX NETWORK type only)

\* Please purchase when the product is damaged or lost.

Product Name	Model No.	Description	
27 32-point input Sink/Source and 32-point transistor output Sink type	FN-XY32SKS41	Input/output combination I/O unit of 32-point input sink/source and 32-point transistor output Sink type <Connects input signals of 24 VDC, 24 VDC for output, and connects devices up to load current 200mA/1 point (1.6A/1 common)>	C Class
	FN-X32TS41	I/O unit of 32-point input sink/source sharing type <connects input signals of 24 VDC>	C Class
28 16-point input Sink/Source and 16-point transistor output Sink type	FN-XY16SK41	Input/output combination I/O unit of 16-point input sink/source and 16-point transistor output Sink type <Connects input signals of 24 VDC, 24 VDC for output, and connects devices up to load current 200mA/1 point (1.6A/1 common)>	C Class
	FN-XY16SC41	Input/output combination I/O unit of 16-point input sink/source and 16-point transistor output Source type <Connects input signals of 24 VDC, 24 VDC for output, and connects devices up to load current 200mA/1 point (1.6A/1 common)>	C Class
29 8-point relay output and 1 common type	FN-Y08RL41	I/O unit of 8-point relay output/1 common type <Connects load up to 240 VAC (1A)>	C Class
30 2-channel Analog/Digital Conversion Unit	FN-AD02AH41	Converts 2-channel analog signals to digital signals <Resolution: 12 bits>	C Class
2-channel Digital/Analog Conversion Unit	FN-DA02AH41	Converts 2-channel 12-bit digital signals to analog signals and outputs the result	C Class
31 4-channel Analog/Digital Conversion Unit	FN-AD04AH11	Converts 4-channel analog signals to digital signals <Resolution: 12 bits>	C Class
	FN-DA04AH11	Converts 4-channel 12-bit digital signals to analog signals and outputs the result	C Class
Communication Cable (10m)	FN-CABLE2010-31-MS	Cables for connecting the GP3000 to the various units	C Class
Communication Cable (50m)	FN-CABLE2050-31-MS		C Class
Communication Cable (200m)	FN-CABLE2200-31-MS		C Class
FLEX NETWORK Connector *Maintenance Items	CA6-FNCNALL-01	Connector attached to the FLEX NETWORK interface. Connects a FLEX NETWORK communication cable. (5 pcs/set)	C Class
84-point DIO Connector for FLEX NETWORK *Maintenance Items	GLC-DIOCN03	FN-XY32SK41 Connectors (2 pcs/set)	C Class

## ■ CANopen (CANopen type only)

\* Please purchase when the product is damaged or lost.

Product Name	Model No.	Description	
32 CANopen Slave HTB Unit	HTB1C0DM9LP	Slave unit supporting CANopen with 12 digital inputs, 6 relay outputs and 2 transistor source outputs. Up to 7 units of EX modules can be connected.	C Class
33 8-Point Input Module	EXM-DDI8DT	8-point sink-source shared expansion unit	C Class
	EXM-DDI16DT	16-point sink-source shared expansion unit	C Class
34 8-Point Relay Output Module	EXM-DRA8RT	8-point relay output / 2-point common type expansion unit	C Class
	EXM-DRA16RT	16-point relay output / 2-point common type expansion unit	C Class
35 8-Point Sink Output Module	EXM-DDO8UT	8-point transistor output sink type expansion unit	C Class
	EXM-DDO16UK	16-point transistor output sink type expansion unit	C Class
36 8-Point Source Output Module	EXM-DDO8TT	8-point transistor output source type expansion unit	C Class
	EXM-DDO16TK	16-point transistor output source type expansion unit	C Class
37 4-Point Input / 4-Point Relay Output Module	EXM-DMM8DRT	4-point input sink-source / 4-point relay output / 1 common mixed I/O unit	C Class
	EXM-AMI2HT	2-ch analog input type expansion unit	C Class
38 Thermocouple (Pt100 Input) / 1-ch Analog Output Module	EXM-ALM3LT	2-ch temperature input / 1-ch analog output type expansion unit	C Class
	EXM-AMM3HT	2-ch analog input / 1-ch analog output expansion unit	C Class
39 1-ch Analog Output Module	EXM-AMO1HT	1-ch analog output type expansion unit	C Class
	CA7-HTBCNSET-01	13-pin input connector and 16-pin output connector for HTB (each in one set)	C Class
MIL Connector (20-pins) for EX module *Maintenance Items	CA6-EXMCNHE20P-01	Connector for EX module (5 pcs/set)	C Class
Terminal Connector (11-pins) for EX module *Maintenance Items	CA6-EXMCNRS11P-01		C Class
Terminal Connector (10-pins) for EX module *Maintenance Items	CA6-EXMCNRS10P-01		C Class

■ Handheld model(GP3000H Only)

\* Please purchase when the product is damaged or lost.

Product Name	Model No.	Description	
36 GP3000H Conversion Adapter	AGP3000H-ADPCOM-01	Conversion Adapter for interfacing with a GP3000H Cable Connector and External Output I/F output the following connectors; serial: D-Sub 9 pin (plug), Ethernet/modular jack (RJ-45), others:terminal block.	GP3000H
37 GP3000H Soft-type Direct-connect Cable(3m/5m/10m)	GP3000H-CBLS- *M	Standard type interface cable for communication between the GP and external equipment (e.g. host controller),equipped with common mode filter. *** is changed with length 3m:3, 5m:5, 10m:10 GP3000H-CBLS-3M	GP3000H
GP3000H Hard-type 10m Direct-connect Cable(10m)	GP3000H-CBLH-10M	Heavy-duty type interface cable for communication between the GP and external equipment (e.g. host controller),equipped with common mode filter.	GP3000H
38 GP3000H Soft-type Direct-connect Cable(3m/5m/10m) (with connector)	GP3000H-CBLS-D-*M	Standard type cable between the GP3000H Conversion Adapter and the GP3000H. *** is changed with length 3m:3, 5m:5, 10m:10 GP3000H-CBLS-D-3M	GP3000H
GP3000H Hard-type 10 m Direct-connect Cable (with connector)	GP3000H-CBLHD-10M	Heavy-duty type cable between the GP3000H Conversion Adapter and the GP3000H.	GP3000H
39 GP2000H Series RS-232C Conversion Adapter	GP2000H-AP232	Conversion adapter to connect GP operation data to RS-232C D-Sub and power/DIO terminals. *15	GP3000H
GP2000H Series RS-422 Conversion Adapter	GP2000H-AP422	Conversion adapter to connect GP operation data to RS-422 and power/DIO terminals. *15	GP3000H
40 GP3000H Soft-type Cable for GP2000H Conversion Adapter (3m/10m) <RS-232C> (with connector)	GP3000H-CBLS-D232-*M	The cable between the GP2000H Series RS-232C Conversion Adapter and the GP3000H, equipped with D-Sub connector. *** is changed with length 3m:3, 10m:10 GP3000H-CBLS-D232-3M *15	GP3000H
GP3000H Soft-type Cable for GP2000H Conversion Adapter(3m/10m) <RS-422> (with connector)	GP3000H-CBLS-D422-*M	The cable between the GP2000H Series RS-422 Conversion Adapter and the GP3000H, equipped with D-Sub connector. *** is changed with length 3m:3, 10m:10 GP3000H-CBLS-D422-3M *15	GP3000H
Wall Hanging Adapter	GP3000H-WMA-01	Bracket for mounting the GP3000H Series unit to a commercially available arm or panel.	GP3000H
Neck Strap	GP2000H-STRAP11	Strap for wearing over the neck.	GP3000H
Function Switch Sheet *Maintenance Items	GP3000H-DUPS-01	For changing image of the function switches. (5 sheets/set (x 5))	GP3000H
Hand Strap *Maintenance Items	GP3000H-HS-01	Strap for handheld operation.	GP3000H
Emergency Switch Guard *Maintenance Items	GP3000H-EMGD-01	Emergency Switch Guard for preventing accidental operation. Includes 3 mounting screws.	GP3000H
Screen Protection Sheet	GP3000H-DFS6-01	Disposable, dirt-resistant sheet for the GP unit's screen (5 sheets/set)	GP3000H
Installation Gasket *Maintenance Items	GP3000H-WPGADP-01	Provides dust and moisture resistance when GP3000H Conversion Adapter is installed into a solid panel.	GP3000H

\*15: For instructions on how to connect, refer to the "GP3000H Series Hardware Manual".

■ Other

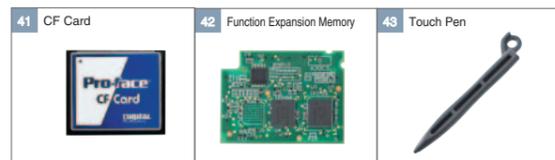

\* Please purchase when the product is damaged or lost.

Product Name	Model No.	Description	
41 CF Card	CA3-CFCALL/128MB-01	128MB	5.7 inch or larger
	CA3-CFCALL/256MB-01	256MB	5.7 inch or larger
	CA3-CFCALL/512MB-01	512MB	5.7 inch or larger
	CA6-CFCALL/1GB-01	1GB	5.7 inch or larger
	CA8-CFCALL/2GB-01	2GB	5.7 inch or larger
CF Card Adapter	GP077-CFAD10	Adapter required for reading the CF card using the PCMCIA slot of a personal computer	
42 Function Expansion Memory	GP3000-EXDM01	Memory used for expanding GP-Pro EX alarm and character table functions *16	7.5 inch or larger
Screen Protection Sheet	CA3-DFS15-01	Disposable, dirt-resistant sheet for the GP unit's screen (5 sheets/set)	15 inch
	CA3-DFS12-01		12.1 inch/10.4 inch (STN/Mono LCD)
	CA5-DFS10-01		10.4 inch (TFT/Color LCD)
	PS400-DF00		7.5 inch
	CA3-DFS6-01		5.7 inch
	CA6-DFS4-01		3.8 inch
Environmentally-resistant Cover	CA8-ODP10-01	Regarding grease and chemical application, do not remove the unit, simply replace the environmental protection cover (5 pcs/set)	10.4 inch (TFT/Color LCD)
Pin Jack Adapter	CA4-DCMDL-01		5.7 inch
Panel Cutout Adapter	GP077-SDAD10	Adapter for converting the audio output section to the AUX connector to a pin jack	7.5 inch or larger
43 Touch Pen *Maintenance Items	CA4-ATM10-01	10.4-inch TFT screens Attachment required for installing a 10.4-inch display unit (TFT) in the mounting hole of GP2500 for a 10.4-inch display unit (TFT)	10.4 inch (TFT/Color LCD)
	CA4-ATM5-01	Attached required for installing a 5.7-inch display unit in the mounting hole of GP37W2	5.7 inch
Replacement Backlight *Maintenance Items	CA7-TPPEN/ALL-01	Touch pens for operating screen(5 pcs/set)(Attached to GP3000H)	
	CA3-BLU15-01 *17	Replacement backlight for main unit (1 pc.)	15 inch
	CA3-BLU12-01 *17		12.1 inch
	CA5-BLU10T-01	Replacement backlight for main unit (2 pcs/set)	10.4 inch (TFT) *18
	CA6-BLU10T-02		10.4 inch (STN)
PS501S-BU00	10.4 inch (STN)		
Installation Gasket *Maintenance Items	CA3-WPG15-01	Provides dust and moisture resistance when GP is installed into a solid panel.	15 inch
	CA3-WPG12-01		12.1 inch/10.4 inch (STN/Mono LCD)
	CA5-WPG10-01		10.4 inch (TFT/Color LCD)
	CA5-WPG8-01		7.5 inch
	CA3-WPG6-01		5.7 inch
	ST400-WP01		3.8 inch
Installation Fastener *Maintenance Items	CA3-ATFALL-01	Installation fasteners for (4 pcs/set)	
Bus Connector Cover *Maintenance Items	CA3-BUSCVR-01	Protects the GP unit's rear face connector. (Large size and small size each in one set)	All models except for 3.8 inch
DC Power Supply Connector *Maintenance Items	CA5-DCCNM-01	Connector to connect power supply cables (5 pcs/set)	7.5 inch, 5.7 inch, 3.8 inch
	CA5-DCCNL-01		15 inch, 12.1 inch, 10.4 inch, 7.5 inch
AUX Connector *Maintenance Items	CA5-AUXCNALL-01	AUX connector for GP3000 series required in case an external output is used. (5 pcs/set)	15 inch, 12.1 inch, 10.4 inch, 7.5 inch
DIO Connector *Maintenance Items	CA6-DIOCNALL-01	Connector attached to the DIO interface. Connects an external I/O device. (5 pcs/set)	C Class

\*16: Screen capacity cannot be expanded.

\*17: It is available for AGP3750-T1-\* and AGP36\*0-T1-\* with the revision 4 or earlier.

\*18: Backlight specifications vary depending the revision of the GP3000 in use. Refer to the manual for that particular GP3000 revision.

# "Otasuke Pro!" supports you with full of services!

Web support site

Full of information about Pro-face products!

FAQs, consultations, and other support information  
Various useful information such as "Sample Data" out-of-the-box samples

Download of development, design, and specification data!

- Manual download
- Latest update module
- DXF data of unit dimension diagram
- BMP data of product image

## Service & Support Information

With the Pro-face global brand, get the support you need anytime, anywhere!  
We have a reliable service and support system.

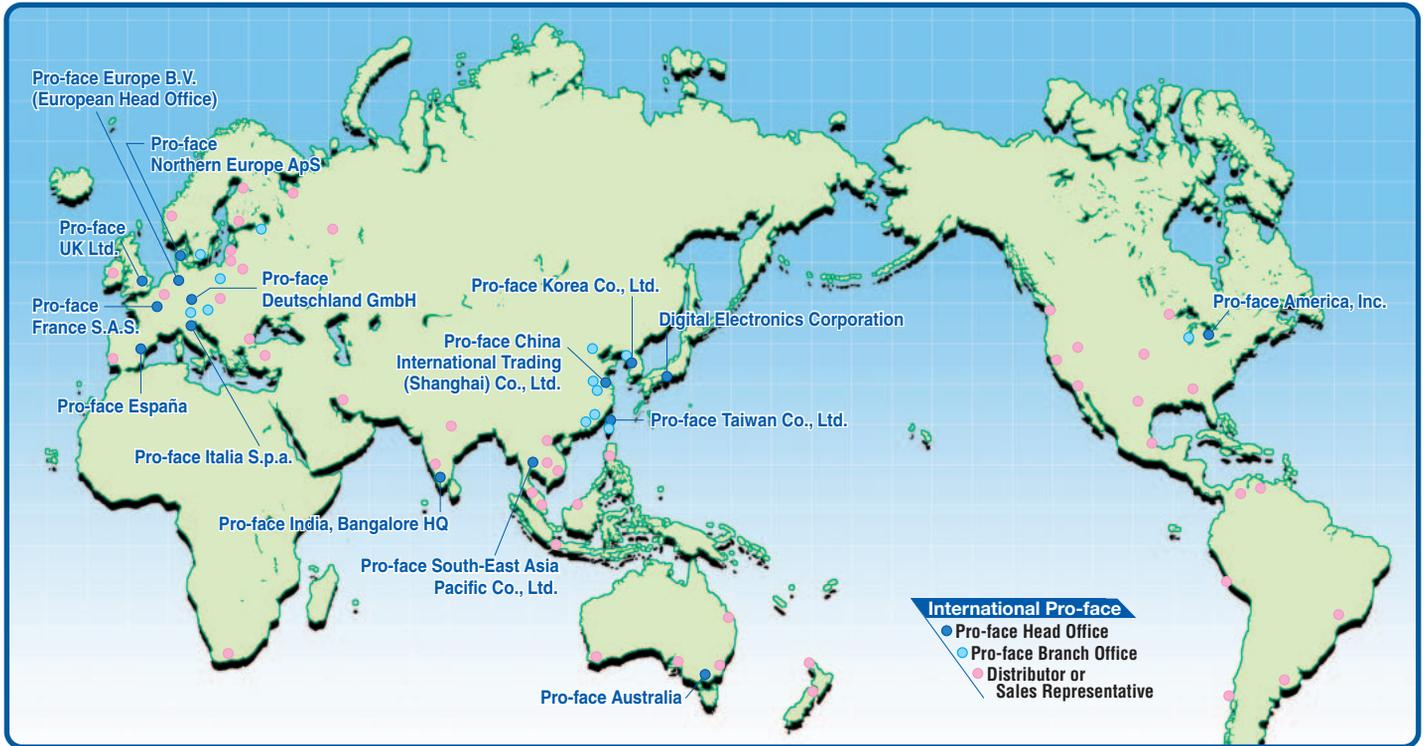

Please visit our website for the latest information and details.  
[http://www.pro-face.com/company\\_e/proface/worldwide2.htm](http://www.pro-face.com/company_e/proface/worldwide2.htm)

\*For details on available support content, please contact the relevant Pro-face office.

- Telephone Support**  
Anytime, easily and quickly get connected via better-than-ever service!  
In an effort to gain greater customer satisfaction, Pro-face's telephone support services are based on the key words of availability, quick response and friendliness.
- Web Support**  
Expanded "Otasuke Pro!" support site upgraded with handy screen samples  
The content of our "Otasuke Pro!" support site has been upgraded with services aimed at reducing development man-hours for the customer with contents such as FAQ and manual downloads.
- Repair Services**  
Should trouble occur, it can be fixed swiftly with minimal downtime!  
Pro-face has eliminated loss throughout the entire repair process. We are constantly re-evaluating our systems to ensure satisfaction all of our customers.
- Seminars**  
Easy-to-follow technical training to help customers get the most out of Pro-face products!  
A variety of technical seminars are offered to help customers in order to get the most out of our Pro-face products. Easy-to-understand textbooks are prepared for what the customer wants to learn.
- Manuals**  
Efforts to ensure anyone and everyone can understand how to use Pro-face products  
So that even beginners can use products immediately, we aim to make manuals easy-to-understand. We have already received high reviews from many customers.

# Worldwide Locations

## Our Environmental Policy and Compliance with the RoHS Directive

Pro-face has taken significant steps to meet increasingly stringent requirements for environmental preservation and has sought to comply with the RoHS Directive by adopting measures to eliminate specified harmful substances from existing products and products to be manufactured and sold beginning in 2006. For details, please refer to our web site or contact our sales office in your country.

## Conformance with International Safety Standards

Pro-face products and component parts bearing the CE Mark and the UL or c-UL Listing and Recognized Component Marks are your guarantees of compliance with safety standards accepted in countries and regions worldwide.

**Caution:** Before operating any of these products, be sure to read all related manuals thoroughly.

- For printing purposes, the colors in this catalog may differ from those of the actual unit.
- LCD screens may exhibit minute grid-points (light and dark) on the Display Panel surface.
- "Contouring" - where some parts of the screen are brighter than others, producing a wavelike pattern - may occasionally occur. Both are normal for an LCD display and are not defects.

- Actual user screens may differ from the screens shown here.
- All product names used in this catalog are the registered trademarks or trademarks of their respective companies.
- All information contained in this catalog is subject to change without notice.
