

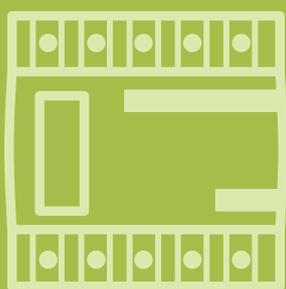

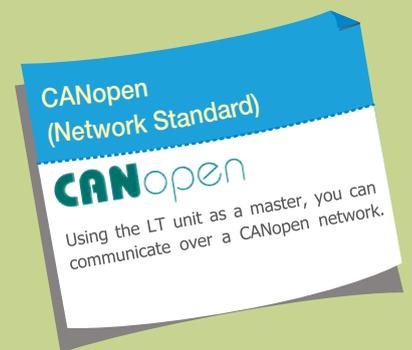

Graphic Logic Controller

LT3000 SERIES

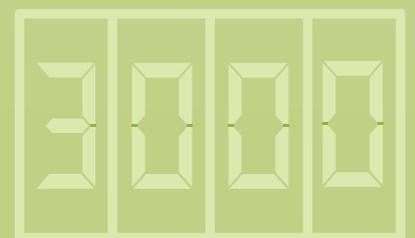

Introducing a new approach to "the logic controller"
-The Hybrid Display

CONTROL

OPERATION

DISPLAY

Controllers that combine display and operations. Introducing the "New Thinking"

LT3000 Series controller and display.

5.7"

QVGA

Feature Rich 5.7" displays with scalable I/O

LT-3300S/L
STN Color 4,096 colors / Monochrome 16 shades DIO 32 points 3 Expansion Slots USB SIO Ethernet
LT-3301L
Monochrome 16 shades DIO 32 points 3 Expansion Slots USB SIO

Useful Up to 80 I/O Points

32 built-in I/O points are standard. These can be used for special I/O such as pulse outputs. By adding 3 EX modules, you can have up to 80 points.

Expandable CANopen (Network Standard)

EN50325-4 Network Standard. LT3000 supports CANopen. Using the LT as a master, you can connect to I/O equipment on the CANopen network. See our support site for recommendation slave units.

Ease of Use USB / Ethernet Ports and Data Collection

The USB port comes standard. This enables using USB memory to collect and transmit screen and production data with ease. Real-time collection and management of production data is possible over the network.

Brilliant Full Graphics Displays in Beautiful Color

In addition to the monochrome display, you can use the 4,096 color STN model. Its 5.7" screen allows you to fully express your images in brilliant colors.

Effortless Reduced Development Time

You can program ladder logic, draw the screen interface, and set up communication, all in a single application. Even for the beginner developers the program is easy to use, as it utilizes drag and drop operations for drawing and setting up.

Color and monochrome models.

3.8"

QVGA

Palm-sized 3.8" display

LT-3201A
Monochrome 8 shades DIO 18 Points 2 Expansion Slots USB

Useful Up To 50 I/O Connections

Offers compact size with 18 built-in I/O points. This can be used for special I/O such as pulse outputs. By adding 2 EX modules, you can have up to 50 points.

Expandable CANopen (Network Standard)

EN50325-4 Network Standard. LT3000 supports CANopen. Using the LT as a master, you can connect to I/O equipment on the CANopen network. See our support site for recommendation slave units.

Ease of Use USB Port and Data Collection

The USB port comes standard. This enables using USB memory to collect and transmit screen and production data with ease.

Brilliant Full Graphics in a Compact Display

Even though the screen is small, do not limit yourself to text. You can display graphics and images beautifully on the screen. The backlight also allows you to switch between amber and red to indicate alarms and other conditions.

Effortless Reduce Development Time

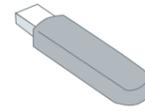

Program your ladder logic, user interface and communication settings all in a single application. Even for the beginner developer's programming is easy, as it uses convenient drag and drop for drawing and configuration.

Switches between amber and red.

Expandable Reduce Equipment Space While Expanding Capabilities

Handle data in the field without a PC

With a USB memory stick, you can update screens, retrieve production data, as well as change passwords and labels.

Possible because 5.7" model connects.

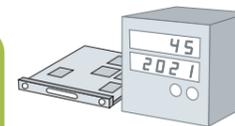

With LT-3300S/L

Manage production data in real-time

Using a PC you can set up accurate and efficient production controls, such as automating work instructions or collecting real-time production data.

Serial (RS-232C / 422 / 485)

With LT-3300S/L and LT-3301L

Direct connections to temperature controllers without a PLC

Previously, a PLC was needed to connect to a temperature controller. With the 5.7" model, use the serial interface to connect to a temperature controller or other types of boards, thereby reducing your overall equipment cost.

EX Modules / CANopen Master Unit

DIO

Enhanced Control Features for a Variety of Devices

IN Built-in DIO [DC, High-Speed Counter, Pulse Catch inputs]
EX Modules [DC, Analog, Temperature inputs]
CANopen [Connect to CANopen-supported slave units]

Limit Switch Encoder Sensor Emergency Button Thermometer
* EX modules only

OUT Built-in DIO [Transistor, Pulse, PWM outputs]
EX modules [Transistor, Relay, Analog outputs]
CANopen [Connect to CANopen-supported slave units]

Pump Solenoid Valve Stepping Motor Motor Drive Flow Rate / Pressure
* EX modules only

Check logic operations without a PC

Logic Monitor
Display the whole ladder program. You can check the operation status and logic program.

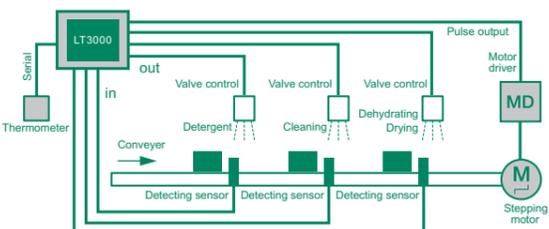

Address Monitor
Displays addresses used in the ladder program. Displays variables and their current values.

Still relying on PLCs, switches and lamps? With just the LT3000 Series you can do all this and more.

65 kHz Pulse Output (Standard feature)

Control the speed of a conveyor with a stepping motor. Connect directly to a temperature controller using serial communication to eliminate the need for a PLC.

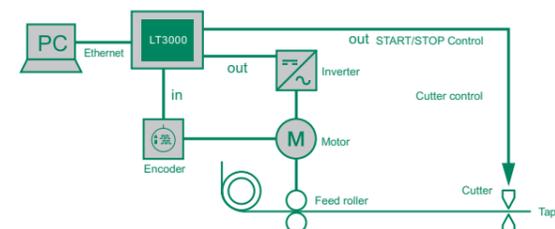

CERTAINTY!

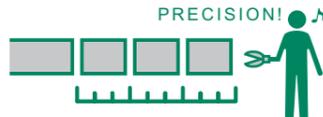

100 kHz High-Speed Counter (Standard feature)

Control an inverter by entering positional information with an encoder. Gather real-time production information and control with precision.

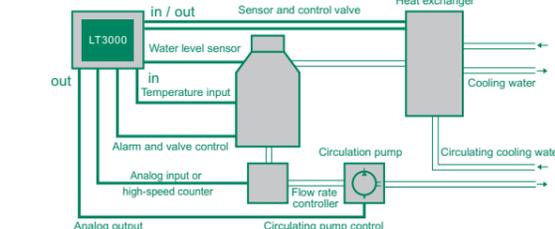

PRECISION!

Analog Input / Output (EX Module)

Control the flow to a tank or its temperature with analog I/O and temperature inputs. Even with reduced space, interactive operation is improved with the touch panel.

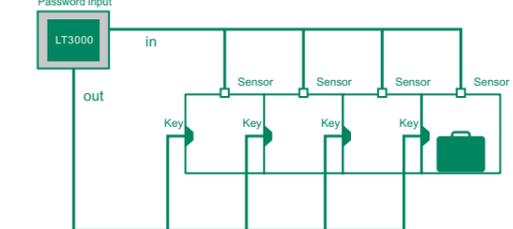

PERFECTION!

DIO Expansion Module (EX Module)

Expansion modules enable adding I/O as the number of lockers increases. Of course, with password keys you can lock and unlock lockers.

SCALABLE!

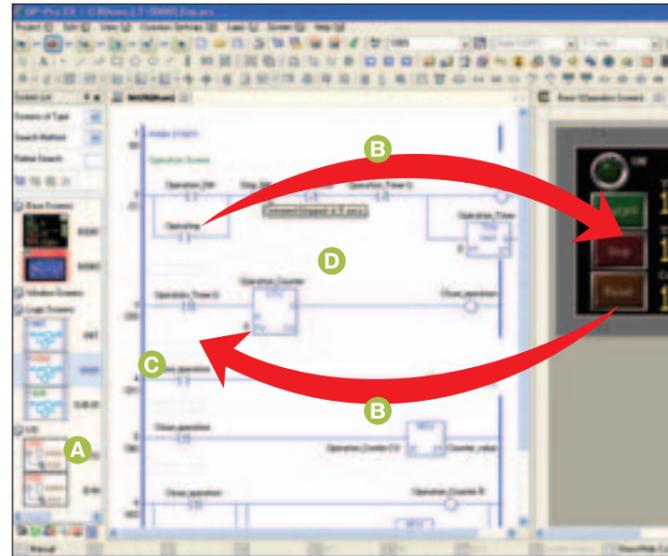

Screen Editor

GP-Pro EX

Logic programming and HMI drawing all in one software reduces development time.

Added functionality to coordinate logic program and HMI development. Drag and drop parts or instructions between the logic and drawing editors to map symbols/variables to newly created instructions or parts. This coordination between the editors allows for efficient development of your HMI screens and logic programs, thereby reducing time of development.

Editing made easy!

Define PLC / Device Addresses

You can use device addresses of connected equipment directly in the logic program. This simplifies interlock and other features.

A Subroutine Blocks

You can set up the initialization logic, main logic, and subroutines as blocks so that editing proceeds smoothly.

B Drag and Drop

Drag and drop between the drawing and logic screens.

C Number of Steps

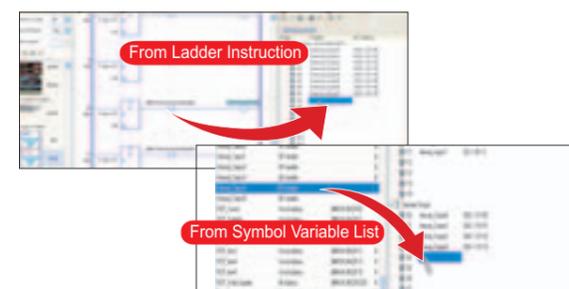

The program size is made obvious by displaying the number of steps. Normal capacity is 15,000 steps. By using the program area, you can increase this to 60,000 steps. However, this reduces the screen data capacity to 1 MB.

D Displaying Comments

Popping up comments as tool tips makes the logic easy to follow. Optionally, you can choose to display comments all the time.

"Drag and Drop" For Easy Settings

Mapping I/O with Drag and Drop

Drawing a switch / lamp on the screen

Useful Features For Reducing Costs

GP-Pro EX Simulation

Without transferring data to the LT unit, you can debug the screen data and logic program on your PC. Entering device address values, you can simulate the environment of external devices.

Alarm Log

When an alarm is triggered, its associated alarm message and register value are collected. You can choose to investigate the cause of the alarm right away, or save the information to a CSV file and analyze the information later on the PC.

Project Converter

When working with LT-330*/S/L units, you can convert LogiTouch screen data and logic programs (built-in DIO) created in C-Package. This feature enables you to re-use previous assets.

Operation Log

Record operation information such as "Who", "When", and "How", so this information can be used to investigate the origin of any errors.

Historical Graph

Displays data collected over time in a graph. You can specify the time to jump to a particular location in the graph, or simply scroll to view past data.

Online Edit

Even while the logic program is running, you can edit the logic without stopping it.

Available Editing Features

- Insert or delete rungs, instructions, labels and rows
- Edit operands

General Specifications	
International Safety Standards	UL508, ANSI / ISA-12.12.01-2007, No.142-M1987, CSA-22.2 No.213-M1987, EN55011 Class A, EN61000-6-2, GOST-R, KCC
Conforming Standards	UL508, ANSI / ISA-12.12.01-2007, No.142-M1987, CSA-22.2 No.213-M1987, EN55011 Class A, EN61000-6-2, GOST-R, KCC
Input Voltage	DC24V
Rated Voltage	DC19.2 to 28.8V
Allowable Voltage	3ms or less
Power Consumption	27W or less
Voltage Endurance	AC 1000V 20mA for 1 minute (between charging and FG terminals)
Insulation Resistance	DC 500V 10MΩ or higher (between charging and FG terminals)
Surrounding Air Temperature	0 to 50 °C *8
Humidity	10 to 90%RH (No condensation, Wet bulb temperature:39°C or lower)
Storage Temperature	-20 to +60 °C
Storage Humidity	10 to 90%RH (No condensation, Wet bulb temperature:39°C or lower)
Pollution Degree	Pollution Degree 2
Atmosphere	Free of corrosive gasses
Air Pressure Resistance (Availment Altitude)	800 to 1114hPa (from sea level to 2,000m max)
Vibration Resistance	IEC61131-2 compliant 5 to 9 Hz single-amplitude 3.5 mm 9 to 150 Hz constant-accelerated velocity 9.8 m/s ² X,Y,Z directions for 10 cycles (100 min.)
Noise Immunity (via nose simulator)	Noise Voltage: 1000Vp-p, Pulse Duration: 1μs, Rise Time: 1ns
Electrostatic Discharge Immunity	6kV (complies with IEC/EN61000-4-2 Level 3)
Grounding	Function: Type D (Common to SG-FG)
Ratings	Equivalent to IP65 / NEMA#250TYPE4X13 (Front surface at panel embedding) *9
External Dimensions	W167.5 [6.59] × H135 [5.31] × D78.0mm [3.07in.] (unit only)
Weight	1.0Kg [2.2lb] or less (unit only)
Cooling Method	Natural air circulation

*1 Korean, Simplified Chinese, Traditional Chinese, Cyrillic and Thai character support. For more information, see the operation environment for GP-Pro EX.
 *2 Using the software, you can resize characters.
 *3 User area.
 *4 Service life of a lithium battery is 10 years or more at a battery ambient temperature of 40°C or less, 4.1 years or more at 50°C or less, or 1.5 years at 60°C or less. The backup period is about 100 days after the initial charge (fully charged), and about 6 days up to the end of battery life.
 *5 Using Pro-face's Step counting method.
 *6 Up to 60,000 steps can be made, but this reduces the capacity of the internal screen data memory by 1MB.
 *7 EX Module and CANopen Master Unit cannot be used at the same time.
 *8 Temperature in and around the panel. For STN color models, extended use in environments where the surrounding air temperature is 40°C or higher may degrade the display quality and could result in decreased contrast.
 *9 Confirmed compatibility under conditions. This does not guarantee compatibility for all environments.

Input Specifications	
Rated Voltage	DC24V
Maximum Allowable Voltage	DC28.8V
Input Method	Sink / Source Input
Rated Current	6.5mA (DC24V) (IN0, IN2, IN4, IN6) 5mA (DC24V) (Other inputs)
Input Resistance	Approx.3.7kΩ(IN0, IN2, IN4, IN6) Approx.4.7kΩ(Other inputs)
Input Points	12
Common Lines	1
Common Design	12 points / 1 common line
Operation Range	ON Voltage: DC19V or more OFF Voltage: DC5V or less
Input Delay Time	OFF to ON: 0.5 to 20ms *10 ON to OFF: 0.5 to 20ms *10
Input Signal Display	No LED indicators
Isolation Method	Photocoupler Isolation
External Connection	22-pin connector (used with Output section)
External Power Supply	For Signal: DC24V

Output Specifications	
Rated Voltage	OUT0 to OUT3: DC24V OUT4 to OUT15: DC20.4 to 28.8V
Allowable Voltage	DC20.4 to 28.8V
Output Method	Sink Output: LT3201-A1-D24-K Source Output: LT3201-A1-D24-C
Maximum Load Voltage	200mA / 1 point, 1.2A / 1 common
Minimum Load Current	1mA (Pulse / PWM Output Unavailable)
Output Voltage Drop	DC0.5V or less
Output Delay Time	OFF to ON: 5µs or less (with output DC24V, 200mA) ON to OFF: 5µs or less (with output DC24V, 200mA)
Voltage Leakage (When OFF)	0.1mA or less
Clamp Voltage	39V ± 1V
Type of Output	Transistor Output
Common Lines	1
Common Design	6 points / 1 common line
External Connection	22-pin connector (used with Input section)
Output Protection Type	Output is unprotected
Internal Fuse	2.5A, 125V Chip fuse (not replaceable)
Surge Control Circuit	Zener diode
Output Points	6
Output Signal Display	No LED indicators
Isolation Method	Photocoupler Isolation
External Power Supply	For Signal: DC24V

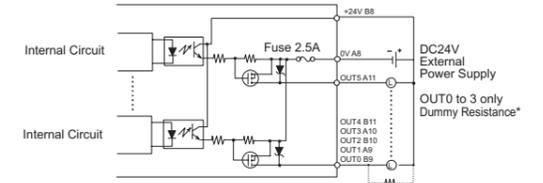

High-speed Counter / Pulse Catch Input Specifications			
Input	High-speed Counter		Pulse Catch
	DC24V Open Collector	DC24V Open Collector	
Input Points	Single phase (4 points) CT0(IN0), CT1(IN2), CT2(IN4), CT3(IN6), User Defined	Double phase (1 or 2 points) Use CT0 (IN0), CT1(IN2) in pairs. CT0: Phase A, CT1: Phase B CT2(IN4), CT3(IN6) in pairs. CT2: Phase A, CT3: Phase B User Defined	IN0, IN2, IN4, IN6 User Defined
Minimum Pulse Width (Pulse Input)			Input signal ON width 5µs or more
Count Speed (Rise, Fall Time)			—
Phase	1 Phase	90 degree phase differential 2-phase signal / 1-phase +directional signal	—
High Speed Count Frequency	100Kpps	50Kpps	—
Count Edge Designation	Available	Not Available	—
Count Register	32-bit UP / DOWN Counter		—
Counter Mode Change	Set through software		—
Upper / Lower Limit Settings	Not Available		—
Preload/Prestrobe	Available		—
Marker Input (Clear Counter Value)	None	IN3, IN7	—

Pulse / PWM Output Specifications		
	Pulse	PWM
Output Points	4 points	
Output Method	PLS0 to PLS3 (OUT0 to OUT3) User Defined	PWM0 to PWM3 (OUT0 to OUT3) User Defined
Load Voltage	DC24V	
Minimum Load Current	1mA	
Maximum Output Frequency	Max.65kHz (set through software) *Varies depending on the number of CH of High-speed counter, pulse output.	
Pulse Acceleration	Available	Not Available
ON Duty	50%±10% (at 65kHz) *11	19 to 81% (at 65kHz) *12

[Input Circuit]

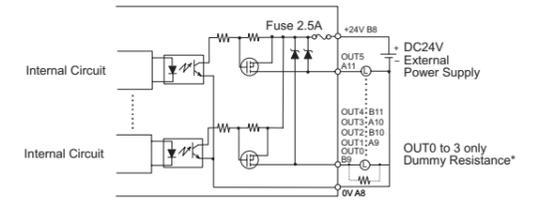

[Output Circuit] (Sink Type)

* For faster response with light load use an external dummy resistance.

[Output Circuit] (Source Type)

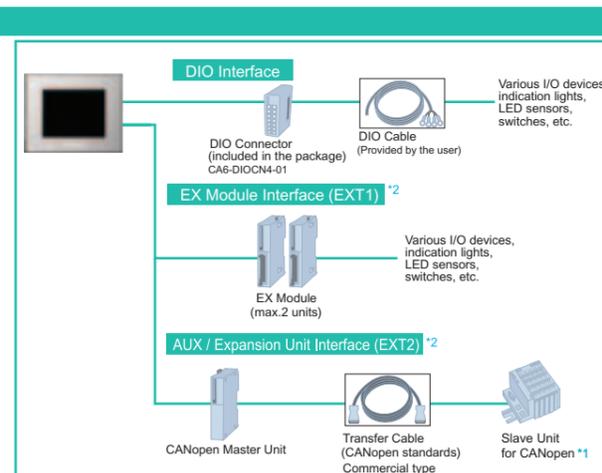

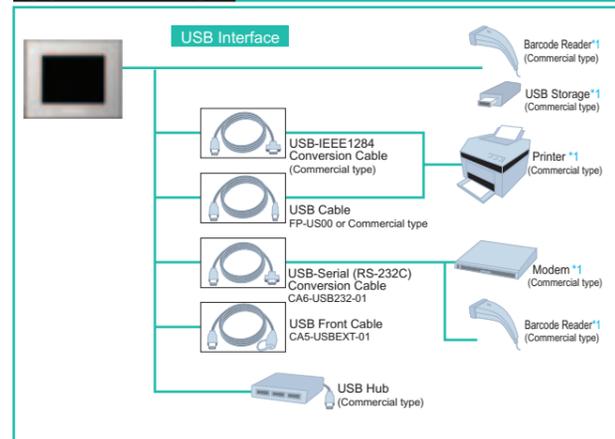

* For faster response with light load use an external dummy resistance.

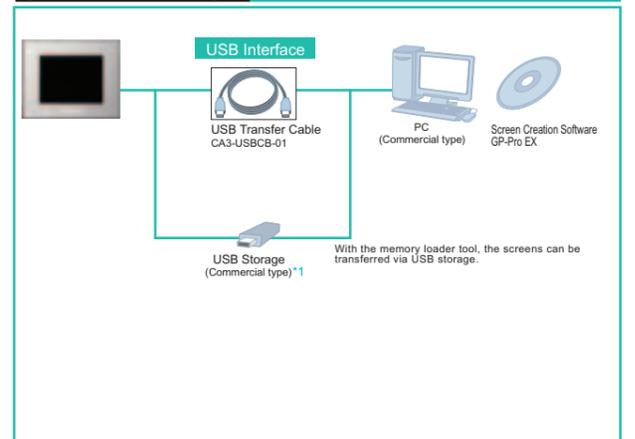

Pin Connection	Pin No.	Signal Name	Pin No.	Signal Name
	A1	IN1	B1	IN0 (CT0)
	A2	IN3	B2	IN2 (CT1)
	A3	IN5	B3	IN4 (CT2)
	A4	IN7	B4	IN6 (CT3)
	A5	IN9	B5	IN8
	A6	IN11	B6	IN10
	A7	NC	B7	COM
	A8	0V	B8	+24V
	A9	OUT1 (PLS1, PWM1)	B9	OUT0 (PLS0, PWM0)
	A10	OUT3 (PLS3, PWM3)	B10	OUT2 (PLS2, PWM2)
	A11	OUT5	B11	OUT4

*10 Digital filter can be set intervals of 0.5ms.
 *11 The ON duty error (10%) reduces as the output frequency setting is lower.
 *12 ON duty (effective range) increases as the output frequency setting is lower.

[System Structure]

[Editor Environment]

*1 For supported models, refer to Pro-face's support site "Otasuke Pro!" (http://www.pro-face.com/otasuke/). *2 EX Module and Expansion unit cannot be used at the same time.

[Input Module]

	EXM-DDI8DT	EXM-DDI16DT
Input Points	8 points (sink / source type-dual use)	16 points (sink / source type-dual use)
Rated Input Voltage	DC24V	
Rated Input Current	7.3mA / 1 point (DC24V)	
Input Impedance	3.3kΩ	
Isolation Method	Between input terminals and internal circuit: photocoupler isolated Between input terminals: not isolated	
Input Delay Time	OFF-ON: 4ms ON-OFF: 4ms	
External Connection	10-pin terminal connector	
Status LED	LED is lighting when input is ON.	
Power Consumption	0.17W or less	0.27W or less
Weight	85g [0.19lb]	100g [0.2lb]

[Output Module]

	EXM-DRA8RT	EXM-DRA16RT	EXM-DDO8UT	EXM-DDO8TT	EXM-DDO16UK	EXM-DDO16TK
Output Points	8-point relay (a-connect)	16-point relay (a-connect)	8-point transistor (sink)	8-point transistor (source)	16-point transistor (sink)	16-point transistor (source)
Rated Output Voltage	DC24V					
Common Design	4 points / 1 common	8 points / 1 common	8 points / 1 common		16 points / 1 common	
Maximum Load Voltage	2A or less		0.3A or less		0.1A or less	
Minimum Load Current	7A or less		8A or less		3A or less	
Electrical Life	100,000 operations or more (no load 1,800 operations/h)		-		-	
Mechanical Life	20 million operations or more (no load 18,000 operations/h)		-		-	
Isolation Method	Between output terminals and internal circuit: photocoupler isolated Between output terminals: not isolated					
Output Delay Time	6ms or less		300μs or less		300μs or less	
Time	ON		OFF		OFF	
Voltage Leakage	10ms or less		-		0.1mA or less	
External Connection	11-pin terminal connector	10-pin terminal connector	10-pin terminal connector		MIL connector	
Status LED	LED is lighting when output is ON					
Power Consumption	1.16W or less	2.10W or less	0.55W or less		1.03W or less	
Weight	110g [0.24lb]	145g [0.32lb]	85g [0.19lb]		70g [0.15lb]	

[Input / Output Mixed Module]

	EXM-DMM8DRT
Input Points	4 points (sink / source type-dual use)
Rated Input Voltage	DC24V
Rated Input Current	7.3mA / DC24V
Input Impedance	3.3kΩ
Isolation Method	Between input terminals and internal circuit: photocoupler isolated Between input terminals: not isolated
Input Delay Time	OFF-ON: 4ms ON-OFF: 4ms
Output Points	4-point relay (a-connect)
Common Design	4 points / 1 common
Maximum Load Current	2A or less
Minimum Load Current	7A or less
Electrical Life	100,000 operations or more (no load 1,800 operations/h)
Mechanical Life	20 million operations or more (no load 18,000 operations/h)
Output Delay Time	ON: 6ms or less OFF: 10ms or less
External Connection	11-pin terminal connector
Status LED	LED is lighting when input is ON
Power Consumption	0.65W or less
Weight	95g [0.21lb]

[Analog Module]

	EXM-AMI2HT	EXM-AMM3HT	EXM-ALM3LT	EXM-AMO1HT
Input Points	2 points			
External Connection	Terminal connector (by Phoenix Contact)			
Input Type	Voltage (0-10V), Current (4-20mA)		Temperature Probes (Pt100), Thermocouple	
Resolution	12bit			
Input Value of LSB	2.5mV, 4μA		0.15°C (Temperature Probes [Pt100]) Type K 0.325°C Type J 0.300°C Type T 0.100°C	
Input Impedance	min.1MΩ (voltage input), 10Ω (current input)		min.1MΩ	
Isolation Method	Between input terminals and internal circuit: photocoupler isolated			
Sampling Time	20ms or less			
Total Input System Transfer Time	105ms + 1 scan time		200ms + 1 scan time	
Maximum Error	-1% of full scale			
Output Points	1 point			
Output Type	Voltage (0 - 10V), Current (4 - 20mA)			
Resolution	12 bit			
Output Value of LSB	2.5mV (Voltage output), 4μA (Current output)			
Output Impedance	2kΩ or less (Voltage output), 300Ω or less (Current output)			
Isolation Method	Photocoupler isolation between input and internal circuit			
Total Output System Transfer Time	50ms + 1 scan time		130ms + 1 scan time	
Maximum Error	±1% of full scale			
External Connection	11-pin terminal connector			
Power Consumption	0.34W or less			
Weight	85g [0.19lb]			

[CANopen Master Unit]

Communication Type	1:N						
Connection Method	Multi-drop connection						
Communication Method	CSMA/NBA, half-duplex serial communication						
Transfer Speed / Communication Distance	Baud Rate	1,000kbps	800kbps	500kbps	250kbps (Factory Settings)	125kbps	50kbps
	Bus Length	20m	40m	100m	250m	500m	1000m
Number of Stations	Max.63 stations, Bit variable input: 512, Bit variable output: 512, Integer variable input: 128, Integer variable output: 128						
Field bus interface	D-Sub 9-pin plug						
Status LED	PWR (green) ON: The power turns ON, OFF: The light is OFF RUN (green): The light is ON or blinks when communication is enabled, ERR(Red): The light is ON or blink when the connected slave has an error.						
Power Consumption	2.4W or less						
Weight	500g [1.1lb] or less

¹ DC5V supplied by LT3000 unit. ² Configure the baud rate via software. ³ Length of the hooks when pulled out is 8.5mm [0.33in.]. ⁴ CANopen Master Unit Interface is at the bottom of the unit. ⁵ Length of the hooks when pulled out is 12.1mm [0.48in.].

[Option Item List]

"**" is changed with the version of software.

	Product Name	Model	Description
1	GP-Pro EX	EX-ED-V**	Screen-creation software
	GP-Pro EX Editor License	EX-ED-LICENSE-V**	GP-Pro EX editor license ⁶
2	Pro-Server EX Developer	EX-SDV-V**	For 5.7** ⁷ Software that connects a PC to a LT via Ethernet and collects and transmits data ⁸
	Pro-Server EX Developer License	EX-SED-LICENSE	For 5.7** ⁷ Pro-Server EX developer license ⁹
	Pro-Server EX Runtime License	EX-SRT-LICENSE	For 5.7** ⁷ Pro-Server EX Runtime license ¹⁰
	MES Action License	EX-MES-LICENSE-V**	For 5.7** ⁷ License key permitting Pro-Server EX to access a database

	Product Name	Model	Description
3	USB Transfer Cable (2m)	CA3-USBCB-01	USB cable for transferring data such as screen data (host to host)
	USB Cable (5m)	FP-US00	Connects a USB peripheral unit. (host to slave)
4	USB Front Cable (1m)	CA5-USBEXT-01	The cable for extending the LT's USB port
	USB-Serial (RS-232C) Conversion Cable (50cm)	CA6-USB232-01	The conversion cable for using a LT's USB I/F as the Serial (RS-232C) I/F. Connects a Modem only for the RS-232C communication method.
5	RS-232C Cable (5m)	CA3-CBL232/5M-01	For 5.7** ⁷ Interface cable for communication between a temperature controller/variety boards and the LT series via RS-232C.
	RS-422 Cable (5m)	CA3-CBL422-01	For 5.7** ⁷ Interface cable for communication between a temperature controller/variety boards and the LT series via RS-422.
6	RS-422 Cable (5m)	CA3-CBL422/5M-01	For 5.7** ⁷ Interface cable for communication between a temperature controller/variety boards and the LT series via RS-422. <for a unit of terminal resistance 100 Ω>
	COM Port Conversion Adapter	CA3-ADPCOM-01	For 5.7** ⁷ Pin assign conversion adapter connects optional RS-422 communication items to LT-3300 series unit's COM1 port.
7	Terminal Connector Conversion Adapter	CA3-ADPTRM-01	For 5.7** ⁷ Conversion adapter converts a COM port to RS-422 terminal block.
	RS-232C Isolation Unit	CA3-ISO232-01	For 5.7** ⁷ Unit for providing isolated connection between a temperature controller/variety boards and the LT series. RS-232C and RS-422 are switchable.
8	8-Point Input Module	EXM-DDI8DT	8-point sink-source shared expansion unit
	8-Point Relay Output Module	EXM-DRA8RT	8-point relay output / 2-point common type expansion unit
9	8-Point Sink Output Module	EXM-DDO8UT	8-point transistor output sink type expansion unit
	8-Point Source Output Module	EXM-DDO8TT	8-point transistor output source type expansion unit
10	16-Point Input Module	EXM-DDI16DT	16-point sink-source shared expansion unit
	16-Point Relay Output Module	EXM-DRA16RT	16-point relay output / 2-point common type expansion unit
11	16-Point Sink Output Module	EXM-DDO16UK	16-point transistor output sink type expansion unit
	16-Point Source Output Module	EXM-DDO16TK	16-point transistor output source type expansion unit
12	4-Point Input / 4-Point Relay Output Module	EXM-DMM8DRT	4-point input sink-source / 4-point relay output / 1 common mixed I/O unit
	2-ch Analog Input Module	EXM-AMI2HT	2-ch analog input type expansion unit
13	Thermocouple (Pt100) Input / 1-ch Analog Output Module	EXM-ALM3LT	2-ch temperature input / 1-ch analog output type expansion unit
	2-ch Analog Input / 1-ch Analog Output Module	EXM-AMM3HT	2-ch analog input / 1-ch analog output expansion unit
14	1-ch Analog Output Module	EXM-AMO1HT	1-ch analog output type expansion unit
	CANopen Master Unit	CA8-CANLT-01	Master unit to connect to a slave unit supporting CANopen
15	CANopen Slave HTB Unit	HTB1CODM9LP	Slave unit supporting CANopen with 12 digital inputs, 6 relay outputs and 2 transistor source outputs. Up to 7 units of EX modules can be connected.
	Screen Protection Sheet	CA3-DFS6-01	For 5.7** ⁷ Disposable, dirt-resistant sheet for the LT unit's screen (5 pcs/set)
16	Environmentally-resistant Cover	CA4-DCMDL-01	For 5.7** ⁷ Regarding grease and chemical application, do not remove the unit, simply replace the environmental protection cover (5 pcs/set)
	Panel Cutout Adapter	CA4-ATM5-01	For 5.7** ⁷ Attachment required for installing a 5.7-inch display unit in the mounting hole of LT Series (GLC150).

	Product Name	Model	Description
1	Installation Gasket	CA3-WPG6-01	For 5.7** ⁷ Sheet for protecting the front of the display unit from fingerprints, water droplets, powders, dust, and oil mist
	USB Cable Clamp	ST400-WP01	For 3.8** ⁸ USB cable clamp to prevent disconnection (5 pcs/set)
2	DC Power Supply Connector	CA7-USBAT-01	For 5.7** ⁷ Connector for attaching power supply to power cable (5 pcs/set)
	Installation Fastener	CA5-USBATL-01	For 3.8** ⁸ Installation fasteners for (4 pcs/set)
3	DIO Connector	CA7-DIOCN5-01	For 5.7** ⁷ Connector attached to DIO interface connects an external I/O devices. (5 pcs/set)
	MIL Connector (20-pins) for EX module	CA6-DFSA-01	For 3.8** ⁸ Connector for EX module (5 pcs/set)
4	Terminal Connector (10-pins) for EX module	CA6-EXMCMNRS10P-01	For 5.7** ⁷ Terminal Connector (10-pins) for EX module
	Terminal Connector (11-pins) for EX module	CA6-EXMCMNRS11P-01	For 5.7** ⁷ Terminal Connector (11-pins) for EX module
5	EX Module Securing Hook	CA7-FIXEXM-01	For 5.7** ⁷ Hook for securing three EX Modules (5 pcs/set)
	DIO Connector for HTB	CA7-HTBCNSET-01	For 3.8** ⁸ 13-pin input connector and 16-pin output connector for HTB (each in one set)

⁶ Purchase this product when installing GP-Pro EX in a second or subsequent PC. One license is required for each PC.
⁷ Only for units with Ethernet.
⁸ Includes the settings editor and Run time.
⁹ Purchase this product when installing the settings editor and Run time in subsequent PCs.
¹⁰ Purchase this license when installing only Run time in subsequent PCs. One license is required for each PC.

Service & Support

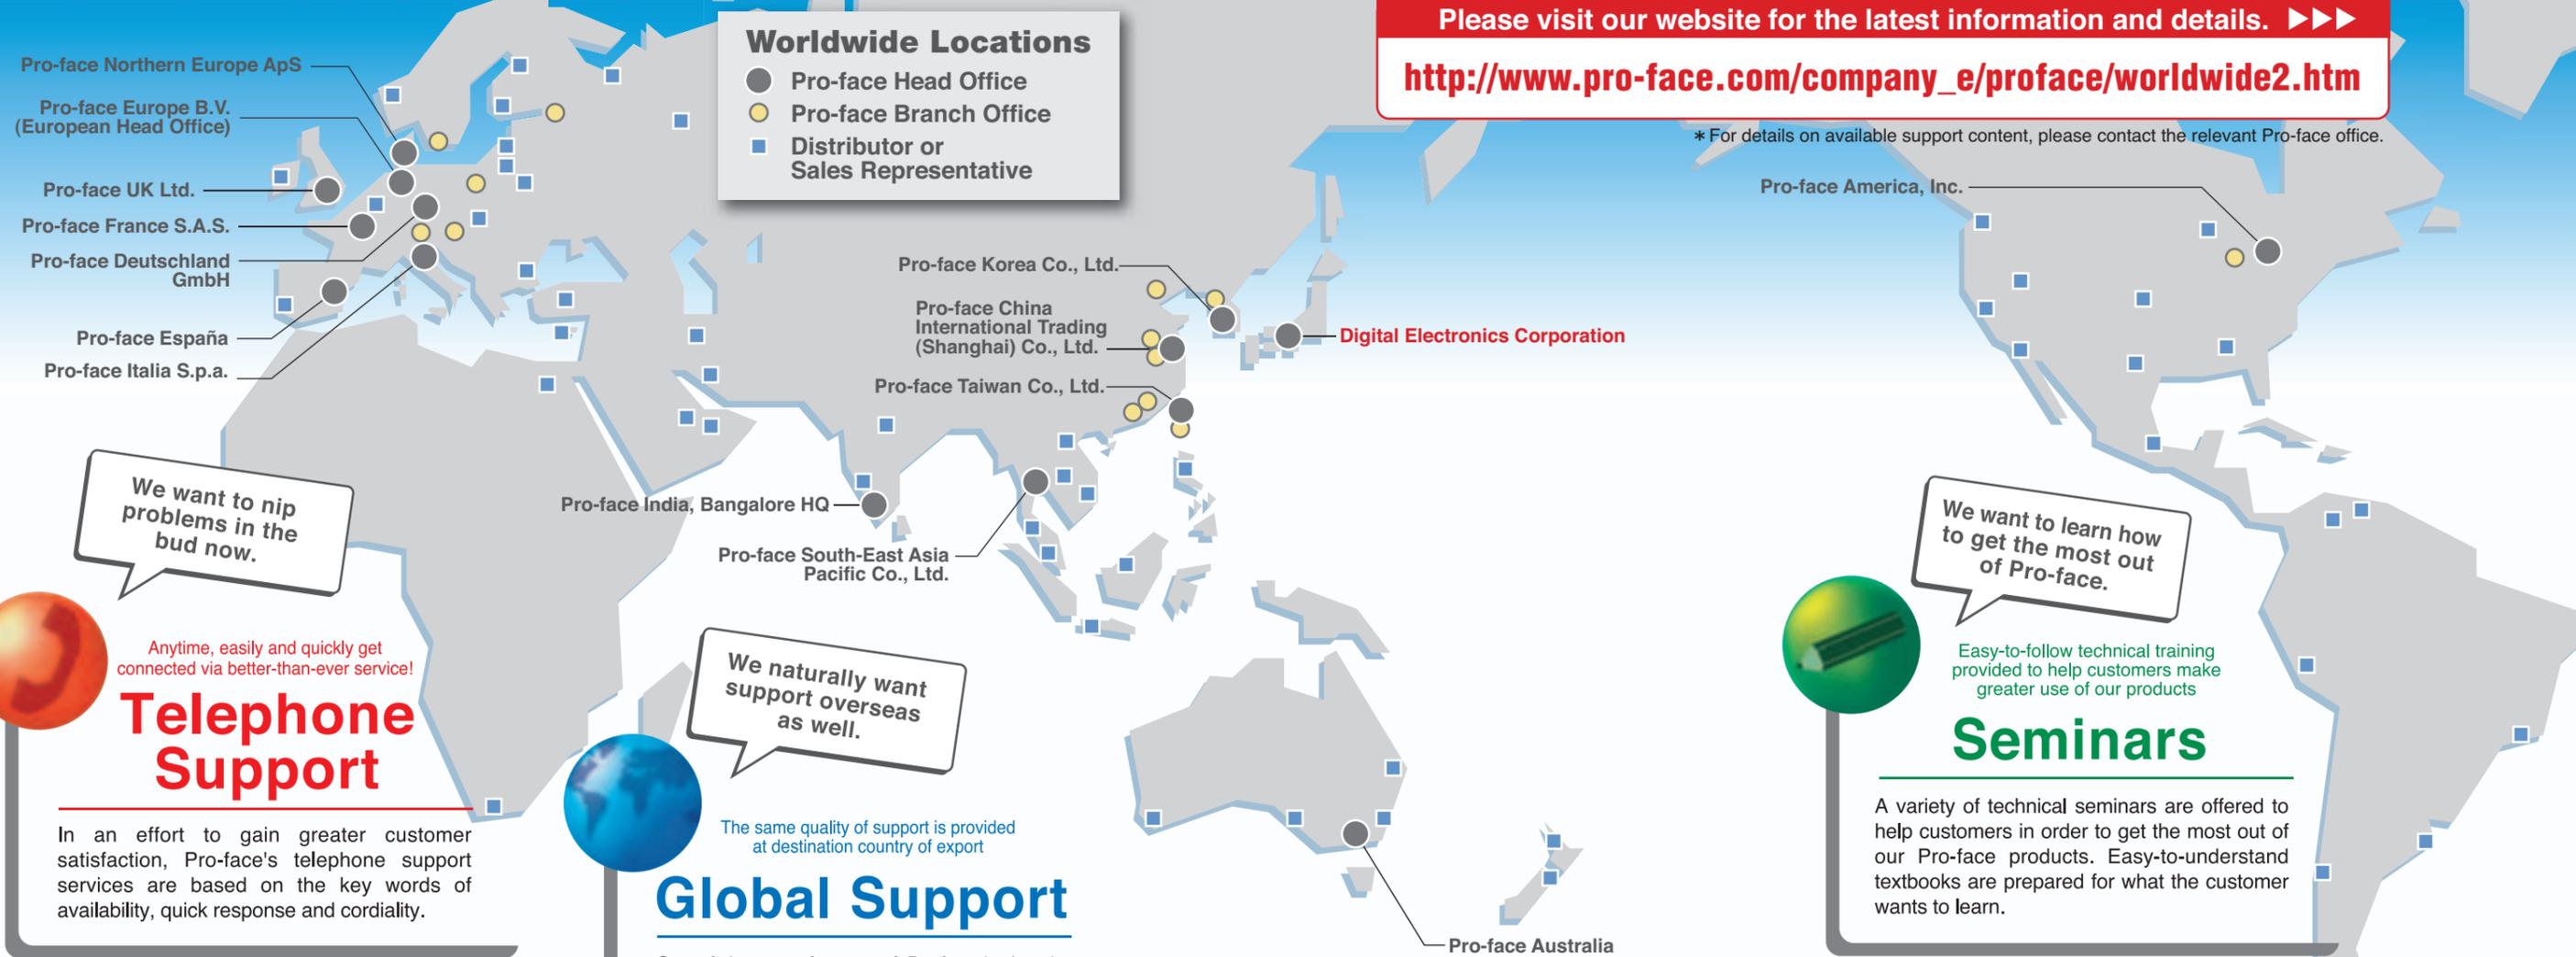

INFORMATION

With the Pro-face global brand, get the support you need anytime, anywhere! We have a reliable service and support system.

Please visit our website for the latest information and details. ▶▶▶

http://www.pro-face.com/company_e/proface/worldwide2.htm

* For details on available support content, please contact the relevant Pro-face office.

We want to nip problems in the bud now.

Anytime, easily and quickly get connected via better-than-ever service!

Telephone Support

In an effort to gain greater customer satisfaction, Pro-face's telephone support services are based on the key words of availability, quick response and cordiality.

We naturally want support overseas as well.

The same quality of support is provided at destination country of export

Global Support

One of the great features of Pro-face is that the same high level of customer support is available in countries where the product is exported to. Overseas customers can receive high quality support in both telephone inquiries and repair services.

We want to learn how to get the most out of Pro-face.

Easy-to-follow technical training provided to help customers make greater use of our products

Seminars

A variety of technical seminars are offered to help customers in order to get the most out of our Pro-face products. Easy-to-understand textbooks are prepared for what the customer wants to learn.

We want to make better screens in an easier way.

Expanded "Otasuke Pro!" support site
 Upgraded handy screen samples

Web Support

The content of our "Otasuke Pro!" support site has been upgraded with services aimed at reducing development man-hours at customer by fulfilling contents such as Q&A and manual downloads.

Safety Standard Certificates RoHS Compliance

Anytime Anywhere

Web Download Service

Easily find individual product certifications and quickly obtain the necessary documentation for customs, safety inspections, and insurance.

We want Pro-face products fixed promptly.

Should trouble occur, it can be fixed swiftly without incurring process loss!

Repair Services

Pro-face has eliminated loss throughout the entire process from providing quotation to customer, repair, and return delivery. We are constantly re-evaluating our systems to ensure satisfaction for all of our customers.

We want manuals that even beginners can understand.

Efforts to ensure anyone and everyone can understand how to use Pro-face products

Manuals

So that even beginners can use products immediately, We aim to make manuals easy-to-understand. We have already received high reviews from many customers in a survey on satisfaction.

Worldwide Locations

Our Environmental Policy and Compliance with the RoHS Directive

Pro-face has taken significant steps to meet increasingly stringent requirements for environmental preservation and has sought to comply with the RoHS Directive by adopting measures to eliminate specified harmful substances from existing products and products to be manufactured and sold beginning in 2006. For details, please refer to our web site or contact our sales office in your country.

ACCESS!!

Conformance with International Safety Standards

Pro-face products and component parts bearing the CE Mark and the UL or c-UL Listing and Recognized Component Marks are your guarantees of compliance with safety standards accepted in countries and regions worldwide.

Caution: Before operating any of these products, be sure to read all related manuals thoroughly.

- For printing purposes, the colors in this catalog may differ from those of the actual unit.
- LCD screens may exhibit minute grid-points (light and dark) on the Display Panel surface.
- "Contouring" - where some parts of the screen are brighter than others, producing a wavelike pattern - may occasionally occur. Both are normal for an LCD display and are not defects.

- Actual user screens may differ from the screens shown here.
- All product names used in this catalog are the registered trademarks or trademarks of their respective companies.
- All information contained in this catalog is subject to change without notice.
