

Pro-face PanelStation™ Operator Interface

Product Life Cycle and Migration Guide

Includes Proface Product Cross Reference

PanelStation products are 100% equivalent to GE Fanuc's QuickPanel Products.

Pro-face manufactured these products and marketed operator interfaces in North America under the brand name "QuickPanel" through Total Control Products (TCP) and GE Fanuc.

Pro-face remains the sole manufacturer and long term service, support and supplier.

This document updated April 2009

**QuickPanel Is 100% PanelStation
Drop-in Replacements for GE QuickPanels®**

QuickPanel and QuickDesigner are products of, and
TradeMarked by GE Fanuc Automation North America, Inc.

Pro-face
Your HMI and Industrial PC Authority

About Pro-face PanelStation Product Line:

Pro-face is the most recognized and trusted name in operator interfaces and graphic controllers worldwide. Pro-face PanelStation operator interface products are 100% equivalent to GE Fanuc's QuickPanel products. GE-Fanuc and Total Control Products private labeled our products for exclusive distribution in North America during the 1990s.

In 2003, Pro-face began marketing its own brand of operator interface products in North America. Most important was the Pro-face PanelStation products which were created to protect our customers by maintaining, servicing and supporting the existing installed base of products (QuickPanels). This product line uses the same model numbers and units you have previously purchased from other sales organizations.

The Pro-face version of QuickDesigner 3.7 software is identical to the original version of Quickdesigner 3.7 with the exception of no GE driver support. The software service packs that are required to maintain hardware revision compatibility are also different. If you require GE connectivity you must use the QuickDesigner version supplied by GE Fanuc, but you can still use our hardware.

Pro-face remains the sole manufacturer and long term supplier of these products.

We sincerely appreciate your continued support of Pro-face products.

Thank You.
Pro-face America

About This Migration Guide:

This migration guide is intended to provide you a recommended migration path for the PanelStation and QuickPanel products. Availability of each PanelStation product is subject to change.

Two choices are offered as a product migration path.

- 1) Easiest Solution: Upgrade to the latest version of PanelStation products which are drop-in replacements to existing installations.
- 2) Recommended solution: Migrate to the AGP3000 HMI hardware and GP-Pro EX software platform. This software platform is not compatible with your existing installed base. The main advantage for QuickDesigner users is the ease-of-use of GP-Pro EX HMI software plus AGP3000 products are cutout compatible with PanelStation products.

QuickDesigner Software Revision History

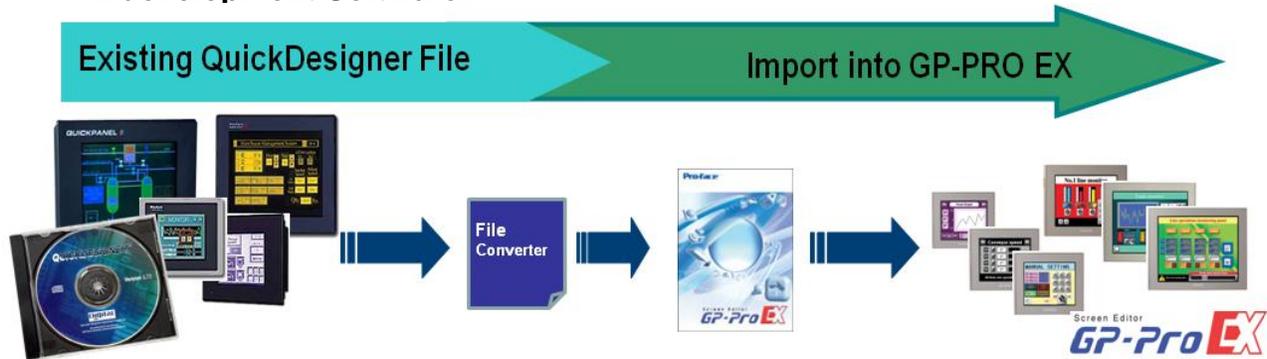

QuickDesigner	PanelStation/QuickPanel Model Numbers Supported
1.x to 2.4	Supports QPx-1xxxx-xxx models (No upload project capability)
2.2 to 3.4	Supports QPx-2xxxx-xxx models
3.32 to 3.4	Supports QPx-3xxxx-xxx models
3.6	Supports QPX-3xxxx-xxx and QPI,QPL,QPG-CtxE-0000 Models
3.7	Supports QPX-3xxxx-xxx and QPx-CtxE-0000 Models (includes QPK-CtxE-0000)

Notes:

- 1) You must upgrade to the latest version of QuickDesigner 3.7 in order to maintain hardware compatibility.
- 2) QuickDesigner supports QuickPanel and PanelStation Products
- 3) Not Supported by Microsoft XP operating system

Migrating QuickDesigner applications to Pro-face GP-Pro EX multi-platform HMI development Software:

A **FREE** QuickDesigner to GP-Pro EX stand alone file conversion utility is available from our support site at: <http://www.hmisource.com/otasuke/qa/panelstation/>

This free converter tool enables your QuickDesigner application to be imported into our GP-Pro EX multiplatform HMI solution software. The application can now be downloaded into an AGP3000 Series cutout compatible operator interface product.

Manuals, Frequently asked questions, updates, certifications can be found on our extensive product support site.

Conversions assistance and guidance is available by contacting support@profaceamerica.com or by calling 1-800-289-9266.

Recommended Product Migration

Recommended Product Migration			
	Panelstation Part Number	PanelStation & QuickDesigner 3.7 See note 1	AGP Series & GP-Pro EX See note 2
5" Units			
Mono	QPJ-2D100-L2P (Discontinued)	QPK-STDN-0000 (STN unit)	AGP3300-L1-D24
STN	QPJ-2D100-S2P (Discontinued)	QPK-STDN-0000	AGP3300-T1-D24 (TFT unit)
6" Units			
Blue Mode	QPM-3D200-B2P	QPM-3D200-B2P	AGP3302-B1-D24
Mono	QPK-3D200-L2P (Check availability)	QPK-STDN-0000 (STN unit)	AGP3300-T1-D24 (TFT unit)
STN	QPK-3D200-S2P (Discontinued)	QPK-STDN-0000	AGP3300-T1-D24 (TFT unit)
STN	QPK-STDN-0000	QPK-STDN-0000	AGP3300-T1-D24 (TFT unit)
TFT	QPK-3D200-C2P (Discontinued)	QPK-CTDE-0000	AGP3300-T1-D24
TFT	QPK-CTDE-0000	QPK-CTDE-0000	AGP3300-T1-D24
7.4" and 9" Units			
TFT	QPG-CTDE-0000	QPG-CTDE-0000	AGP3400-T1-D24
Amber	QPI-3D200-E2P (Check availability)	QPI-CTDE-0000 (TFT unit)	AGP3500-T1-D24 (TFT unit)
Amber	QPI-31200-E2P (Check availability)	QPI-CTAE-0000 (TFT unit)	AGP3500-T1-AF (TFT unit)

Notes:

- 1) To guarantee compatibility with replacement unit, QuickDesigner 3.7 is required with all service packs
- 2) AGP3000 and GP-Pro EX is a newer hardware and software platform. You cannot import a QuickDesigner application in GP-Pro EX. This is the recommended long term replacement for all QuickPanel and PanelStation products.
- 3) QuickDesigner is not supported by Microsoft XP operating system.
