

Easy! Smooth! Replacement Guidebook

GP4000E Series → ET6000 Series

The 2nd Edition, May 2025

SE01-Guide-GP4000E_to_ET6000-EN-02

*Products may be changed or discontinued without notice. Please check our website for the latest information.

Update History

Date	Edition	Updated Slide	Description
15/Dec/2021	1 st	-	Newly created
13/Mar/2025	2 nd	Slide 25, 27	Added the information of newly supported features with GP-Pro EX Ver.5.00.000 - FTP Server - E-mail - GP-Viewer EX - Pro-Server EX - XY Graph - Pro-face Remote HMI (from GP-Pro EX Ver.4.09.600)

Preface

This guidebook introduces the procedures to replace a unit from “GP4000E series” to a “ET6000 series”.
The recommended substitute models are as follows.

Model in use		Recommended substitutes
GP-4402WW	PFXGP4402WADW	PFXET6400WAD
GP-4502WW	PFXGP4502WADW	PFXET6500WAD
GP-4502WW	PFXGP4502WADW	PFXET6600WAD ^{*1}

^{*1}:Size-up migration.

Safety Information

HAZARD OF OPERATOR INJURY, OR UNINTENDED EQUIPMENT DAMAGE

- Before operating any of these products, be sure to read all related manuals thoroughly.
- Be sure to do installation, connection, and maintenance by a person who is familiar with the construction method of electrical equipment, related laws and regulations, and has appropriate technology.

We shall not be liable for any serious injury to human life, damage to equipment, or any other consequences if used without observing these.

Other important notes

Summary

The replacement from GP4000E series to ET6000 series generally keeps compatibility, but the following points are the main points to note.

- Display size: GP-4502WW to ET-6600WA is size up migration purpose, so display size is bigger.

GP4000E series	ET6000 series
10.1"W	12.1"W

- Display resolution: GP-4402WW and ET-6400WA have the same resolution so easy to migrate the project. ET-6500WA has a better resolution than GP-4502WW but need to convert resolution by the software to use old project data from GP-4502WW.

GP-4402WW	800 x 480 pixels (WVGA)	ET-6400WA	800 x 480 pixels (WVGA)
GP-4502WW	800 x 480 pixels (WVGA)	ET-6500WA	1024 x 600 pixels (WSVGA)
-	-	ET-6600WA	1280 x 800 pixels (WXGA)

- External Dimensions: ET6000 series will be thicker than GP4000E series, it is necessary to check the dimensions of the HMI installation location. Please see the next page for the comparison.

Summary

External Dimensions : GP-4402WW vs ET-6400WA

GP-4402WW	ET-6400WA	Differences from GP-4402WW to ET-6400WA (mm)
W207 x H152.4 x D38.2	W205.5 x H150.5 x D45	W-1.5 x H-1.9 x D+6.8

GP-4402W

ET-6400WA

Summary

External Dimensions : GP-4502WW vs ET-6500WA

GP-4502WW	ET-6500WA	Differences from GP-4502WW to ET-6500WA (mm)
W275 x H206 x D38.2	W270.5 x H200.5 x D47	W-4.5 x H-5.5 x D+8.8

GP-4502W

ET-6500WA

Summary

External Dimensions : GP-4502WW vs ET-6600WA

GP-4502WW	ET-6600WA	Differences from GP-4502WW to ET-6600WA (mm)
W275 x H206 x D38.2	W310.5 x H232.5 x D50	W+35.5 x H+26.5 x D+11.8

4. Option compatibility

	Product Name	GP-4*02WW	ET-6*00WA	Description	Compatibility
Serial Interface *1	RS-232C Cable (5m)	CA3-CBL232/5M-01	CA3-CBL232/5M-01	Connects a host controller to the GP unit. (RS-232C)	✓
	Mitsubishi Q-Series Link Cable (5m)	CA3-CBLLNKM-Q-01	CA3-CBLLNKM-Q-01	Connects Mitsubishi PLC Q-Series (or other host controller) to the GP unit. (RS-232C)	✓
	Omron SYSMAC Link Cable (5m)	CA3-CBLSYS-01	CA3-CBLSYS-01	Connects Omron PLC SYSMAC Series unit (or other host controller) to the GP unit. (RS-232C)	✓
	Siemens TTY Converter Cable (5m)	CA6-CBLTTY/5M-01	CA6-CBLTTY/5M-01	Connects Siemens PLC S5 Series to the GP unit	✓
	Mitsubishi A-Series Connection Cable (5m)	CA3-CBLA-01	CA3-CBLA-01	Connects Mitsubishi PLC A, QnA Series programming console I/F to GP unit. (Simultaneous use of programming console is not possible.)	✓
	Mitsubishi Q-Series Connection Cable (5m)	CA3-CBLQ-01	CA3-CBLQ-01	Connects Mitsubishi PLC Q-Series programming console I/F to GP unit. (Simultaneous use of programming console is not possible.)	✓
	Mitsubishi FX-Series Connection Cable	CA3-CBLFX/1M-01 (1m) CA3-CBLFX/5M-01 (5m)	CA3-CBLFX/1M-01 (1m) CA3-CBLFX/5M-01 (5m)	Connects Mitsubishi PLC FX-Series programming console I/F and GP unit. (Simultaneous use of programming console is not possible.)	✓
	RS-422 Cable (5m)	CA3-CBL422-01	CA3-CBL422-01	Connects a host controller to the GP unit. (RS-422 / Plug Type)	✓
	2 Port Adapter Cable (5m)	CA3-MDCB11	CA3-MDCB11	Connects Mitsubishi PLC to the GP unit using 2 port adapter II (RS-422).	✓
	Mitsubishi A/QnA/FX Series 2 Port Adapter II	GP070-MD11	GP070-MD11	Allows simultaneous use of an GP unit Series unit and a Mitsubishi PLC A, QnA, FX Series peripheral device.	✓
	Terminal Block Conversion Adapter	CA3-ADPTRM-01	CA3-ADPTRM-01	Connects output from a serial interface with an RS-422 terminal block.	✓
	COM Port conversion Adapter	CA3-ADPCOM-01	CA3-ADPCOM-01	Connects optional RS-422 communication items to GP unit's COM1 port.	✓
	Multi-Link Cable	CA3-CBLMLT-01 (5m)	CA3-CBLMLT-01 (5m)	Connects a host controller to the GP for multi-link (n:1) communication.	✓
	9pin to 25pin RS-232C Conversion Cable	CA3-CBLCBT232-01(0.2m)	-	Connects a standard RS-232C cable (GP Connector, D-Sub 25-pin) to the GP.	-
	MPI Cable (3.5m)	ST03-A2B-MPI21-PFE	ST03-A2B-MPI21-PFE	Connects a host controller to the GP unit for MPI communication.	✓

*1: For those require flow control or VCC, GP4000E nor ET6000 do not support.

NOTE: Products may be changed or discontinued without notice. Please check our website for the latest information.

4. Option compatibility

	Product Name	GP-4*02WW	ET-6*00WA	Description	Compatibility
USB Interface	USB Front Cable (1m)	CA5-USBEXT-01	CA5-USBEXT-01	Extension cable attaching USB interface to front panel.	✓
	USB- Serial (RS-232C) Conversion Cable(0.5m)	CA6-USB232-01	-	Cable for converting a GP unit's USB interface into a serial interface (RS-232C). Can be used to transfer project data created with the Screen Editor & Logic Program Software via a serial interface.*1	-
	USB Transfer Cable (USB Type A/mini-B) (1.8m)	ZC9USCBMB1	-	Cable for transferring screen data from a PC (USB Type A) to the GP unit (USB mini-B).	NEW! Use "PFXZUSCBMB2" USB micro-B Cable for ET6000.
	USB Transfer Cable (USB Type A/micro-B)	-	PFXZUSCBMB2	Cable for transferring screen data from a PC (USB Type A) to this product (USB micro-B)	
	USB Panel-mount Extension Cable (USB mini-B) (1m)	ZC9USEXMB1	-	Extension cable attaching to the USB (mini-B) interface on the front side of the operation panel.	NEW! Use "PFXZCIEXMB2" USB micro-B for ET6000.
	USB Panel-mount Extension Cable (USB micro-B)	-	PFXZCIEXMB2	Extension cable that attaches USB interface to front panel.	
	USB Clamp Type mini B *2		ZC9USCLMB1	Clamp to prevent disconnection of USB cable (for 1 port, USB Type mini B, 5 pieces/set)	NEW!
	EZ Illumination Switch	PFXZCCEUSG1	-	A unit of 5 illuminated switches with multiple color LED easily connected with GP unit via USB.	- EZ Series is not supported If you want to use EZ series, please use ST6000 series.
	EZ Fingerprint Recognition Unit	PFXZCCEUSS1	-	Fingerprint recognition unit easily connected with GP unit via USB. . (End of Sale: Dec. 27, 2019)	
	EZ Numpad	PFXZCCEUKB1	-	Numpad connected to this product via USB.	
	EZ Tower Light tube mounting with fixing plate	PFXZCETWHA1	-	USB Connection Type Monolithic EZ Tower Light tube mounting with fixing plate 3 tiers, É"60, lighting and flashing with a buzzer.	
	EZ Tower Light with base mounting	PFXZCETWW1	-	USB Connection Type Monolithic EZ Tower with base mounting 3 tiers, É"60, lighting and flashing with a buzzer.	
	USB Cable (5m)	FP-US00	FP-US00	Connects a USB printer (TYPE-B)	✓

*1: Requires an RS-232C cable (Prepared by the user) for connection.

*2: USB Clamp mini-B can be used for optional USB micro-B cables.

NOTE: Products may be changed or discontinued without notice. Please check our website for the latest information.

4. Option compatibility

	Product Name		GP-4*02WW	ET-6*00WA	Description	Compatibility
Other	Wide Screen Protection Sheet	7-inch wide	PFXZCBDS72	-	Disposable, dirt-resistant sheet for the GP unit's screen (5 sheets/set)	- Please use ET6000 option
	UV Protection Sheet	7-inch wide	PFXZCFUV72	-	Ultraviolet protection for the display (1 piece)	- Please use ET6000 option
		10-inch wide	PFXZCFUV102	-		
	Screen Protection Sheet	12-inch wide	-	PFXZCDDS122	Disposable, dirt-resistant sheet for the display for 12-inch Wide screen (5sheets/set)	NEW!
	Screen Protection Sheet with UV Protected	7-inch wide	-	PFXZCIDS72	Disposable, dirt-resistant and ultraviolet protection sheet for 7-inch Wide screen (1 sheet/set).	NEW!
		10-inch wide	-	PFXZCIDS102	Disposable, dirt-resistant and ultraviolet protection sheet for 10-inch Wide screen (1 sheet/set).	
		12-inch wide	-	PFXZCFUV122	Disposable, dirt-resistant and ultraviolet protection sheet for 12-inch Wide screen (1 sheet/set).	
		15-inch wide	-	PFXZCIDS152	Disposable, dirt-resistant and ultraviolet protection sheet for 15-inch Wide screen (1 sheet/set).	
	Wide Installation Gasket	7-inch (Wide for ET6000)	PFXZCCWG7W1	PFXZCWG4W1	Provides dust and moisture resistance when this product is installed into a solid panel for 7-inch wide screen (1 pc)	-
		10-inch (Wide for ET6000)	PFXZCCWG10W1	PFXZCWG5W1	Provides dust and moisture resistance when this product is installed into a solid panel for 10-inch wide screen (1 pc)	
		12-inch Wide	-	PFXZCWG6W1	Provides dust and moisture resistance when this product is installed into a solid panel for 12-inch wide screen (1 pc)	NEW!
		15-inch Wide	-	PFXZCIWG153	Provides dust and moisture resistance when this product is installed into a solid panel for 15-inch wide screen (1 pc)	

NOTE: Products may be changed or discontinued without notice. Please check our website for the latest information.

4. Option compatibility

	Product Name	GP-4*02WW	ET-6*00WA	Description	Compatibility
Maintenance	DC Power Supply Connector	CA5-DCCNM-01	CA5-DCCNM-01	Connector to connect DC power supply cables (5 pcs/set)	✓
	Installation Fastener	PFXZCFAF1	PFXZCFAF1	Used to install the GP into a solid panel (4 pieces/ set) : For GP4000E series	✓
		-	PFXZCIAFTF1	Used to install 7-inch, 10-inch and 12-inch Wide model into a solid panel (4 pieces/set). : For ET6000 series	
	USB Clamp Type A(for 1 port)	-	PFXZCBCLUSA1	Used to install 15-inch Wide model into a solid panel (2 pieces/set).	NEW!
	Replacement Battery	PFXZGEBT1	PFXZGEBT1	Clamp to prevent disconnection of USB cable (for 1 port, USB Type A, 5 pieces/set)	NEW!
				Primary battery for time data backup (1 piece).	✓

NOTE: Products may be changed or discontinued without notice. Please check our website for the latest information.

	https://www.proface.com/en/product/soft/proface_connect/download		

*1: To use some functions such as Alarm Analysis, Ver. 3.0 or later is required.

*2: Supported by GP-Pro EX V5.00.000 or later.

*3: Supported by GP-Pro EX V4.09.600 or later.

6. About Resolutions

When replacing with a model with a different resolution, Convert the resolution with the following settings.

With GP-Pro EX

The Display Module can be Changed on the “Project” -> “System Settings” -> “Change Display Unit” screen of GP-Pro EX.

If you check on [Convert Resolution] when changing the Display Unit type (as shown below), you can adjust both size and location of the part and the text relative to the display resolution automatically. But please note that their width gets larger due to change of horizontal resolution of the screen area. In this case, confirm their size and location and adjust them if necessary. Please check some examples below.

- A function that requires absolute coordinates. Please adjust the settings manually.
 - **Global window**
 - **Position Animation**
- Due to font size and resolution restrictions, manual changes may be required. Please resize them if needed
 - **Font:** In the case of using Standard font, the size will be smaller. You can improve by using Stroke font or Image font.
 - **Objects**
 - **Parts**
 - **Images**
 - **Alarm parts**
- Position may differ from the original project. Please check the coordinate of the window and adjust if needed.
 - **Window display**

7. Unsupported GP-Pro EX features – ET6000 vs GP4000E

EX features	ET6000	GP4000E
Function Expansion Memory	No	No
CF Card	No	No
CFast Card	No	No
2-point touch/ Multitouch	No	No
Change Backlight Color	No	No
Movie record/play feature	No	No
Use image unit	No	No
Sound Output Feature	No	No
AUX	No	No
IO Driver	No	No
Time Zone Setting	No	No
Detect Backlight Burnout	No	No
Ladder Monitor	No	No
Retentive Variable Function	No	No
SIO Transfer (COM Connection)	No	Yes
Increase Alarm Type [Extended] settings and Text Table index numbers	No	Yes
Transferring Sampled Data to the Cloud	No	Yes

*1: Supported by GP-Pro EX Ver.5.00.000 or later.

*2: Supported by GP-Pro EX Ver.4.09.600 or later.

EX features	ET6000	GP4000E
XY Graph	Yes*1	Yes

EZ Tower Light	No	Yes
EZ LAN Adapter	No	No
FEP Key	No	No

8. Other Important notes

- Do not expose the hardware to direct sunlight.
To prevent deterioration due to ultraviolet rays, we recommend using an optional screen protection sheet.
- Do not use the hardware outdoors.
- Do not turn on the hardware if condensation has occurred inside the device.
- The panel brightness may decrease when used for a long time in an environment continuously filled with inert gas.
Please ventilate the control panel periodically.
