

Enhance Visibility and Quality on Your Production Line with PS6000 and WinGP x Intelligent Camera

Designed for end users for Production Management and Machine builders. A Solution to find the root cause in second not hours.

COMMON ISSUES

Blind spots inside machines and fixtures lead to intermittent, hard-to-reproduce problems, resulting in slow troubleshooting, long stoppages, and decisions based on experience rather than evidence.

KEY BENEFITS

Real-time Visibility

View hidden machine areas directly on PS6000.

Faster Root-Cause Analysis

Event video captures Before/After for Kaizen.

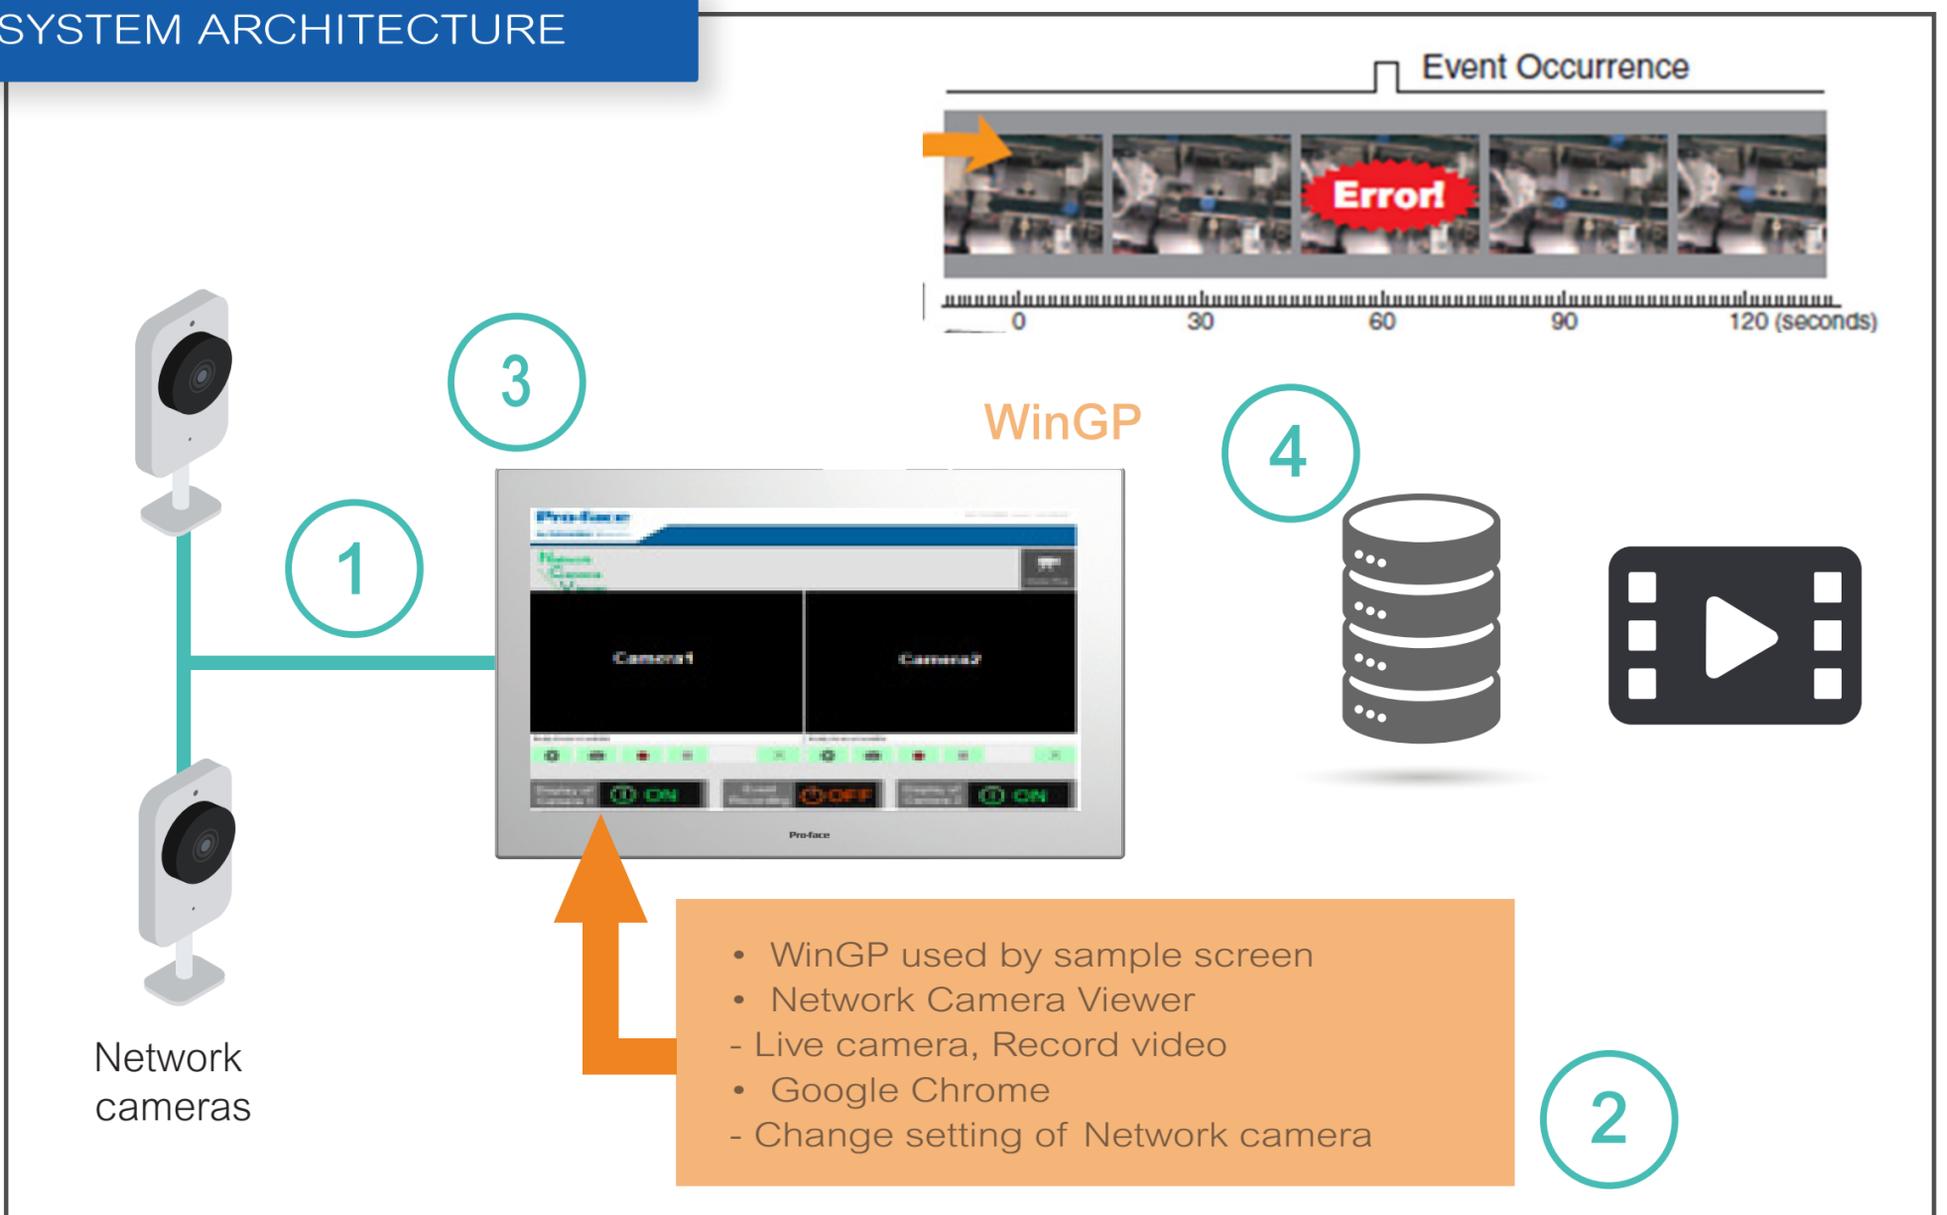

Reduced Downtime

Operators and supervisors make quicker decisions.

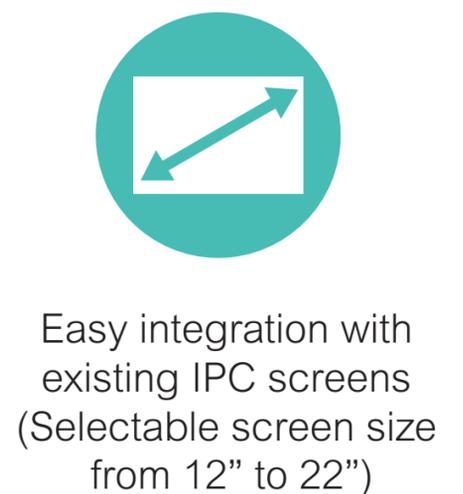

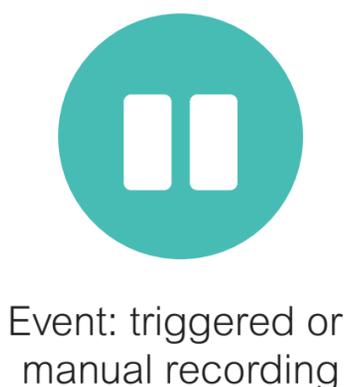

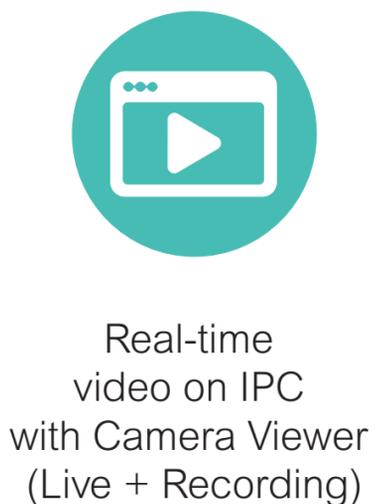

EASY DEPLOYMENT

1. Connect the Intelligent network camera to the PS6000 (IPC)
2. Install the Camera Viewer App on the IPC
3. Integrate Camera App and IPC screen to Display Live & Record on the IPC (WinGP)
4. Store recorded files to the IPC
